(c) Mainly considers effects if operations with derivates associated with debt (Bonds and loans)

The accompanying notes numbered 1 to 39 form an integral part of these interim consolidated financial statements.

## AGROSUPER S.A. AND SUBSIDIARIES

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF MARCH 31, 2025 (ANAUDITED) AND DECEMBER 31, 2024.

### 1. GENERAL INFORMATION

Agrosuper S.A. (hereinafter the “Parent Company” or the “Company”) and its subsidiary companies, make up the Agrosuper Group (hereinafter “Agrosuper” or the “Group”).

Agrosuper S.A. was founded by a public deed dated October 29, 2010, granted by the Santiago Notary of Mr. Andres Rubio Flores. The respective extract was published in the Official Gazette on December 24, 2010 and registered on page 69,043, number 48,224 of the Commerce Registry of the Santiago Property Registrar in 2010.

The Company is a privately held corporation registered in the Securities Registry under number 1084 and is regulated by the Chilean Financial Markets Commission when issuing bonds.

Agrosuper S.A. Tax ID: 76.129.263-3 has its principal domicile at Camino La Estrella No. 401, office 56, Punta de Cortés, Rancagua.

On the date the Company was incorporated its shareholders were Agrocomercial El Paso S.A. and Promotora Doñihue Limitada, with an interest of 98.48% and 1.52%, respectively.

On January 25, 2021, the amendment of the capital of Agrosuper S.A. was agreed in order to convert the capital stock from Chilean peso to U.S. dollar, due to the change in the Company's functional currency. By virtue of the foregoing, the capital stock denominated in US dollars is ThUS\$1,342,549 US dollars, divided into 23,500,376,756 common shares.

On January 30, 2024, our founder and Chairman Gonzalo Vial Vial passed away. He will be remembered for his simplicity, exemplary leadership and entrepreneurial spirit.

Heirs of Gonzalo Vial Vial, and his children Ms. Maria Cristina Vial Concha, Ms. Maria del Pilar Vial Concha, Ms. María José Vial Concha, and Mr. Gonzalo Vial Concha, through direct an indirect participation in the companies Inversiones VC Limitada, Agrícola GV S.A., Agrocomercial El Paso S.A., y Promotora Doñihue Limitada, controlling of 100% of the ownership of Agrosuper S.A.. Below are the percentages of indirect participation of the natural persons already mentioned in the Company.

Full name	Chilean ID No.	%
Succession Gonzalo Vial Vial	-	1.72
María Cristina Vial Concha	7,032,945-K	24.57
María José Vial Concha	7,022,776-2	24.57
María del Pilar Vial Concha	7,022,695-2	24.57
Gonzalo del Rosario Vial Concha	7,022,663-4	24.57

The Company's purpose is to:

- a) Invest in all manner of tangible or intangible, movable, or immovable property, including the acquisition of shares, units, or rights in any company, regardless of whether they are commercial or civil, communities or associations, bonds, financial instruments, trading instruments and in general in any transferable securities and credit or investment instruments and the management and operation of these investments and their rewards or returns.
- b) Incorporate any company or association and invest in them, either as partners or shareholders, and amend and manage them.
- c) Administer, manufacture, operate and market, directly or through other people, of all manner of movable goods, especially those involved in agriculture, mining, fisheries, food, electricity, and fuel.
- d) Administer, construct, operate and market, directly or through other people, of all manner of agricultural or non-agricultural real estate, and dedicate itself to raising all kinds of animals, forestry, fruit, and agro-industry in general.
- e) Provision of all manner of services to people or legal entities, in particular to people related to the Company, which include, but is not limited to, administrative, finance, accounting, treasury, internal control, and human resources services, in Chile or abroad.
- f) Request, obtain, register, acquire, lease, license and market trademarks, brands, trade names, domain names, patents, inventions, processes, drawings, designs, know-how and other intangible assets related to intellectual and industrial property.

## **2. BUSINESS DESCRIPTION**

### **2.1 Historical Review**

Agrosuper S.A. manufactures and markets animal protein products made from chicken, pork, turkey, salmon and processed products. The production process is vertically integrated and is composed of animal feed factories, breeding farms, processing plants, distribution centers, marine farms and commercial offices. This ensures that the company can provide a broad portfolio of products to customers and consumers in Chile and over 60 countries.

Agrosuper began in 1955 by producing eggs in Doñihue, in the Sixth region, and five years later its founder, Mr. Gonzalo Vial, decided to expand the business into producing and selling live chickens.

In 1974, it expanded its business to processing and marketing chicken and opened its first processing plant in Lo Miranda, Doñihue. This marked the beginning of Agrosuper's business under the Super Pollo brand.

In 1984, a significant opportunity to expand production was identified by entering the pork business and drawing on experience raising live animals and making efficient use of available infrastructure. The business was expanded to include fattening, processing and selling this meat under the brand Super Cerdo.

In 1989, trout and salmon production and marketing began in the Puyuhuapi channel, Aysén region under the Los Fiordos brand, which initiated salmon farming in southern Chile. A year later, it entered the sausage business, to add value to its chicken and pork business by leveraging its potential distribution and marketing synergies.

It also began its international expansion, with the first exports of pork to Argentina.

In 1996, the company acquired 40% of Sopraval and began operating in the Valparaíso Region, given the boom in turkey consumption in Chile and worldwide. This acquisition benefited from all its expertise in animal husbandry, and synergies were quickly identified in its extensive distribution chain.

In 2002, Agrosuper acquired Pollos King with the objective of growing its share of the local market, which enabled it to attract a wider variety of customers.

The same year, the Los Cipreses School in Lo Miranda was formed by the Agrosuper Foundation, to provide free, high quality education to more than 1,000 children and young people.

The Company began to open its own sales offices in its principal global markets in 2002, in order to provide personalized customer service and create alliances with local distributors. It initially started in Italy, then in the United States in 2003, in Japan in 2004, in Mexico in 2005, and in Brazil and in Hong Kong and Shanghai in China in 2012.

A fire broke out at the San Vicente de Tagua Tagua poultry processing plant in 2006 (opened in 1994), which resulted in reconstruction that was completed in August 2007, when the plant resumed functioning as normal.

Agrosuper S.A. was created in 2010, to manage the protein business and the first professional Board of Directors was formed, thus strengthening the Company's corporate governance.

In 2011, the entire Sopraval brand was acquired and turkey production continued. Also, significant projects were completed this year that have helped Agrosuper to fully integrate the production cycle of the salmon business, with sanitary standards well above the average for the industry, which includes a processing plant at Quellón, hatcheries, smolt facilities and a fish feed plant at Parga.

In December 2011, the first line of bonds for up to UF 5,000,000 was registered with the Superintendency of Securities and Insurance (now the Financial Market Commission) with a terms of 21 years accordance with their contractual conditions. The objective was to access new sources of financing for the Company's projects.

During 2012, the Board of Directors of Agrosuper S.A. indefinitely suspended the Huasco Project with an associated cost of US\$480 million, as the environmental authority had amended its Environmental Approval, which limited the financial viability of the project and created uncertainty regarding its development.

A fire completely destroyed the poultry processing plant in the Lo Miranda district in 2014. Agrosuper completely reconstructed it, to ensure that the plant could return to normal and resume supplying its products to customers and consumers.

The confined composting system in the productive sector of La Estrella was inaugurated in 2015, which transforms pig slurry, a mixture of manure, urine and water, into fertilizer for agricultural soil, while minimizing odors. This reduced the emission of bad odors by 98% in the Lago Rapel basin.

Agrosuper acquired 67% of Empresas AquaChile S.A. from its majority shareholders in August 2018, and launched a take-over bid for the remaining shares. This transaction was approved by the National Economic Prosecutor's Office on December 7, 2018, then was closed and declared successful on January 20, 2019, leaving it holding 99.71% of the voting shares. Control was assumed on January 22, 2019 with the first meeting of the new Board of Directors of Empresas Aquachile S.A.

Subsequently, the dissenting shareholders exercised their right to withdraw, in accordance with Article 71 bis of Corporations Law, and sold their shares to the controlling shareholder, leaving it directly and indirectly holding all the voting shares.

In September 2018, the Agrosuper subsidiary Los Fiordos acquired all the assets of the Salmon Farming Division of Grupo Pesquero Friosur, which included the acquisition of a hatchery, 12 farming sites and 40 concessions in the Aysén Region. This transaction was approved by the National Economic Prosecutor's Office on October 2, 2018 and completed in December 2018.

In September 2018, bonds were placed totaling UF4,000,000 with a term of 10 years and UF1,500,000 with a term of 23 years, both in accordance with their contractual placement conditions, both from the bond line registered with the Superintendency of Securities and Insurance (now the Financial Market Commission).

Empresas AquaChile S.A. will consolidate the entire aquaculture segment following the transfer of Los Fiordos interest in AquaChile during 2020, and its main purpose is to segment its meat and salmon products, which will generate efficiencies in managing the information used for decision making, produce reports in a timely manner and take advantage of all the synergies arising from concentrating the Group's salmon companies.

On January 20, 2022, bonds were placed on the international market for ThUS\$500,000 with a 10-year term and a placement rate of 4.6% per annum. The issue complied with Rule 144A and Regulation S of the Securities and Exchange Commission under the Securities Act of 1933 of the United States of America.

On January 30, the founder and Chairman of the company, Gonzalo Vial Vial, passed away. He was a visionary, industrious, a creator of opportunities and an example of integrity, with a deep concern and unwavering commitment to Chile's development. These characteristics will remain with those who are and were part of Agrosuper as his legacy.

## 2.2 Segments

The Company has defined three operating segments, which were defined based on its organizational structure, the nature of its business activities, the management of these segments (Meat, Aquaculture and Others) and the way in which information is analyzed for decision making.

These operating segments have separated financial information and the results of their operations are periodically reviewed by the chief operating decision maker of each segment to decide on the allocation of resources and to evaluate their performance.

### Meat Segment

This segment includes production, processing, distribution, and marketing of meat products based on chicken, pork, turkey, and processed foods, for domestic and export markets. These products are sold under the Agrosuper, Super Pollo, Super Cerdo, Sopraval, La Crianza, King and Super Beef brands.

This business process is vertically integrated from producing the live animal through to marketing its products on national and international markets, through an extensive distribution chain.

The production process starts by importing the first generation of live animals, which enables the Company to locally develop two generations of chickens (breeders and broilers), three generations of pigs (grandparents, breeders and fatteners) and one generation of turkeys (eggs are directly imported from breeders). This secures supplies at a key stage in the chain, which leads to the breeding and fattening stages. This whole process is performed at its own facilities. The Company has food plants and complete sewerage treatment systems that support the productive cycle.

The fattening stage is followed by the processing stage. These plants use the most advanced technology to prepare many fresh and frozen products with various features, depending on the target market or customer. This process secures complete traceability, with quality and biosafety standards that are the highest in the industry.

Processed foods are mainly based on chicken, pork, turkey, salmon and beef. This unit is focused on developing new business segments, by introducing new products with high added value that are convenient, practical and healthy, based on the latest consumption trends.

Therefore, the sanitary status of all its processes, the excellence of its environment, the bio-safety of its operations and the safety of its products are all closely controlled. Its productive processes have been certified as meeting various quality standards, which include: ISO 9001 and HACCP (product quality), BRC (British Retail Consortium), ISO 14001 (environmental management), APL (clean production agreement), BPA (good agricultural practices) and PABCO (animal processing plants under official certification). All these certificates of compliance with quality standards enable it to reach more demanding global markets, such as the North American, European and Asian markets.

Domestic distribution is managed by 26 sales offices throughout the country, which enables it to reach over 300 communities with its products, which represents over 98% of the country. International distribution is managed through commercial offices in Atlanta, USA; Mexico City, Mexico; Genoa, Italy; Shanghai and Hong Kong, China; and Tokyo, Japan.

In the segment, currently we are implementing a productive transformation process in the turkey business, aimed at adapting our turkey operations for chicken farming.

This process responds to different factors that have impacted the business, mainly, the decrease in global turkey consumption, primarily the decline in global turkey consumption—due to changes in consumer habits—and the avian influenza outbreaks in early 2023, which led to the closure of key export markets such as China and Europe.

This plan consists of a gradual migration of production that will be carried out as sectoral permits are obtained and that does not contemplate the closure of facilities but rather their reconversion.

At the beginning of October, we started this process with the reconversion of the first turkey plant to chicken plant in the Casablanca area, and will continue with the following production sectors.

Our Sopraval brand will keep its presence in the domestic market with its principal products, and gradually, raw materials will be sourced from different suppliers, adhering to the highest quality standards.

### **Aquaculture Segment**

This segment includes producing, processing, distributing and marketing products based on Atlantic and Pacific salmon in domestic and export markets. These products are sold under the Aqua and Verlasso brands.

This business process is vertically integrated from producing eggs through to marketing its products on national and international markets, through an extensive distribution chain.

The Company has its own breeding program that produces eggs and smolts, which secures a wide safety margin at this key stage in the production chain. This is followed by the fattening process, using only its own concessions and fattening centers. The Company has storage facilities on land and plants that use the latest technology, which process all production and prepare a range of products with various features depending on the target market or customer. This process ensures complete traceability, with quality and biosafety standards that are the highest in the industry.

Therefore, the sanitary status of all its processes, the excellence of its environment, the bio-safety of its operations and the safety of its products are all closely controlled at every stage. The Company has certified compliance with various quality standards: ISO 9001 and HACCP (product quality), ISO 14001 (environmental management), OHSAS 18001 (occupational safety), IFS (International Food Standard) Level v5, BRC (British Retail Consortium) v5, Global GAP and BAP (good practices in agriculture and aquaculture) and Kosher Certification. All these certificates of compliance with quality standards enable it to reach more demanding global markets, such as the North American and Asian markets.

## Segment Other

This segment mainly incorporates the provision of distribution services to third parties, using the installed logistics capacity, with a minimal investment of resources in addition to the usual management

### 3. BASIS OF PRESENTATION OF THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

#### 3.1 Basis for the Interim Consolidated Financial Statements

These interim consolidated financial statements include assets, liabilities, income, equity and cash flows of the Company and its subsidiaries. The balances and effects of significant transactions between subsidiaries have been eliminated on consolidation together with unrealized income. The participation of minority investors has been recognized within non-controlling interests in the statements of financial position and of comprehensive income.

When preparing the interim consolidated statement of financial position, Management has utilized its best understanding and knowledge to apply standards and interpretations to current facts and circumstances, which may be subject to change. For example, additional amendments to standards or interpretations may be issued by the International Accounting Standards Board (IASB) that may change the current standards.

Net income, conversion differences and dividends declared by subsidiaries and affiliated companies are recognized in equity in each reporting period.

#### 3.2 Basis for the preparation and presentation of the interim financial statements

These interim consolidated financial statements comprise statements of financial position as of March 31, 2025 and December 31, 2024, the interim related statements of income by function and comprehensive income, interim statements of changes in equity and interim statements of cash flow, direct method, for the periods from January 1 to March 31, 2025 and 2024 and they have been prepared in accordance International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

The preparation of these interim consolidated financial statements includes estimates made by Group Management, to quantify various assets, liabilities, revenues, expenses and commitments. These estimates basically refer to:

- Useful lives of assets
- Asset impairment
- Allowance for doubtful accounts receivable
- Fair value of biological assets
- Net realizable value of inventories
- Fair value of derivative instruments

Although these estimates have been based on the best information available at the date these interim consolidated financial statements were issued, it is possible that events may occur in the future that will require a change in future periods, which would occur prospectively, and recognize the effects of such changes in the corresponding interim consolidated financial statements.

### **3.3 Changes in accounting policies**

For an easier comparison, certain least reclassifications have been made to the interim consolidated financial statements corresponding to the period 2024.

The interim consolidated financial statements of the Company and its subsidiaries do not present other significant changes in accounting policies and estimates as compared to the previous year and have been prepared in accordance with IFRS, with the principles and criteria applied being consistent.

## **4. PRINCIPAL ACCOUNTING POLICIES**

The principal accounting policies used to prepare these interim consolidated financial statements are described as follows. These policies have been defined in accordance with IFRS, and have been applied uniformly throughout all the period presented in these interim consolidated financial statements.

### **4.1 Presentation of Interim Consolidated Financial Statements**

#### **Interim Consolidated Statements of Financial Position**

Agrosuper S.A. and its subsidiaries have classified balances as current and non-current for the purposes of presenting its interim consolidated statement of financial position.

#### **Interim Consolidated Statements of Comprehensive Income**

Agrosuper S.A. and its subsidiaries have presented its interim consolidated statements of income classified by function and interim consolidated statements of comprehensive income.

#### **Interim Consolidated Statements of Cash Flow**

Agrosuper S.A. and its subsidiaries have presented its interim statements of cash flow using the direct method.

## 4.2 Accounting period

The interim consolidated financial statements of Agrosuper S.A. and its subsidiaries are for the periods described below.

	CUMULATIVE		QUARTERLY	
	01.01.2025 03.31.2025	01.01.2024 12.31.2024	01.01.2025 03.31.2025	01.01.2024 03.31.2024
Statements of financial position	X	X		
Statements of changes in equity			X	X
Statements of net income by function			X	X
Statements of comprehensive income			X	X
Statements of cash flow				

## 4.3 Consolidation basis

The interim consolidated financial statements of Agrosuper S.A. (the Company) and its subsidiaries (collectively, the Group) include the assets, liabilities, income, expenses and cash flows of the Company and its subsidiaries.

The minority shareholders share of equity and net income of the consolidated subsidiaries is presented in “Equity attributable to non-controlling interests” and “Net income attributable to non-controlling interests” in the interim consolidated financial statements.

The accounting policies and procedures used by Agrosuper Group companies have been aligned with the parent Company, in order to present interim consolidated financial statements using standardized valuation policies.

The interim financial statements of dependent companies whose functional currency is different from the presentation currency are converted using the following procedures:

- a) Assets and liabilities are converted using the prevailing exchange rate on the reporting date.
- b) Items in the interim income statement are converted using the average exchange rate for the period.
- c) Equity is held at the historical exchange rate at the date of acquisition or contribution and at the average exchange rate at the date of generation in the case of retained earnings. Exchange differences attributable to the Controller that arise on the conversion of interim financial statements is recorded under the heading “Exchange differences on conversion” within equity.

**4.3.a) Subsidiaries** - A subsidiary is an Company where Agrosuper S.A. can control its operating and financial policies, in order to obtain a return on its business. This control is generally, but not always, defined as direct or indirect ownership of over 50% of rights in the Company. Companies are also consolidated using this method even when this ownership share has not been reached, when it is understood that its business is run for the benefit of Agrosuper S.A., who is exposed to all its risks and rewards. The interim consolidated financial statements include all assets, liabilities, income, expenses, and cash flows of the Company and its subsidiaries after eliminating inter-company balances and transactions between Group companies, as indicated in IFRS 10.

The table below details the direct and indirect subsidiaries that have been consolidated:

ID number	Company	Relationship to Parent company	Country	Functional Currency	% Interest as of 03.31.2025			% Interest as of 12.31.2024		
					Direct	Indirect	Total	Direct	Indirect	Total

- a) Aquachile SpA and Inversiones Aquachile SpA merged following resolutions approved at respective Extraordinary Shareholders' Meetings held on January 2, 2024. The former was the absorbing company, which resulted in Inversiones AquaChile SpA being dissolved. The minutes of the AquaChile SpA meeting were recorded in a public deed on January 2, 2024, and an extract was registered on page 151 number 83 of the Commercial Registry of the Puerto Montt Real Estate Registry for 2024. The minutes of the Inversiones AquaChile SpA meeting were recorded in a public deed on January 2, 2024, and an extract was registered on page 153 number 84 of the Commercial Registry of the Puerto Montt Real Estate Registry for 2024.
- b) Exportadora Los Fiordos Limitada was amended by public deed on March 22, 2024, as follows: (1) The merger of Inversiones AquaChile SpA and Aquachile SpA (the "Merger") was agreed at an Extraordinary Shareholders' Meetings held on January 2, 2024, where Aquachile SpA absorbed Inversiones AquaChile SpA and became the legal successor to all its assets, liabilities and equity. On January 2, 2024, the minutes of the Extraordinary Shareholders' Meetings of Inversiones AquaChile SpA and Aquachile SpA referred to above were recorded in public deeds, thus legalizing the Merger. Consequently, Aquachile SpA has acquired 99.99% of the voting shares of Exportadora Los Fiordos Limitada that were owned by Inversiones AquaChile SpA. (2) Consequently, Aquachile SpA and Empresas Aquachile S.A. are its only shareholders and own 99.99% and 0.01% of its shares respectively. The share capital of the company is now US\$ 357,821,895.28, paid as follows: a) Aquachile SpA fully paid US\$ 357,786,112.88 for 99.99% of its shares, and b) Empresas Aquachile S.A. fully paid US\$35,782.40 for 0.01% of its shares."
- c) On April 29, 2024, Agrosuper S.A. modified the Twelfth article of its bylaws, in order to reduce the number of directors that make up the Company's board of directors, from 10 to 9 members.
- d) On April 29, 2024, Empresas Aquachile S.A. modified the Twelfth Article of its bylaws, in order to reduce the number of directors that make up the Company's board of directors, from 10 to 9 members.
- e) On May 15, 2024, Exportadora Los Fiordos Limitada was amended to increase its capital from US \$357,821,895 to US \$357,840,576, through the contribution in ownership of the "San Pedro" concession, by Empresas Aquachile S.A
- f) On August 20, 2024, Aquachile SpA and Empresas Aquachile S.A., as partners of Exportadora Los Fiordos Limitada, reversed the company's capital increase executed on May 15, 2024, which involved the transfer of the San Pedro concession. The purpose was for said concession to be operated again by Empresas Aquachile S.A.
- g) A shareholders' meeting of Aquachile Magallanes SpA was held at November 5, 2024, where its shareholders agreed to increase the capital of the company from US\$100,614,176 to US\$100,731,387, through the contribution of ownership of the "Benjamín 2" concession, owned by Exportadora Los Fiordos Limitada.

- h) A shareholders' meeting of Procesadora Calbuco SpA was held at November 5, 2024, where its shareholder decided to increase the capital of the company from US\$7,532,622.26 to US\$7,551,303.47, through the contribution of ownership of the 'Lagrece Norte' concession, by Empresas Aquachile S.A.
- i) On November 8, 2024, Agrosuper Comercializadora de Alimentos Limitada was amended to expand its corporate purpose, including the provision of back-office services.
- j) An extraordinary shareholders' meeting of Centro de Innovacion Aquainnovo Biomar S.A was held on January 30, 2025 and the minutes were summarized in a public deed with the same date. This meeting approved a capital decrease from US\$ 6,823,563 to US\$ 5,023,563 maintaining the number of shares, being distributed as follows: Aquachile SpA with 12,673 shares and Biomar Chile S.A. with 5,431 shares

#### **4.3.b) Affiliates or associates**

An associate is company over which Agrosuper S.A. can exercise significant influence, but not control nor joint control, as it can participate in decisions regarding its operational and financial policies. The Group's share of its associates' net assets, after-tax net income and post-acquisition reserves is included in the financial statements. This requires initially recording the investment at cost and then adjusting the book value of the investment in subsequent periods to reflect the Group's share of the associate's net income, less impairment of goodwill and other changes in the associate's net assets, such as dividends.

#### **4.3.c) Acquisitions and disposals**

The net income from businesses acquired during the period is included in the interim consolidated financial statements from the effective date of acquisition. The net income of businesses sold during the period is included in the interim consolidated financial statements for the period until the effective date of disposal. Gains or losses upon disposal are calculated as the difference between the income obtained for the sale (net of expenses) and the net assets attributable to the interest that has been sold.

#### **4.3.d) Transactions and non-controlling interests**

Agrosuper S.A. applies the policy of considering transactions with non-controlling interests as transactions with Group shareholders. When acquiring a non-controlling interest, the difference between the amount paid and the share of the book value of that company's net assets is recorded in equity. Gains and losses on reductions in non-controlling interests, while retaining control, are also recorded in equity.

#### **4.4 Functional and presentation currency**

The items included in the individual interim financial statements of subsidiaries are valued using the currency of the primary economic environment in which the entity operates (functional

currency). The interim consolidated financial statements are presented in dollars, which is the company's functional currency.

Monetary assets and liabilities denominated in foreign currencies are recognized at the closing exchange rate for each period. Any changes between their original value and their closing value is recognized in the interim consolidated statement of comprehensive income under exchange differences, except if these changes are deferred in equity, such as cash flow hedges, which are recognized in other comprehensive income.

Assets and liabilities for subsidiaries with a functional currency other than the US dollar are converted to this currency at the exchange rate on the closing date of the interim financial statements on consolidation, and interim income statements are converted using the average exchange rate. Exchange differences on conversion arising on the net assets of these companies are recognized in equity in a separate conversion reserve within other reserves.

The functional currency of the entity shall reflect the underlying transactions, events and conditions that are significant to the entity. Consequently, once the functional currency has been chosen, it cannot be changed unless there is a change in such transactions, events or conditions.

When there is a change in the entity's functional currency, the entity shall apply the conversion procedures applicable to the new functional currency prospectively from the date of change.

#### 4.5 Conversion basis

Assets and liabilities in UF, Chilean pesos, Euros, Mexican pesos, Japanese yen, Pounds Sterling and Brazilian reals have been converted to US dollars at the prevailing exchange rates on the closing date of these financial statements, as detailed below:

Currency	03.31.2025 US\$	12.31.2024 US\$
Unidad de Fomento (UF) (a)	40,80929	38,55317
Chilean pesos	0,00105	0,00100
Euro	1,08143	1,03896
Japanese yen	0,00667	0,00636
Pound sterling	1,29099	1,25345
Brazilian real	0,17476	0,16189
Mexican peso	0,04895	0,04866
Hong Kong dollar	0,12853	0,12880
Peruvian sol	0,27230	0,26548
Chinese yuan	0,00667	0,13672

a): The Unidad de Fomento is a monetary unit denominated in Chilean pesos, indexed to the Chilean inflation rate. Its value is set daily and in advance, based on the variation in the Consumer Price Index (IPC) for the previous month.

Exchange differences and inflation indexation are charged or credited to net income according to IFRS, except for the conversion of subsidiaries financial statements that use a functional currency other than the US dollar, which are recorded in other reserves within equity.

#### **4.6. Trade and other receivables**

Trade and other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted on an active market. Those assets that will mature in less than 12 months are classified as current assets. Those assets that will mature in greater than 12 months are classified as non-current assets.

The entire trade receivables portfolio is comprised of sales on credit and the Company applies the following hedging policy to it:

##### **Domestic Market**

Every credit customer has an individual line of credit approved by the Insurance Company regardless of the credit term. This insurance policy applies a deductible of 10% to each receivable, and the Company makes impairment provisions for the deductibles of each customer with a claim or in judicial collection, when the case is reported to the insurance company.

Customers without credit must pay immediately, so no impairment provision is required.

##### **International Market**

Approximately 81.4% of sales are to customers with an individual line of credit approved by the insurance company. This insurance policy applies a deductible of 10% to each receivable, and the Company makes impairment provisions for the deductibles of each customer with a claim or in judicial collection, when the case is reported to the insurance company.

Customers without an approved line of credit with an insurance company are:

- Customers who guarantee and pay with Letter of Credit, who represent approximately 5.6% of sales. In these cases, the customer's bank pays the national bank that has confirmed the letter of credit, in order to finally pay Agrosuper S.A. or AquaChile S.A.
- Customers who prepay or pay against a copy of the documents (CAD) represent 6.2% of sales. In these cases, the customer pays between 10% and 50% in advance and the difference is paid when the product arrives. However, the documentation required to clear customs is released after the customer has paid.
- Customers who pay against a copy of the documents (CAD) represent 6.0% of receivables, where the documentation required to clear customs is released after the customer has paid.

- Customers who fully prepay before the product is dispatched represent 0.8% of receivables.

#### **4.7 Property, Plant and Equipment**

Property, Plant and Equipment is stated at cost, excluding periodic maintenance costs, and less accumulated depreciation and accumulated impairment losses. This cost includes the cost of replacing components of property, plant and equipment, if recognition criteria are met.

The cost of major maintenance is added to the book value of Property, Plant and Equipment as a replacement, if recognition criteria are met. Accounting policies and criteria are applied consistently to additional components that affect the valuation of plant and equipment and their corresponding depreciation.

Any gain or loss from the disposal or withdrawal of an asset is calculated as the difference between the sales price and the asset's book value and is recorded in net income for the period.

The Company reviews the book value of its assets to assess whether there is any indication that the book value may not be recoverable, in accordance with IAS 36. If identified, the recoverable value of the asset is estimated to calculate the extent of the impairment. Assets that do not generate independent cash flows are grouped into appropriate cash generating units (CGU) for impairment testing purposes.

The recoverable amount is the greater of fair value less selling costs, and value in use. Value in use is calculated as the present value of future cash flows discounted at a rate associated with the evaluated asset.

If the recoverable value of an asset is estimated to be less than its value book, the book value is reduced to the recoverable value.

Assets that have an indefinite useful life, for example, land, are not amortized and are tested for impairment on an annual basis. Amortized assets are tested for impairment whenever an event or change in circumstances indicates that their book value may not be recoverable.

Impairment losses can be reversed, but are limited to losses recognized in previous periods, in such a manner that the book value becomes the same as if these impairment adjustments had never been made.

#### 4.8 Depreciation

Components of Property, plant and equipment are depreciated on a straight-line basis by distributing the asset's acquisition cost less its estimated residual value over the asset's estimated useful life. The following table presents the main components of Property, plant and equipment and their useful lives:

	Financial useful life Range in years
Buildings	40 and 50
Constructions and infrastructure works	20 and 50
Machinerand and equipment	10 and 15
Information technology equipment	3 and 5
fixed installations and accessories	10 and 20
Motor vehicles	5 and 10

Property, plant and equipment is depreciated on a straight-line basis over its useful life. The useful lives of the assets are reviewed annually to assess whether the initial conditions have changed. Land is recorded separately from any buildings or infrastructure built on it, and has an indefinite useful life, so is not depreciated.

The Group tests Property, plant and equipment for impairment at least once each year. Any reversal in impairment losses is recorded in net income, except assets that have been previously revalued whose reversal is recorded in equity.

#### 4.9 Borrowing costs

The Group's property, plant and equipment include borrowing costs incurred to construct or acquire the asset. These costs are capitalized until the assets are in condition to be used, in accordance with IAS 23. Capitalized borrowing costs use the weighted average interest rate of the related loans.

#### 4.10 Goodwill

Goodwill generated upon consolidation represents the excess of the acquisition cost over the Group's share of the fair value of assets and liabilities, including identifiable contingent assets and liabilities of a subsidiary as of the acquisition date.

The valuation of assets and liabilities acquired in taking control of a company is finally calculated based on the fair value of its assets and liabilities. The difference between the acquisition price and the fair value of the acquired company is recorded as goodwill.

Goodwill is not amortized, but at each reporting date the respective investment is evaluated for evidence of impairment that might reduce its recoverable value to below its book value, which would trigger an annual impairment provision.

The Company's assumptions to calculate the recoverable value of its assets during the period are as follows.

- a. Identification of acquired goodwill and its recognition when it complies with IAS 38 Intangible Assets. Revaluation is based on changes in market conditions since the last valuation, the acquirer's plans and evaluation of potential impairment. This includes brands already registered with the acquirer, concessions, and water rights recognized by AquaChile.
- b. Valuation of biomass at fair value according to the method validated by the acquirer. Atlantic salmon and Coho at fair value when it reaches 1.0 kg. While they weigh less than this weight, their fair value is accumulated cost less impairment. The biomass in sea water is classified as short term, with biomass in freshwater as long term.
- c. Valuation of property, plant and equipment not recently valued.
- d. Investments recognized using the equity method are recognized at fair value.

To support that the recoverable amount of the assets is greater than the amount paid and therefore there is no indication of impairment of goodwill, management has performed a Discounted Cash Flow using a 5-year time horizon and has performed an assessment of the Value in Use of Assets versus the Book Value of each goodwill.

#### **4.11 Intangible assets other than goodwill**

Separately acquired intangible assets other than goodwill are initially recognized at acquisition cost. The cost of intangible assets acquired in a business combination is their fair value as of the date of acquisition. After initial recognition, intangible assets are recorded at cost less any accumulated amortization and any accumulated impairment loss.

The useful lives of intangible assets are defined as finite and indefinite. Intangible assets with indefinite useful lives are tested for impairment annually either as an individual asset or as a Cash Generating Unit (CGU).

Intangible assets with finite useful lives are amortized over their useful life and are tested for impairment each time there is an indication that the intangible asset may be impaired. The amortization period and amortization method for an intangible asset with a finite useful life are reviewed at least at every reporting date. Expected changes in useful life or the expected consumption pattern of future financial returns are recognized by changing the amortization period or amortization method, as appropriate, and treated as changes in accounting estimates. Amortization expenses for intangible assets with finite useful lives are recognized in the income statement, which is consistent with the function of an intangible asset.

The Company's main intangible assets are:

**(a) Aquaculture concessions:** Aquaculture concessions acquired from third parties are recognized at historical cost and their amortization is subject to the results of annual impairment testing.

**(b) Research and development expenses:** Research costs are expensed as incurred. An intangible asset that arises from developing an individual project is recognized only when Agrosuper S.A. and its subsidiaries can demonstrate the technical feasibility of completing the intangible asset so that it will become available for use or sale, their intention to complete it and their ability to use or sell the asset, how the asset will generate future financial returns, the availability of resources to complete the asset and the ability to reliably measure expenditure during its development.

**(c) Water rights:** Water rights are initially recognized at their acquisition cost and are not amortized. These assets are tested for impairment every year, or when there are indications of a possible loss in value.

**(d) Commercial brands:** The Company's brands are intangible assets with indefinite useful lives that are recognized at historical cost, less any impairment losses. These assets are tested for impairment every year, or when there are indications of a possible loss in value.

**(e) IT projects and other intangible assets:** These intangible assets correspond mainly to IT developments and licenses :These computer assets are capitalized at the value of the costs incurred in acquiring them and preparing them for use with the specific software. These costs are amortized over their estimated useful lives (4 to 8 years). Software maintenance costs are recognized as an expense in the period in which they are incurred.

#### 4.12 Investments in associates

Investments by Agrosuper S.A. and its subsidiaries in associates are accounted for using the equity method. An associate is an company over which the Company has significant influence that is not a subsidiary or a joint venture. Under the equity method, the investment in the associate is recorded in the statement of financial position at cost plus post-acquisition changes based on the Company's share of the associate's net assets.

The income statement reflects the Company's share in the associate's operating results. When a change has been recognized directly in the associate's equity, the Company recognizes its share of any change and discloses it, if necessary, in the statement of changes in equity. Gains and losses on transactions between the Group and the associate are eliminated on consolidation based on the participation in the associate.

The reporting dates of associates are identical to those of Agrosuper S.A. and its subsidiaries and the associate's policies agree to those used by the Company for equivalent transactions and events under similar circumstances.

#### 4.13 Impairment of non-financial assets

The Company and its subsidiaries assess whether there are indicators that a non-financial asset may be impaired at each reporting date. If such indication exists, or when there is an annual impairment testing requirement, the asset's recoverable value is estimated. An asset's recoverable value is the greater of the fair value of an asset or its cash generating unit, less its selling costs, and its value in use, and is calculated for an individual asset unless the asset does not generate cash inflows that are clearly independent from those of other assets or asset groups. When the book value of an asset exceeds its recoverable value, the asset is considered to be impaired and is written down to its recoverable value.

When assessing value in use, estimated future cash flows are discounted to present value using a before-tax discount rate that reflects current market assessments for the time value of money and the asset's specific risks. An appropriate valuation model is used to calculate fair value less selling costs.

Impairment losses of continuing operations are recognized in the income statement within expense categories consistent with the function of the impaired asset, except for previously revalued properties where the revaluation was recorded in equity. In this case, impairment is also recognized in equity, but limited to the value of the prior revaluation adjustment.

An assessment is made for assets at each reporting date as to whether there are indicators that the previously recognized impairment loss may no longer exist or may have decreased. If such an indication exists, the Group estimates the asset's recoverable value. A previously recorded impairment loss is reversed only if there has been a change in the estimations used to determine the recoverable value since the last impairment loss was recorded. If this is the case, the asset's book value is increased to its recoverable value. This increased value cannot exceed the asset's book value, net of depreciation, if the impairment loss had never been recognized in prior years. This reversal is recognized in the income statement unless an asset has been revalued, in which case the reversal is treated as an increase in the revaluation.

The following criteria are also applied in assessing impairment of specific assets:

- a) **Goodwill** - Goodwill is reviewed annually to determine whether any impairment exists, or more often if events or changes in circumstances indicate that its book value may be impaired.

Impairment is determined for goodwill by evaluating the recoverable value of the cash generating unit (or group of cash generating units) to which the goodwill is allocated. When the recoverable value of the cash generating unit (or group of cash generating units) is less than the book value of the cash generating unit (or group of cash generating units) to which goodwill has been allocated, an impairment loss is recorded. Impairment losses relating to goodwill cannot be reversed in future periods.

The Company and its subsidiaries perform annual impairment testing annually at each reporting date.

- b) **Intangible assets with indefinite useful lives** - The impairment of intangible assets with indefinite useful lives is tested annually at each reporting date, either individually or by cash-generating unit, as appropriate.
- c) **Investments in associates** - After applying the equity method, the Company determines whether an additional impairment loss must be recognized for investments in associates. The Company and its subsidiaries determine whether there is objective evidence that the investment in the associate is impaired at each reporting date. In this case, the Group calculates the impairment as the difference between the associate's fair value and its acquisition cost, and recognizes this expense in the income statement.

#### 4.14 Financial assets

The financial assets within the scope of IFRS 9 are classified at amortized cost, at fair value through profit and loss, or through equity, as appropriate.

When financial instruments are initially recognized, they are measured at fair value plus (in the case of investments not at fair value through profit or loss) directly attributable transaction costs.

The Company evaluates whether there are embedded derivatives in contracts or financial instruments to determine if their characteristics and risks are closely related to the principal contract provided the set is not being accounted for at fair value. If they are not closely related, they are recorded separately and changes in value are accounted for directly in the statement of comprehensive income.

The Company and its subsidiaries classifies its financial assets after initial recognition and, when permitted and appropriate, reassesses this classification as of each reporting date. All regular purchases and sales of financial assets are recognized on the trade date, which is the date on which the company becomes committed to the trade. Regular purchases and sales of financial assets are those that require the delivery of assets within the time frame generally established by regulation or market convention. The following investment classifications are used:

- a) **Financial assets at fair value through profit and loss** - Financial assets at fair value through profit and loss include financial assets held for sale and financial assets initially recognized at fair value through profit and loss.

When a contract contains one or more embedded derivatives, the entire hybrid contract can be designated as a financial asset at fair value through profit and loss, except when the embedded derivative does not significantly modify the cash flows, or it is clear that separation of the embedded derivative is prohibited.

- b) **Derivative financial instruments and hedges** - The Company and its subsidiaries use derivative financial instruments such as forward exchange contracts, cross currency swaps

(CCS) and interest rate swaps (IRS) to hedge their risks associated with fluctuations in interest rates and exchange rates. These derivative financial instruments are initially recognized at fair value at the date on which the derivative contract is entered into and are subsequently measured at fair value.

#### **4.15 Inventories**

Raw materials, products in process, finished products and spare parts are valued at the lesser of cost and net realizable value. Net realizable value represents the estimated sales value of the inventory less all remaining production costs and the costs necessary to carry out the sale.

Inventory is valued using the following methods:

- a) Finished products and products in process are animals that are no longer alive, such as poultry, pork, turkey and salmon processed into various cuts and packages and sausages, which are valued at their average monthly production cost. The average cost of finished products includes the value of raw materials, labor and indirect manufacturing costs.
- b) Raw materials, consumables and spare parts are valued at average acquisition cost.
- c) Inventory in transit is valued at acquisition cost.

Inventories of raw materials, consumables and spare parts that are expected to be used in production within a period of one year are presented as current assets. The Company estimates that most of its inventories have a high turnover.

When market conditions cause production cost to exceed net realizable value, an impairment estimate is recorded for the difference in value. This impairment estimate also considers amounts related to obsolescence arising from low turnover, technical obsolescence and products withdrawn from the market.

The company and its subsidiaries evaluate, at least annually, the existence of any potential impairment of materials and spare parts. Any impairment loss and its effect on income are recognized in the same period

#### **4.16 Biological assets**

Due to the nature of the business operated by the Company and its subsidiaries, the breeding, incubation, fattening and reproduction of chickens, turkeys, porks and salmon are classified as biological assets.

Biological assets intended for sale are classified as current biological assets, and those intended to reproduce new biological assets are classified as non-current and are depreciated on a straight-line basis over their useful lives, as described in note 13.3.

For those biological assets that are valued under the absorption costing method, the Company periodically evaluates the existence of any indication that the carrying amount may not be recoverable (impairment) in accordance with the standards contained in IAS 41 or IAS 36, as

applicable. If the recoverable amount of an asset is estimated to be less than its carrying amount, the latter is reduced to the recoverable amount.

### **Meat Segment**

Current biological assets are valued using the total production absorption costing method due to the short term of the production process (43 days for chicken, 130 days for turkey and 180 days for pork) and/or because such cost is close to its fair value.

Non-current biological assets are valued using a production costing method less accumulated depreciation on the basis of their years of productive life and whose value is close to their fair values.

### **Aquaculture Segment**

Starting January 1, 2019, the Company has opted for a discounted cash flow model or present value method for the determination of fair value. The estimates and valuation model used to measure biological assets are described below:

Biological assets (salmon), such as brood fish, eggs, fry, smolts and small growing fish, are measured at fair value at less estimated costs to the point of sale, except when fair value cannot be reliably determined in accordance with the definitions contained in IAS 41. For this purpose, the existence of a market for these assets must be considered in the first instance.

Considering that there is no active market for live fish inventories at these stages, it has been considered to value them at their accumulated cost at the closing date. Notwithstanding the above, if conditions are so required, the Group performs an impairment test of its breeding biomass, the cumulative net effect of which is charged against the results for the period.

Biological assets (salmon) in breeding equal to or greater than one kilogram of weight is measured at fair value less estimated costs of processing and sale.

The direct and indirect costs incurred in the production process are part of the value of the biological asset through its capitalization the accruals of such costs at the end of each period are compared and adjusted to the fair value of the biological asset.

Changes in the fair value of those biological assets are reflected in the interim consolidated statement of income of the period.

The calculation of the fair value estimate is based on market prices for harvested fish. This price is adjusted for the expected costs of harvesting, processing and freight to destination, to bring them to their value and condition of fish in bled-farmed condition (WFE<sup>1</sup>). Thus, the evaluation considers the stage of the life cycle, its current weight and the expected distribution to the weight at which

---

<sup>1</sup>WFE (*Whole Fish Equivalent*): is an industry standard measure, which refers to the weight of the whole bled salmon, also known internationally as *round weight* (RW).

the valuation of the biomass is made. This estimate of fair value is recognized in the interim consolidated statement of income for the period.

A summary of the valuation criteria is as follows:

Stage	Assets	Valuation
Fresh water	Spawning fish	Direct and indirect cumulative cost
Fresh water	Eggs	Direct and indirect cumulative cost
Fresh water	Fry and smolts	Direct and indirect cumulative cost
Sea water	Fish in the sea	Fair value, according to the following:
		·Atlantic salmon, above 1.0 kg WFE <sup>1</sup>
		·Pacific salmon, above 1.0 kg WFE <sup>1</sup>
		Smaller fish are valued at their cumulative cost as of the reporting date, net of impairment, if appropriate.

## Valuation model

The evaluation is reviewed for each fish farm and is based on the fish biomass at the close of each month. The detail includes the total number of fish growing-out, their estimated average weight and the cost of fish biomass. The estimated value is based on the average weight of the biomass, which is multiplied by the value per kg reflected in the market price estimated. The market price estimated is obtained from an index of international prices, or from sales as of the reporting date. So the data used for these purposes is level III input data, according to the definitions in IFRS 13.

## Assumptions used to determine the fair value of breeding fish

The estimated fair value of the fish biomass will be always based on assumptions, even if the Group has sufficient experience when considering these factors. The estimates take into account the following components: volume of fish biomass, average biomass weights, distribution of fish weights and market prices.

## Volume of fish biomass

The volume of fish biomass over 1 kg is estimated by the number of smolts in the sea, an estimate of their growth, an estimate of their mortality for the cycle, and other factors. Uncertainty with respect to the biomass volume is normally lower in the absence of mortality events or widespread illnesses.

## Weight distribution to harvest

Fish in the water grow at different rates and, even in the presence of good estimates of average weight, there may be some dispersion in the quality and size of the fish. It is important to consider the distribution of size and quality as there are different prices on the market according to these attributes of the product. When estimating the value of the biomass of fish, a normal distribution of sizes, or in its absence, the most recent size distribution obtained in processing by the Group's processing plants, is considered.

## Market prices

Market price assumptions are important for valuations, particularly when minor changes in market prices can result in significant changes in valuations.

### 4.17 Financial policies

The general financing and hedging policy of the Agrosuper companies provides guidelines for financing transactions using financial market hedging instruments, which aim to reduce operational risks, exchange rate risks and interest rate risks, which are described in the following policies.

- 1) **Financing policy** Financing requirements are identified by the Company's cash mismatches, which can be short or long term and are subject to the Company's financial performance and its investment plan. Accordingly, the Company bilaterally evaluates sources of short and long-term financing with local and international banks and the financial markets.
- 2) **Hedge policy** The objective of using derivatives is to reduce the financial risk of inflows and outflows committed in currencies other than the U.S. Dollar, arising in companies owned by Agrosuper. Derivatives are used to maintain known levels of debt and minimize exchange rate exposure in foreign trade transactions so as to reduce the effect of variations in the interest rates and/or exchange rates.
  - a) **Sale hedge policy** The objective of this policy is to hedge against the sale exchange rate by fixing income from exports. Since Agrosuper sells in different currencies (Japanese Yen, CNY and Euro), the execution of this policy converts all transactions from the currency of origin to the U.S. Dollar.
  - b) **Debt Hedge Policy** In order to look for the best financing rates, it might be that the debt subscribed by Agrosuper is in different currencies than the one sought. On that basis, debt must be converted to the currency of interest through forwards or an interest rate swap in order to neutralize the effect of having debt in a different currency while maintaining the advantage of a lower interest rate. This analysis is always made prior to closing a transaction.
  - c) **Interest Rate Risk Hedge Policy** The purpose of hedging interest rate is to limit the effect of variations in the interest rate in loans subscribed by Agrosuper to banks and financial institutions and in bonds, to thus reduce the volatility of cash flows generated by interest payments.
  - d) **Balance Sheet Hedge Policy** Agrosuper manages currency mismatching on a balance sheet level through a model by which exposure to different currencies occurring in the interim consolidated financial statements is monitored daily, taking them to the Company's functional currency.

#### 4.18 Financial liabilities

The Group has two groups of financial liabilities.

##### Other financial liabilities

- a) **Classification as debt or equity** - Debt and equity instruments are classified as either financial liabilities or as equity, according to the nature of the contractual arrangement.
- b) **Equity instruments** - An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The equity instruments issued by Agrosuper S.A. are recorded at the value of the consideration received, net of direct issuance costs. The Company currently has only issued one series of shares.
- c) **Financial liabilities** - Financial liabilities are classified either as financial liabilities at fair value through profit and loss, or as other financial liabilities.

**Financial liabilities at fair value through net income** - Financial liabilities are classified at fair value through profit and loss when they are held for trading, or when they are designated as at fair value through profit and loss.

**Other financial liabilities** - Other financial liabilities including loans are initially valued at the value received, net of transaction costs. Other financial liabilities are subsequently revalued at amortized cost using the effective interest rate method, recognizing the interest expense based on the effective interest rate.

The effective interest rate method is used to calculate the amortized cost of a financial liability and the allocation of interest expense across the entire corresponding period. The effective interest rate is the rate which exactly discounts the future estimated payment cash flows over the expected life of the financial liability, or where appropriate a lesser period, or where the associated liability benefits from an early repayment option that is likely to be exercised.

##### Trade and other payables

Trade payables are initially recognized at fair value and subsequently at their amortized cost using the effective interest method. When the nominal value of a payable does not differ significantly from its fair value, it is recognized at its nominal value.

#### 4.19 Derivative financial instruments and hedges

The Company and its subsidiaries use hedging financial instruments such as currency forwards, cross currency swaps and interest rate swaps to hedge risks related to exchange rates and interest rates, respectively.

Furthermore, it purchases futures and options on the Chicago Stock Exchange, with the aim of avoiding volatility in raw material commodity prices. These investments are initially recognized at

fair value on the date on which the derivative contract is signed and are subsequently valued at their fair value.

Changes in the fair value of these derivatives are recognized in equity if they have been designated as hedging instruments and if the conditions established by IFRS are met to apply hedge accounting, otherwise they are recognized in net income.

**Fair value hedge:** The gain or loss arising from valuing a hedge instrument must be immediately recognized in the income statement, as must changes in the fair value of the hedged item attributable to the hedged risk, netting the effect in the same interim consolidated statement of income of the period.

**Cash flow hedge:** Changes in the fair value of the effective portion of derivatives are recorded in a net equity reserve known as cash flow hedges. The cumulative loss or gain in this account is transferred to the interim consolidated statement of income to the extent that the hedged item impacts the income statement because of the hedged risk, netting the effect in the same interim consolidated statement of income of the period.

The results corresponding to the ineffective portion of the hedges are recorded directly in the statement of income

The Company evaluates the existence of embedded derivatives in contracts or financial instruments to determine if their characteristics and risks are closely related to the principal contract as long as the set is not being accounted for at fair value. If not closely related, they are recorded separately by accounting for variations in value in the income statement. Agrosuper S.A. and its subsidiaries has determined that its contracts have no embedded derivatives at the reporting date.

### **Fair value and classification of financial instruments**

The fair value of derivative financial instruments is calculated as follows:

Derivatives traded on a formal market are valued at their quoted price at the reporting date.

Derivatives not traded on formal markets are valued by the Group using discounted expected cash flows and generally accepted options valuation models, based on current and future market conditions at the reporting date.

Therefore, the Group classifies financial instruments into the following hierarchies:

**Level 1:** Quoted (unadjusted) price in an active market for identical assets and liabilities.

**Level 2:** Indications other than quoted prices included in level 1 that are observable for assets or liabilities, either directly (i.e. as a price) or indirectly (i.e. as a derivative of a price).

**Level 3:** Indications for assets or liabilities that are not based on observable market information (non-observable indications).

## 4.20 Leases

IFRS 16 "Leases", the Company, in its capacity as lessee, identifies right-of-use assets related to lease contracts which are classified in the interim financial statement as Right-of-use leased assets. Upon inception of a lease, the Company recognizes a right-of-use asset and a lease liability. Assets and liabilities arising from a lease contract are initially measured at present value.

At the inception of a contract, the Company assesses whether the contract is, or contains, a lease, i.e. whether the contract gives the right to control the use of an identified asset, for a period of time in exchange for a consideration. To assess whether a contract has the right to control the use of an identified asset, the Company assesses whether:

1. The contract implies the use of an identified asset.  
This can be specified explicitly or implicitly. If the supplier has a substantial right of substitution, then the asset is not identified;
2. The Company has the right to obtain substantially all the economic benefits from the use of the asset during the period; and
3. The Company has the right to manage the use of the asset, i.e. it has the right to decide how and for what purpose the asset is used.

### Considerations:

- Right-of-use asset identification: As part of the contract review and analysis process, the Company identified right-of-use assets associated with identifiable and non-substitutable lease contracts, which were classified under Right-of-use assets.
- The Company has leases mainly for the lease of branches, offices, vehicles and boats.
- Interest rate used in the measurement of financial liabilities for leases: The Company determined the average interest rate of indebtedness based on the currency and term of the lease agreements.
- Lease term: The Company evaluated the terms of the leases, market conditions, costs related to lease termination and early cancellation.
- Initial valuation of lease contracts:
  1. The Company excluded from this accounting, those with a remaining term of less than 12 months and whose amounts were less than US\$ 10,000.
  2. The Company excluded the initial direct costs for the measurement of the right of use at the date of initial application.
  3. The Company analyzed the lease term on a case-by-case basis for those leases with an option to extend or terminate the lease.

Each lease payment is allocated between the liability and the finance cost. The financial cost is recognized in the income statement during the lease period, in order to generate a constant periodic interest rate over the remaining balance of the liability for each period.

In this regard, the Company has opted not to recognise right-of-use assets and lease liabilities for those contracts with a term of twelve months or less and for those contracts whose assets are of a lesser amount than permitted by the standard. This recognition was made starting on 01/01/2019, applying the standard on its mandatory application date.

For those contracts described in the preceding paragraph, the lease cost is classified directly to cost of sales, distribution cost or administrative expense, depending on the nature of the contract

#### **4.21 Interim Consolidated Statement of cash flow**

The interim consolidated statement of cash flow reflects cash movements during the period, determined using the direct method. The terms used in this interim consolidated statement of cash flow are defined as follows:

**Operating activities:** Those activities that generate the Group's principal source of revenue as well as other activities that cannot be classified as investing or financing.

**Investing activities:** Those activities involving the acquisition, sale or disposal by other means of non-current assets and other investments not included in cash and cash equivalents.

**Financing activities:** Those activities that bring about changes in the size and composition of total equity and financial liabilities.

#### **4.22 Provisions**

Provisions are obligations at the reporting date resulting from past events, which may damage the Company's equity, whose value and timing are uncertain. Provisions are recorded at the present value of the most likely amount the Company expects to disburse to settle that obligation.

Provisions are regularly reviewed and quantified using the latest available information at the reporting date.

#### **4.23 Revenue recognition**

The Company's revenues are mostly derived from its principal performance obligation to transfer its products under agreements in which the transfer of control determines compliance with its performance obligations. These revenues are recognized in a point in time under IFRS 15 terminology.

Revenues are measured at the fair value of the economic benefits received or receivable and are presented net of value added tax, specific taxes, returns, discounts and rebates.

Revenue from sales of goods is recognized after the Company has transferred to the buyer the risks and rewards of ownership of those goods in accordance with the terms agreed in the commercial agreements and does not retain the right to dispose of them or maintain effective control; generally, this means that sales are recorded upon physical transfer.

## **Domestic sales**

The sale of our chicken, pork, turkey, salmon and processed food products in their various formats is made through our 26 commercial offices throughout the country, supplying supermarket chains, traditional channel, wholesale distributors and Food Service. Revenues from sales in the domestic market, net of all taxes, returns, discounts, contributions and rebates, are recognized upon delivery of the products together with the transfer of all risks and rewards thereof and once the performance obligation is satisfied.

## **Export**

The sale of our chicken, pork, turkey, salmon and processed food products in their various formats is mainly made through our 11 international commercial offices, the main destinations being China, USA, Japan, Brazil, Russia, European Union, South Korea and Mexico, among others. In general, the Company's delivery terms for export sales are based on Incoterms 2000, being the official rules for the interpretation of commercial terms issued by the International Chamber of Commerce.

### **4.24 Income and deferred taxes**

An income tax provision is calculated based on the Company's corporate taxable income, calculated according to current tax regulations. This calculation for foreign subsidiaries complies with the laws in their respective countries.

Deferred taxes are calculated using the balance method on temporary differences that arise between the tax value of assets and liabilities and their book values. However, if deferred taxes arise from the initial recognition of a liability or an asset in a transaction other than a business combination, which at the time of the transaction neither affected the accounting result nor the tax gain or loss, it is not accounted for. Deferred tax is calculated using the current tax rates and laws, or those about to be approved at the reporting date, which are likely to be applicable when the corresponding deferred tax asset is collected, or deferred tax liability is settled.

The Company does not record deferred taxes on temporary differences that arise from investments in subsidiaries, associates and investments in joint control agreements, provided the Company can control when those temporary differences will reverse and the temporary differences are not likely to reverse in the foreseeable future.

Current and deferred income taxes are recognized in the income statement, except taxes arising on items recognized in other comprehensive income, or directly in equity, or on a business combination. In such case, the corresponding tax is also recognized in Other comprehensive income.

#### **4.25 Segment reporting**

The Company and its subsidiaries present segment information based on the financial information available to senior decision makers for assessing performance and allocating resources, in accordance with IFRS 8 “Operating Segments”.

#### **4.26 Earnings (loss) per share**

Basic earnings per share is calculated as the quotient of net income (losses) for the period attributable to the Parent Company divided by the average weighted number of ordinary shares in circulation during that period, without including the average number of shares of the Parent Company held by any subsidiaries, should that be the case.

#### **4.27 Dividends**

Article 79 of Chile’s Corporations Law establishes that, except if unanimously agreed otherwise by shareholders of all issued shares, listed corporations should distribute a cash dividend to its shareholders on a yearly basis, prorated based on their shares or the proportion established in the company's by-laws if there are preferred shares, of at least 30% of net income for each period, except when accumulated losses from prior years must be absorbed.

The Company's Board of Directors agreed to create a quarterly dividend provision equivalent to 30% of the Company's net income for the quarter, subject to the Company's annual net distributable income, calculated in accordance with Circular 1945 dated September 29, 2009. Net distributable income was defined at the Company's board meeting held on March 27, 2020, and the Annual General Shareholders' Meeting held on April 29, 2020 approved the policy to calculate the Company's net distributable income, dividends and profit sharing, where it was agreed to exclude the following:

- Unrealized income relating to increases in the fair value of biological assets regulated by IAS 41. This income will be recognized as net distributable net income when such assets have been realized. For these purposes, realized means the portion of those increases in the fair value of assets sold or disposed of by any other means.
- Unrealized income from the acquisition of other entities and unrealized income arising from applying paragraphs 24, 39, 42 and 58 of IFRS 3, which refers to business combinations.

Interim, prospective and final dividends are deducted from Total Equity as soon as they are approved by the competent entity, which in the first case is normally the Company’s Board of Directors and in the second and third cases, are the shareholders at the Shareholders meeting.

#### 4.28 Environment

Expenditure associated with the environment is charged to the income statement when incurred, except for when it relates to an investment project that is associated with production, in which case it is capitalized in accordance with IFRS.

#### 4.29 Non-current assets held for sale and discontinued operations

Non-current assets or groups of assets whose book values will be recovered through sale rather than continued use are classified as held for sale. This condition is only fulfilled when the sale is highly probable and the asset is available for sale immediately in its current state. These assets are valued at the lower of their book value and their fair value less selling costs, considering that depreciation will no longer apply to such assets.

There are no discontinued operations, according to Company analysis based on the criteria described in paragraph 32 of IFRS 5.

#### 4.30 New standards, interpretations and amendments

The following standards, interpretations and amendments are mandatory for the first time for financial periods beginning on or after January 1, 2025.

Amendments to IAS 21 - Lack of Exchangeability, published in August 2023. An entity is impacted by the amendments when it has a transaction or an operation in a foreign currency that is not exchangeable into another currency at a measurement date for a specified purpose. A currency is exchangeable when there is an ability to obtain the other currency (with a normal administrative delay), and the transaction would take place through a market or exchange mechanism that creates enforceable rights and obligations. Early adoption is permitted.

- a) Standards, interpretations and amendments issued, but not yet mandatory and which have not been adopted early

Standards and Interpretations	as of
Mendment to IFRS 9 and IFRS 7 - Classification and Measurement of Financial Instrument. Published in May 2024. These amendments: <ul style="list-style-type: none"> <li>- Clarify the requirements for the timing of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system.</li> <li>- Clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion.</li> <li>- Add new disclosures for certain instruments with contractual terms that can change cash flows (such as some instruments with features linked to the achievement of environment, social and governance (ESG) targets); and</li> <li>- Make updates to the disclosures for equity instruments designated at Fair Value through other Comprehensive Income (FVOCI).</li> </ul>	01/01/2026
Annual Improvements to IFRS Standards – Volume 11. The following improvements were published in July 2024:	01/01/2026

<ul style="list-style-type: none"> <li>• IFRS 1 First-time Adoption of International Financial Reporting Standards. Some cross-references to IFRS 9 indicated in paragraphs B5-B6 regarding the exception to retrospective application in hedge accounting were improved.</li> <li>• IFRS 7 Financial Instruments: Disclosures. Regarding disclosures about results arising from the derecognition of financial assets where there is continuing involvement, a reference to IFRS 13 is incorporated to disclose whether there are significant unobservable inputs that impacted the fair value and, therefore, part of the derecognition result. 01/01/2026</li> </ul> <p>46</p> <ul style="list-style-type: none"> <li>• IFRS 9 Financial Instruments. A reference to the initial measurement of receivables was amended, eliminating the transaction price concept.</li> <li>• IFRS 10 Consolidated Financial Statements. Some improvements have been made to the description of the control assessment when there are "de facto agents."</li> <li>• IAS 7 Statement of Cash Flows. A reference in paragraph 37 regarding the "equity method" concept has been amended by removing the reference to the "cost method."</li> </ul>	
<p>IFRS 9 and IFRS 7: Contracts that refer to electricity that It depends on nature. Released in December 2024. This modification includes clarify the application of the "own use" requirements; permitting hedge accounting if these contracts are used as hedging instruments; and adding new disclosure requirements to enable investors to understand the effect of these contracts on a company's financial performance and cash flows</p>	01/01/2027
<p>IFRS 18 Presentation and Disclosure in Financial Statements - Published in April 2024. This is the new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to:</p> <ul style="list-style-type: none"> <li>- the structure of the statement of profit or loss;</li> <li>- required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, managementdefined performance measures); and</li> <li>- enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general</li> </ul>	01/01/2027
<p>IFRS 19 Subsidiaries without Public Accountability: Disclosures. Published in May 2024. This new standard works alongside other IFRS Accounting Standards. An eligible subsidiary applies the requirements in other IFRS Accounting Standards except for the disclosure requirements and instead applies the reduced disclosure requirements in IFRS 19. IFRS 19's reduced disclosure requirements balance the information needs of the users of eligible subsidiaries' financial statements with cost savings for preparers. IFRS 19 is a voluntary standard for eligible subsidiaries.</p> <p>A subsidiary is eligible if:</p> <ul style="list-style-type: none"> <li>- it does not have public accountability; and</li> <li>- it has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards.</li> </ul>	01/01/2027

The Company's management believes that the adoption of the above standards, amendments and interpretations will have no significant impact on the Company's Interim Consolidated Financial Statements when they are first applied.

## 5. FINANCIAL RISK MANAGEMENT AND DEFINITION OF HEDGES

The Group's companies are exposed to risks that are managed by implementing systems that identify, measure, limit concentration and monitor these risks.

The basic policies defined by the Group include the following:

- Comply with good corporate governance standards.
- Strictly comply with all the Company's standards.
- Each business and corporate area defines:
  - Its markets and products, based on sufficient knowledge and ability to ensure effective risk management.
  - Criteria regarding third parties.
  - Authorized operators.

Businesses and corporate areas establish a predisposition to risk that is consistent with the defined strategy for each of their markets.

All the transactions performed by businesses and corporate areas are conducted within the limits approved by the appropriate internal entity.

Businesses, corporate areas, business lines and companies establish sufficient risk management controls to ensure that market transactions are conducted in accordance with the Company's policies, standards and procedures.

### 5.1 Interest rate risk

Variations in interest rate alter the fair value of assets and liabilities that accrue interest at a fixed rate, as well as future cash flows from assets and liabilities with a variable interest rate.

The objective of interest rate risk management is to achieve a balanced debt structure that minimizes the cost of debt, with reduced volatility in the interim consolidated statements of income.

Depending on the Group's estimates and debt structure objectives, hedging transactions take place by purchasing derivatives that mitigate these risks. The status of debts and their associated hedges is as follows:

Financial debt position, net of hedging transactions	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Bank loans (Note 21.1)	84.048	144.492
Bonds payable (Note 21)	858.616	855.332
Liability positions in derivative transactions (Note 22.3 a)	(1.703)	22.800
<b>Total</b>	<b>940.961</b>	<b>1.022.624</b>

The Group's financial debt structure by fixed and variable interest rates, after purchased hedges, is as follows:

Net position:	03.31.2025	12.31.2024
Fixed interest rate	52,86%	49,09%
Protected interest rate	47,14%	44,63%
Variable interest rate	0%	6,28%
	100%	100%

## 5.2 Exchange rate risk

Exchange rate risk relates mainly to the following:

- A significant proportion of the meat segment marketed in Chile is sold in Chilean pesos.
- Loans contracted by Group's companies and denominated in Chilean pesos.
- Domestic payments for labor and raw materials purchases associated with animal production and other services.

The Company's exchange rate hedging policy is based on cash flows and maintaining a balance between flows indexed to the US dollar and the assets and liabilities in that currency, in order to mitigate exchange rate risk. The objective is to minimize the exposure of cash flows to exchange rate risk.

The instruments currently used to comply with the policy are currency swaps and exchange rate forwards, whose market value and notional amount are detailed in note 22.3a) and 22.3b) respectively. Likewise, Group policy is to refinance debt into the functional currency of each company.

## 5.3 Commodities risk

The Company is exposed to the risk of variations in some commodity prices, primarily on grain purchases for animal production, such as corn and soybean.

Our competitors worldwide do not take long-term hedging positions, the policy is to use a coverage range, in days of consumption, for each relevant raw material and for each price component; future, premium and freight.

The following table shows the minimum and maximum coverage range:

	Future hedge (consumption days)		Premium hedge (consumption days)		Freight Coverage (consumption days)	
	Min	Max	Min	Max	Min	Max
Corn + Sorghum	30	120	30	120	30	120
Soy	30	120	30	150	30	150
Fishmeal	30	150	30	150	30	150
Soy beans	30	120	30	120	30	120

## 5.4 Liquidity risk

The Company's liquidity policy consisting in obtaining long-term credit facilities and temporary financial investments. Their values should be sufficient to meet projected liquidity requirements for a period based on the circumstances and expectations surrounding debt and capital markets.

These projected liquidity requirements include gross financial debt maturity, after financial derivatives. Details of the characteristics and conditions of financial debt and financial derivatives are contained in the attached repayment table.

	2025 ThUS\$	2026 ThUS\$	2027 ThUS\$	2028 ThUS\$	2029 ThUS\$	2030 ThUS\$	2031 + ThUS\$	Total ThUS\$
Principal repayment	110.767	17.404	17.404	174.824	21.699	21.699	582.048	945.845
Interest	21.206	40.131	39.152	38.196	29.342	28.154	50.225	246.406
<b>Total</b>	<b>131.973</b>	<b>57.535</b>	<b>56.556</b>	<b>213.020</b>	<b>51.041</b>	<b>49.853</b>	<b>632.273</b>	<b>1.192.251</b>

With the aim of continuing with a liquidity reserve and the Company's cash in hand position, a committed line of credit was obtained with SCOTIABANK CHILE, for the capital purposes, up to a maximum amount of MCLP\$50,000 (fifty billion Chilean pesos) and with BANK OF AMERICA, N.A. also for the concept of capital, and up to a maximum amount of MUS\$50,000 (fifty million US dollars). As of March 31, 2025, this line is valid and unused.

## 5.5 Credit risk

The Group performs detailed credit risk monitoring.

### Trade receivables:

Trade and other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted on an active market. Those assets that will mature in less than 12 months are classified as current assets. Those assets that will mature in greater than 12 months are classified as non-current assets.

The entire trade receivables portfolio is comprised of sales on credit and the Company applies the following hedging policy to it:

### Domestic Market

Every credit customer has an individual line of credit approved by the Insurance Company regardless of the credit term. This insurance policy applies a deductible of 10% to each receivable, and the Company makes impairment provisions for the deductibles of each customer with a claim or in judicial collection, when the case is reported to the Insurance Company.

Customers without credit must pay immediately, so no impairment provision is required.

## **International Market**

Approximately 81.4% of sales are to customers with an individual line of credit approved by the Insurance Company. This insurance policy applies a deductible of 10% to each receivable, and the Company makes impairment provisions for the deductibles of each customer with a claim or in judicial collection, when the case is reported to the insurance company.

Customers without an approved line of credit with an Insurance Company are:

- Customers who guarantee and pay with Letter of Credit, who represent approximately 5.6% of sales. In these cases, the customer's bank pays the national bank that has confirmed the letter of credit, in order to finally pay Agrosuper S.A.
- Customers who prepay or pay against a copy of the documents (CAD) represent 6.3% of sales. In these cases, the customer pays between 10% and 50% in advance and the difference is paid when the product arrives. However, the documentation required to clear customs is released after the customer has paid.
- Customers who pay against a copy of the documents (CAD) represent 6.2% of receivables, where the documentation required to clear customs is released after the customer has paid.
- Customers with Bank Collection of the amount invoiced at the time of arrival of the product, 6.0% of the debit
- Customers who fully prepay before dispatch represent 0.8% of receivables.

### **Other financial assets:**

Cash surpluses are invested with domestic and foreign financial entities, within limits established for each instrument.

Banks and financial institutions are chosen from those with at least two investment grade risk ratings, according to the main international risk rating agencies, such as Moody's, Standard & Poors and Fitch Ratings.

## **5.6 Risk measurement**

### **Interest rate risk:**

At the close of these interim financial statements, the company has no unhedged variable-rate debt.

### **Exchange rate risk:**

The Company hedges exchange rates with forwards and cross currency swaps to minimize its exchange rate risks.

The net balance exposure by currency is as follows:

Exposure of net assets (liabilities) by currency	03.31.2025	12.31.2024
	Original currency (thousands)	
Chilean pesos	88.032.921	56.133.581
Japanese yen	19.520.675	18.185.267
Mexican peso	570.598	545.841
Euros	14.383	14.111
UF	99	182

If exchange rates increase by 10%, the net balance exposure by currency is as follows:

Exposure of net assets (liabilities) by currency	03.31.2025	12.31.2024
	Original currency (thousands)	
Chilean pesos	87.858.856	56.065.926
Japanese yen	19.575.042	18.230.273
Mexican peso	570.939	546.151
Euros	14.388	14.116
UF	99	182

## 6. MANAGEMENT'S JUDGMENTS IN APPLYING THE COMPANY'S ACCOUNTING POLICIES

Applying IFRS requires the use of estimates and assumptions that affect the values of assets and liabilities at the reporting date and income and expenses during the reporting period. Management must make judgments and estimates that may have a significant effect on the figures presented in these interim consolidated financial statements prepared under IFRS.

Management must make judgments and estimates that have a significant effect on the figures presented in these interim consolidated financial statements. The most critical estimates and judgments are detailed as follows:

### 6.1 Useful life of assets

Depreciation of PPE is calculated on a straight-line basis based on the estimated useful lives of the assets, considering their estimated residual value. When an asset is comprised of significant components, which have different useful lives, each part is depreciated separately. The estimated useful lives and residual values of PPE are reviewed and adjusted, if necessary, at each balance sheet date.

### 6.2 Asset impairment

The Company and its subsidiaries review the book value of its tangible and intangible assets to assess whether there is any indication that these assets could be impaired.

For intangible assets of indefinite useful life, which are not amortized, on an annual basis or earlier if evidence of impairment is detected, the necessary tests are performed to ensure that their carrying amount does not exceed their recoverable amount.

Assets that do not generate independent cash flows are grouped into their appropriate cash generating unit (CGU) for impairment testing purposes. The recoverable value of these assets or CGUs is the higher of their fair values (discounted future cash flow method) and their book values.

Other non-financial assets other than goodwill and intangible assets with indefinite useful lives are tested for impairment whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be recoverable, and an impairment loss is recognized when the carrying amount is greater than the recoverable amount.

The Company assesses annually whether impairment indicators on non-financial assets that resulted in losses recorded in prior years have disappeared or decreased. If this situation exists, the recoverable amount of the specific asset is recalculated and its carrying value increased if necessary. The increase is recognized in the Interim Consolidated Statement of Income by Function as a reversal of impairment losses. The increase in the value of the previously impaired asset is recognized only if it arises from changes in the assumptions that were used to calculate the recoverable amount. The amount of the increase in the asset resulting from the reversal of the impairment loss is limited to the amount that would have been recognized had the impairment not existed.

### **6.3 Allowance for doubtful receivables**

The Company evaluates accounts receivable for impairment on a collective basis by grouping financial assets according to similar risk characteristics that are indicative of the debtors' ability to meet their obligations under the agreed terms. When there is objective evidence that an impairment loss on accounts receivable has been incurred, the amount of the loss is recognized in the Interim Consolidated Statement of Income by Function under Administrative expenses.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be objectively related to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed.

Any subsequent reversal of an impairment loss is recognized in income to the extent that the carrying amount of the asset does not exceed its fair value at the date of reversal.

### **6.4 The probability of occurrence and the value of uncertain or contingent liabilities**

Estimates are based on the information available at the reporting date. However, future events may require these estimates to be revalued in future periods.

### **6.5 Fair value of biological assets**

All biological assets in the meat segment are valued using the total production cost absorption method, due to the short term nature of the productive process and as this cost is close to their fair values.

Biological assets of the aquaculture segment, such as brood fish, eggs, alevins, smolts and small growing fish, are measured at fair value less estimated costs to the point of sale, except when fair value cannot be reliably determined in accordance with the definitions contained in IAS 41. For this purpose, the existence of a market for these assets must be considered in the first instance.

Considering that there is no active market for live fish stocks at these stages, it has been considered to value them at their accumulated cost at the closing date. Notwithstanding the foregoing, if conditions so require, the Group performs an impairment test on its growing biomass, the net cumulative effect of which is charged against income for the period.

Biological assets in breeding equal to or greater than one kilogram are measured at fair value less estimated costs of processing and sale.

Direct and indirect costs incurred in the production process are part of the value of the biological asset through capitalization. The accrual of such costs at the end of each period is compared and adjusted to the fair value of the biological asset.

Changes in the fair value of such biological assets are reflected in the statement of income for the period.

The calculation of the fair value estimate is based on market prices for harvested fish. This price is adjusted for the expected costs of harvesting, processing and freight to destination, to bring them to their value and condition of fish in the bled-farmed state (WFE). This way, the evaluation considers the stage of the life cycle, its current weight and the expected distribution at the weight at which the biomass is valued. This fair value estimate is recognized in the Group's income statement.

### **Valuation model**

As of the consolidated financial statements ended December 31, 2019, the Company has opted for a discounted cash flow model or present value method for determining fair value.

The estimates and the valuation model applied for the measurement of biological assets are detailed below:

The model uses a discount rate determined for each region, which reflects the risk by geographical sector of cultivation. In addition, the projected costs include a theoretical cost of use of concessions, in accordance with the definitions contained in IAS 41, allowing the adjustment to fair value of the biological asset at different stages of growth to be taken to present value.

The assessment is reviewed for each farm and is based on the biomass of fish existing at the end of each month. Its detail includes the total number of fish in farming, their estimated average weight and the cost of fish biomass. In its calculation, the value is estimated by considering the average weight at which the biomass is found, which in turn is multiplied by the value per kilo that reflects the market price. The market price is obtained from an international price index, or from sales made at the closing date of the financial statements, and, therefore, Level III input data is used for these purposes, in accordance with the definitions of IFRS 13.

### **Assumptions used to determine the fair value of farmed fish**

The estimation of the fair value of fish biomass will always be based on assumptions, even when the Group has sufficient experience in considering these factors. Estimates are applied considering the following elements: volume of fish biomass, average weights of biomass, distribution at valuation weight and market prices.

#### **Volume of fish biomass**

The volume of fish biomass to a kilogram is estimated based on the number of smolts seeded in the seawater, the estimate of cumulative growth, and the record of observed mortality in the cycle, among others. Uncertainty regarding biomass volume is usually lower in the absence of massive mortality or disease events.

#### **Harvest weight distribution**

Fish in water grow at different rates and, even in the presence of good estimates for average weight, there may be some dispersion in fish quality and size. It is relevant to consider the distribution of size and quality since there are different prices in the market depending on these product attributes. When estimating the value of fish biomass, a normal size distribution or, alternatively, the most recent size distribution obtained in processing by the Group's processing plants is considered.

#### **Market prices**

The assumption of market prices is important for the evaluation, especially when minor changes in market prices can produce significant changes in the evaluation.

### **6.6 Net realizable value of inventories**

Inventories are valued at the lower production or acquisition cost and their net realizable value, which is estimated as the selling price of the inventories in the normal course of business, less the estimated costs to complete production and those necessary to perform the sale. The costs of inventories include all costs arising from production and other costs incurred in that process, which are considered part of cost of sales (absorption costing).

### **6.7 Fair value of derivative instruments**

The fair value of derivative instruments is determined using assumptions based on quoted market rates, adjusted to take into account the specific characteristics of each instrument.

## 7. CASH AND CASH EQUIVALENTS.

- a) Cash and cash equivalents as of March 31, 2025, and December 31, 2024, are detailed as follows:

Details	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Cash and bank accounts	62.004	51.144
Remunerated current accounts	8.610	27.786
Term deposits	226.134	269.778
<b>Total</b>	<b>296.748</b>	<b>348.708</b>

Note: As of March 31, 2025, and December 31, 2024, interest-bearing checking accounts are balances maintained at Bank of America and Itaú CorpBanca. Regarding time deposits, they are primarily held in national banks (Scotiabank and BCI) with maturities of less than 90 days.

There were no restrictions on the availability of cash.

- b) Cash and cash equivalents by currency are as follows:

Currency	03.31.2025 ThUS\$	12.31.2024 ThUS\$
US dollar	229.112	287.534
Chilean peso	29.955	31.044
Japanese yen	31.129	16.057
Chinese yuan	2.449	8.761
Mexican peso	818	2.993
Euro	1.336	866
Other currencies	1.949	1.453
<b>Total</b>	<b>296.748</b>	<b>348.708</b>

## 8. OTHER CURRENT AND NON-CURRENT FINANCIAL ASSETS

Other current and non-current financial assets as of March 31, 2025, and December 31, 2024, are detailed as follows:

Details	Current		Non-current	
	03.31.2025 ThUS\$	12.31.2024 ThUS\$	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Hedging contracts (a)	13.736	20.609	-	-
Deposits per Margin Call	11.510	16.370	-	-
Others	1.387	866	15	15
<b>Total</b>	<b>26.633</b>	<b>37.845</b>	<b>15</b>	<b>15</b>

- (a) Derivative contracts are detailed in Note 22.3.

## 9. OTHER CURRENT NON-FINANCIAL ASSETS

Other current non-financial assets as of March 31, 2025, and December 31, 2024, are detailed as follows:

Details	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Prepaid security	23.131	25.673
Prepaid expenses	13.196	8.228
Documents in guarantee	938	984
Others	1.745	1.017
<b>Total</b>	<b>39.010</b>	<b>35.902</b>

## 10. TRADE AND OTHER CURRENT RECEIVABLES, NON-CURRENT RIGHTS RECEIVABLE

As of March 31, 2025, and December 31, 2024, these are detailed as follows:

Details	Trade and other receivables Total current		Rights receivable Total non-current	
	03.31.2025 ThUS\$	12.31.2024 ThUS\$	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Domestic trade receivables	151.118	152.956	-	-
Export trade receivables	223.229	163.349	-	-
Notes receivable	4.781	5.596	-	-
<b>Subtotal gross trade receivables</b>	<b>379.128</b>	<b>321.901</b>	<b>-</b>	<b>-</b>
Allowance for doubtful receivables	(2.354)	(2.397)	-	-
<b>Subtotal net trade receivables</b>	<b>376.774</b>	<b>319.504</b>	<b>-</b>	<b>-</b>
Employee receivables	17.889	15.683	-	-
Other rights and receivables	16.557	15.258	1.638	2.043
<b>Subtotal other receivables</b>	<b>34.446</b>	<b>30.941</b>	<b>1.638</b>	<b>2.043</b>
<b>Total trade and other receivables</b>	<b>411.220</b>	<b>350.445</b>	<b>1.638</b>	<b>2.043</b>

The fair values of trade and other receivables are equal to their commercial values as they represent the amounts in cash that will be collected for each concept.

At March 31, 2025, and December 31, 2024, there are no significant restrictions on the availability of these accounts receivable.

The balances in this account do not generally accrue interest.

The principal debtors that comprise Trade receivables and other current receivables are as follows:

Trade debtor (gross)	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Traditional	8.327	6.068
Supermarket	97.185	113.779
Industrial	26.171	22.911
Food service	24.216	15.794
<b>Subtotal domestic trade debtors</b>	<b>155.899</b>	<b>158.552</b>
<b>Subtotal export trade debtors</b>	<b>223.229</b>	<b>163.349</b>
<b>Total gross trade receivables</b>	<b>379.128</b>	<b>321.901</b>

These values do not include the allowance for doubtful receivables.

The general criterion for determining the impairment provision has been established within the framework of IFRS 9, which requires analyzing the long-term behavior of the customer portfolio in order to generate an index of expected credit losses by tranches based on the age of the portfolio. This analysis of expected credit loss rates on the portfolio impairment provision provided the following results for the Company:

	03.31.2025			12.31.2024		
	Gross book value	Expected loss rate	Provision for impairment	Gross book value	Expected loss rate	Provision for impairment
	ThUS\$	ThUS\$	%	ThUS\$	ThUS\$	%
Not past-due	339.492	-	0%	284.012	-	0%
1 up to 90 days	33.277	(707)	30%	34.255	(755)	23%
91 up to 180 days	2.571	(908)	39%	1.839	(378)	16%
181 up to 250 days	1.255	(367)	16%	811	(280)	12%
Over 250 days	959	(372)	85%	984	(984)	86%
	<u>377.554</u>	<u>(2.354)</u>		<u>321.901</u>	<u>(2.397)</u>	

The amounts claimed on these insurance policies and the corresponding compensation received during March 31, 2025, and December 31, 2024 are as follows:

Details	01.01.2025 to	01.01.2024 to
	03.31.2025	03.31.2024
	ThUS\$	ThUS\$
Opening balance of claims pending settlement	2.823	1.714
Claims settled in the period	256	226
Write-offs	(2)	(69)
claims indemnified in the period	(356)	(94)
doubtful accounts	(61)	(55)
other doubtful receivables	-	(5)
<b>Subtotal</b>	<b>2.660</b>	<b>1.717</b>
<b>Deductible for claims settled</b>	<b>668</b>	<b>548</b>
<b>Closing balance of claims pending settlement</b>	<b>3.328</b>	<b>2.265</b>

An impaired receivables provision is created for each customer in accordance with the conditions established with the insurance companies when the customer was evaluated.

Both the domestic and international markets have a credit line approved by various Insurance Companies, which has a 10% excess. Therefore, provisions will not exceed this 10%.

The compensation received and the premium expense for this insurance are recorded on a cash basis, and the allowance for doubtful accounts receivable is recorded on an accrual basis, as required by International Financial Reporting Standards (IFRS).

### 10.a) Stratification of the trade and other receivables portfolio by age.

Trade and other receivables	Balance as of 03.31.2025												Total Current THUS\$	Total Non-Current THUS\$

<b>Closing balance</b>	<b>2.354</b>	<b>2.397</b>

## 11. BALANCES AND SIGNIFICANT TRANSACTIONS WITH RELATED PARTIES

Transactions between the Company and its subsidiaries consist of recurring transactions made under regular business terms. These intergroup transactions have been eliminated upon consolidation and are not disclosed in this note. Since there are no doubtful balances, management has not made any allowances for doubtful accounts to reduce balances receivable and there are no related guarantees.

### 11.1 Balances and significant Transactions with Related Parties

Receivables and payables between the Company and its unconsolidated related companies are detailed as follows:

#### a) Accounts receivables with Related Parties

Country	Relationship	Chilean ID number	Company	Currency	Operation	Total current	
						03.31.2025 ThUS\$	12.31.2024 ThUS\$
Chile	Common shareholder	96.725.160-7	Graneles de Chile S.A	US dollar	Commercial	4.251	-
Chile	Accionista controlador	78.407.260-6	Promotora Doñihue Ltda.(a)	US dollar	Financial	51.812	-
Chile	Common shareholder	76.008.900-1	Agroindustrial y Comercial Superfruit Ltda.	Chilean pesos	Commercial	12	-
<b>Total</b>						<b>56.075</b>	<b>-</b>

#### b) Payables with Related Parties

Country	Relationship	Chilean ID number	Company	Currency	Operation	Total current	
						03.31.2025 ThUS\$	12.31.2024 ThUS\$
Chile	Common shareholder	96,725,160-7	Graneles de Chile S.A.	US dollar	Commercial	-	921
Chile	Controlling shareholder	78,407,260-6	Promotora Doñihue Ltda. (a)	US dollar	Dividend provision	121.920	86.798
Chile	Non-controlling shareholder	96,733,090-6	Agrocomercial El Paso S.A. (a)	US dollar	Dividend provision	1.882	1.339
<b>Total</b>						<b>123.802</b>	<b>88.499</b>

(a) dividends are the current dividend provision for each period.

#### c) Significant transactions with Related Parties exceed ThUS\$ 50 and their effect on net income.

Chilean ID number	Company	Relationship	Transaction description	ThUS\$ 03.31.2025		ThUS\$ 12.31.2024	
				Transactions	Effect on net income (loss)	Transactions	Effect on net income (loss)
96,725,160-7	Graneles de Chile S.A.	Common shareholder	Sale of raw materials	7.189	7.189	13.445	13.445
96,725,160-7	Graneles de Chile S.A.	Common shareholder	Purchase of raw materials	10.808	(10.808)	28.653	(28.653)
96,725,160-7	Graneles de Chile S.A.	Common shareholder	Commission	-	-	791	(791)
96,787,400-0	Mercoexpress S.A.	Common shareholder	Freight	46.518	46.518	15.871	15.871

96,787,400-0	Mercoexpress S.A.	Common shareholder	Portage	86	(86)	790	(790)
96,909,330-8	Puerto Panul S.A.	Related party	Unloading	751	(751)	6.813	(6.813)

## 11.2 Senior Management and the Board of Directors

Agrosuper S.A. is managed by a Board of Directors composed of nine members. The directors shall serve a term of three years and may be re-elected.

The Board of Directors of Agrosuper S.A. was re-elected on April 28, 2023, at the thirteenth Annual General Meeting of shareholders. At an Extraordinary Board Meeting held on October 26, 2023, the Board received the resignation of Mr. Fernando Barros Tocornal from his position as director. The Board appointed Mr. Gonzalo Vial Concha as his replacement, which was reported as a Material Event on October 26, 2023.

On January 30, 2024, our founder and Chairman Gonzalo Vial Vial passed away. He will be remembered for his simplicity, exemplary leadership and entrepreneurial spirit. He built the Company from the very beginning with these characteristics and they have influenced every successive generation.

On May 2, 2024, the Company's Board of Directors held an ordinary session, where Mr. Canio Corbo Lioi was elected as Chairman of the Company

### The directors appointed are:

Canio Corbo Lioi	: Chairman
Carlos Jose Guzman Vial	: Vice Chairman
María del Pilar Vial Concha	: Director
María José Vial Concha	: Director
Gonzalo Vial Concha	: Director
Andres Alberto Vial Sanchez	: Director
Verónica Edwards Guzmán	: Director
Antonio Tuset Jorratt	: Director
Juan Claro González	: Director

### a) Director's remuneration

The parent company's Directors have received remuneration and accrued a profit share as of March 31, 2025, and 2024, as follows:

Name	Position	03.31.2025		03.31.2024	
		Board Fees ThUS\$	Share of Net Income ThUS\$	Board Fees ThUS\$	Share of Net Income ThUS\$
Mr. Canio Corbo Lioi	Chairman	42	112	21	45
Mr. Carlos José Guzman Vial	Vice Chairman	32	84	32	29
Mrs. María del Pilar Vial Concha	Director	21	57	21	19
Mrs. María Jose Vial Concha	Director	21	57	21	19
Mr. Gonzalo Vial Concha	Director	21	57	21	19
Mr. Andrés Alberto Vial Sánchez	Director	21	57	21	19
Mrs. Verónica Edwards Guzmán	Director	21	57	21	19
Mr. Antonio Tuset Jorratt	Director	21	57	21	19
Mr. Juan Claro González	Director	21	57	21	19
Mr. Gonzalo Vial Vial (†)	Ex - Chairman	-	-	15	13
<b>Total</b>		<b>221</b>	<b>595</b>	<b>215</b>	<b>220</b>

Note: as of March 31, 2025 and 2024, profit sharing is based on the net distributable income described in Notes 4.27 and 25.6

## b) Senior executive's remuneration

Description	03.31.2025	03.31.2024
	ThUS\$	ThUS\$
Wages and salaries	954	875
Welfare benefits	15	15
<b>Senior executives remuneration</b>	<b>969</b>	<b>890</b>

## 12. INVENTORIES

### 12.1 Inventories are detailed as follows

	03.31.2025	12.31.2024
	ThUS\$	ThUS\$
Raw materials	164.650	169.110
Finished products (a)	254.396	315.414
Aquaculture net realizable value and fair value	28.376	20.846
Materials, consumables and spare parts	100.024	94.643
<b>Total</b>	<b>547.446</b>	<b>600.013</b>

a) Finished Products are expressed at their consolidated value, this is discounting unrealized results, which correspond to purchase and sales operations to subsidiaries and affiliates

Management estimates that its inventory will be used within less than one year.

The Company has no rebates on inventories nor reversed any rebates in the period and it has not provided any inventories as a guarantee, as of March 31, 2025, and December 31, 2024.

The amount of inventories recognized as cost in the periods ended March 31, 2025, and 2024, amounts to ThUS\$777,884 and ThUS\$853,305 respectively.

The movement of fair value by finished product is as follows:

Changes in the fair value and net realizable value of finished products for the period are as follows:

	03.31.2025	12.31.2024
	ThUS\$	ThUS\$
Opening balance fair value of finished products	20.846	(9.078)
Fair value transferred from biological assets to finished products	88.724	291.637
Fair value of finished products harvested and sold with effect on income	(81.194)	(261.713)
<b>Closing balance fair value and net realizable value of finished products</b>	<b>28.376</b>	<b>20.846</b>

## 13. BIOLOGICAL ASSETS

### 13.1 Detail of biological assets

Biological assets as of March 31, 2025, and December 31, 2024, are detailed as follows:

	Current		Non-current	
	03.31.2025 ThUS\$	12.31.2024 ThUS\$	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Meat biological assets	180.062	197.582	24.005	24.282
Aquaculture biological assets	713.266	722.205	57.849	59.692
<b>Total</b>	<b>893.328</b>	<b>919.787</b>	<b>81.854</b>	<b>83.974</b>

### 13.2 Movement in biological assets

Movements in biological assets associated with the meat and aquaculture businesses as of March 31, 2025, and December 31, 2024, are as follows:

#### a) Meat Segment

##### MOVEMENTS IN MEAT ASSETS

	Current	
	From 01.01.2025 to 03.31.2025 ThUS\$	From 01.01.2024 to 12.31.2024 ThUS\$
Opening balance	197.582	217.737
<b>Changes to biological assets</b>		
Increases for incubation and birth costs	34.550	144.367
Increases for fattening costs	312.733	1.354.029
Decreases for processing	(364.803)	(1.518.551)
<b>Total changes to biological assets</b>	<b>(17.520)</b>	<b>(20.155)</b>
<b>Closing balance of current biological assets</b>	<b>180.062</b>	<b>197.582</b>

	Non-current	
	From 01.01.2025 to 03.31.2025 ThUS\$	From 01.01.2024 to 12.31.2024 ThUS\$
Opening balance	24.282	29.715
<b>Changes to biological assets</b>		
Increases for purchases and relocating breeders	7.838	38.134
Decreases for depreciation and processing breeders	(8.115)	(43.567)
<b>Total changes to biological assets</b>	<b>(277)</b>	<b>(5.433)</b>
<b>Closing balance of non-current biological assets</b>	<b>24.005</b>	<b>24.282</b>

## b) Aquaculture Segment

### MOVEMENTS IN AQUACULTURE ASSETS

	Current	
	From 01.01.2025 to 03.31.2025 ThUS\$	From 01.01.2024 to 12.31.2024 ThUS\$
Opening balance	722.205	717.253
<b>Changes to biological assets</b>		
Fair value of biological assets for the period (a)	69.363	312.581
Fair value of biological assets transferred to inventories	(88.724)	(291.637)
Increases for purchases and relocating biomass	29.916	108.166
Increases for fattening costs	215.818	876.847
Decreases for processing	(235.312)	(1.001.005)
<b>Total changes to biological assets</b>	<b>(8.939)</b>	<b>4.952</b>
<b>Closing balance of current biological assets</b>	<b>713.266</b>	<b>722.205</b>
	Non-current	
	From 01.01.2025 to 03.31.2025 ThUS\$	From 01.01.2024 to 12.31.2024 ThUS\$
Opening balance	59.692	58.915
<b>Changes to biological assets</b>		
Decrease from harvesting and transfers to biological assets,	28.074	108.943
Increases for purchases and relocating breeders and biomass	(29.917)	(108.166)
<b>Total changes in biological assets</b>	<b>(1.843)</b>	<b>777</b>
<b>Closing balance of non-current biological assets</b>	<b>57.849</b>	<b>59.692</b>

Changes in fair value of biological assets for the period are as follows:

	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Opening balance fair value of biological assets	169.252	148.308
Fair value of biological assets for the period with effect on income (a)	69.363	312.581
Fair value of biological assets transferred to inventories	(88.724)	(291.637)
<b>Closing balance fair value of biological assets</b>	<b>149.891</b>	<b>169.252</b>

(a) The fair value of biological assets for the period, and its balancing entry is in the interim consolidate statement of income according to Note 27 (see Statement of Income for the aquaculture segment).

### 13.3 Useful lives and depreciation rates for the meat segment

	Animals	Useful life in months	Useful life in years
Birds	Hens, roosters and older chickens (grandfathers and grandmothers), breeders	16 months	1.3 years
	Breeder turkeys	14.5 months	1.2 years
Pigs	Females (grandmothers)	10 months	0.8 year
	Males (grandfathers)	12 months	1 year
	Breeders	13 months	1.1 years

### 13.4 Gross book value and depreciation of non-current biological assets

	03.31.2025			12.31.2024		
	Gross value ThUS\$	Accumulated depreciation ThUS\$	Net value ThUS\$	Gross value ThUS\$	Accumulated depreciation ThUS\$	Net value ThUS\$
Meat segment	39.369	(15.364)	24.005	41.620	(17.338)	24.282
Aquaculture segment	57.849	-	57.849	59.692	-	59.692
<b>TOTAL</b>	<b>97.218</b>	<b>(15.364)</b>	<b>81.854</b>	<b>101.312</b>	<b>(17.338)</b>	<b>83.974</b>

### 13.5 Physical quantities by biological asset groups

Period	MEAT SEGMENT			AQUACULTURE SEGMENT		
	At the end of period		Accumulated	At the end of period		Accumulated
	Biomass (kg)	Units	Sale (kg) (*)	Biomass (kg)	Units	Sale (kg) (*)
December 2024	131.562.866	27.018.030	944.848.724	107.727.643	170.827.808	185.870.175
March 2025	120.767.396	25.327.997	234.805.007	109.360.855	152.115.085	45.902.962

(\*) Sales volumes are for the periods ended March 31, 2025, and December 31, 2024, while biomass and units are inventories as of each period end.

The biological assets recorded at production cost for the meat segment were not impaired, as of the date these interim consolidated financial statements were issued, in accordance with IAS 41.

## 14. CURRENT TAX ASSETS AND LIABILITIES

Current and non-current tax assets and liabilities as of March 31, 2025, and December 31, 2024, are as follows:

### 14.1 Current and non-current tax assets

	Current		Non-current	
	03.31.2025 ThUS\$	12.31.2024 ThUS\$	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Monthly provisional payments for the period (a)	1.015	922	-	-
Monthly provisional payments for prior years (b)	1.812	1.246	-	-
Other credits	1.614	2.359	-	-
VAT recoverable	8.365	8.754	-	-
Exporters VAT	36.252	29.954	-	-
Training credits	1.720	1.590	-	-
Austral law credits	12.767	8.748	55.652	51.646
<b>Total</b>	<b>63.545</b>	<b>53.573</b>	<b>55.652</b>	<b>51.646</b>

- (a) These are monthly provisional tax payments less the corresponding corporate income tax provision, by legal entity.
- (b) Corresponds to the balance of monthly provisional payments from the previous year pending return.
- (c) Corresponds to the balance to be used in the 2025 income tax operation for MUSD\$8,748 and the short-term balance to be used in the 2026 income tax operation for an amount of MUSD\$4,019.

### 14.2 Current tax liabilities

	Current	
	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Income tax provision	34.157	-
Income tax credits (a)	(12.347)	-
<b>Subtotal current tax liabilities for years before</b>	<b>21.810</b>	<b>-</b>
Corporate income tax provision	29.831	59.494
Tax on disallowed expenditure	-	-
Income tax credits (a)	(9.982)	(34.885)
<b>Subtotal current tax liabilities for years</b>	<b>19.849</b>	<b>24.609</b>
<b>Total current tax liabilities</b>	<b>41.659</b>	<b>24.609</b>

- (a) These are primarily provisional monthly income tax payments.

There were no non-current tax liabilities as of March 31, 2025, and December 31, 2024.

## 15. INTERIM CONSOLIDATED FINANCIAL STATEMENTS

### 15.1. Financial information

The Interim Consolidated Financial Statements include the financial statements of the Parent company and its controlled subsidiaries. Information regarding subsidiaries as of March 31, 2025, and December 31, 2024, is as follows.

#### Balances as of March 31, 2025

## **15.2 General information regarding the principal subsidiaries**

Agrícola Super Ltda. (Formerly Agrícola Super Pollo Ltda.) was constituted on February 12, 1982 before the Notary Public Mr. Sergio Rodríguez Garcés. The company's aim is to operate and market directly or through other people all manner of movable goods, especially those related to food and agriculture; to manage, operate, market directly and through other people all manner of agricultural, farm, forestry, fruit and general agro-industrial property; to provide services in general, and any other business that the shareholders agree.

Agrosuper Comercializadora de Alimentos Limitada was incorporated by public deed on April 10, 1990, before Notary Public Mr. Aliro Veloso Muñoz. The company's aim is to purchase, sell, market and distribute directly, indirectly or through a third party, for itself or on behalf of a third party, all manner of goods and foods; to provide services in general, and any other business that the shareholders agree.

Agrocomercial AS Limitada was incorporated on August 6, 2002 by public deed before Santiago Notary Public Mrs. Antonia Mendoza Escalas. The company's aim is to acquire, market and sell poultry, pigs and animals in general; to acquire, manage and operate its own property or that of third parties, and to operate agro-industrial businesses. During February 2012, Agrocomercial AS Limitada became the parent company for the Group businesses in the meats segment.

Procesadora de Alimentos del Sur Limitada (formerly Faenadora Rosario Limitada) was incorporated on July 13, 2000 as a limited liability company, by public deed before Notary Public Mrs. Antonia Mendoza Escalas. The company's aim is to process and conserve in refrigeration meats and complementary products from poultry, cattle and animals in general, such as pigs, sheep, cattle and their by-products; to operate agro-industrial establishments and refrigerators that process and preserve meat in general and their by-products; to market, distribute, acquire, import and export, either directly or through third parties, owned meat products or those of third parties, as by-products and to provide services in general.

Faenadora Lo Miranda Limitada was incorporated on August 4, 1993 as a limited liability company by public deed, before Notary Public Mr. Felix Jara Cadot. The company's aim is to process, conserve in refrigeration, distribute, import and export meat and complementary products such as poultry, cattle and animals in general; to operate agro-industrial establishments and refrigerators to process meat in general; to provide services in general, and any other business that the shareholders agree.

Faenadora San Vicente Limitada was incorporated on March 1, 1994. The company's aim is to process, conserve in refrigeration, market, distribute and import its own poultry and by-products or those of third parties; to provide services in general, and any other business that the shareholders agree.

Elaboradora de Alimentos Doñihue Limitada was incorporated on January 9, 1989. The company's aim is to prepare sausages and cured meats.

Exportadora Los Fiordos Limitada was incorporated on January 9, 1989 by public deed, before Notary Public Mr. Aliro Veloso Muñoz. The company's aim is to extract, farm and fish for anything that lives in water; to freeze, conserve, prepare and transform it; to explore the fishing industry in general and its derivatives; to prepare fishmeal and fish oil.

Sopraval S.A. was incorporated by public deed on July 20, 1967, when it was named Sociedad de Productores Avícolas de Valparaíso Limitada. On December 31, 1992 the company amended its statutes to become a privately held corporation, amending its name from Sopraval Limitada to Sopraval S.A. Subsequently, on March 22, 1993 it became a publically held corporation and was registered on the Securities Registry under number 449, and subject to regulation by the Chilean Superintendence of Securities and Insurance (Now the Financial Market Commission). Currently the company has its registered office at J. J. Godoy "La Calera", in Valparaiso Region, Chile. On August 29, 2011, the subsidiary Sopraval S.A. requested the voluntary cancellation of its registration in the Securities Register held by the Superintendence of Securities and Insurance. The company's aim is to farm poultry, to produce turkey meat and prepare turkey sausages. On June 1, 2020, it was changed into a simplified limited liability company.

The foreign subsidiaries Agro América LLC, Agro Europa SPA, Inversiones Eurosuper SL, Productos Alimenticios Super Limitada, Andes Asia INC, Agrosuper Asia Limited, Agrosuper Brasil Representação de Productos Alimenticios Limitada, and Agrosuper Shanghai Limited aim to import, sell and distribute food products derived from chicken, turkey, pork, beef, salmon and generally any food product; to broker such products; and to represent other companies and their products, brands and licenses.

The Chilean Identification Number of Empresas AquaChile S.A. is 86,247,4007. It was originally formed as a privately held company under the name Fischer Hermanos Limitada, through a public deed dated July 20, 1979, granted by the Coyhaique Notary of Mr. Patricio Olate Melo. An extract of this public deed was recorded in the Commercial Registry of the Coyhaique Property Registrar on page 38 number 34 and published in the Official Gazette on August 3, 1979. It aims to produce and sell salmon, by participating in the entire production chain, and is currently the largest company in the Chilean salmon industry.

## 16. EQUITY METHOD INVESTMENTS IN ASSOCIATES

### 16.1 Details of investments in associates

As of March 31, 2025, and December 31, 2024, the investment in associates corresponds to Puerto Las Losas S.A., as follows:

As of March 31, 2025

Chilean ID number	Companies	Country	Functional Currency	% Share	Balance as of 01.01.2025 ThUS\$	Share of net income ThUS\$	Others Increases (decreases) ThUS\$	Balance as of 03.31.2025 ThUS\$
76,498,850-7	Puerto Las Losas S.A.	Chile	US dollars	49,00	21.637	859	-	22.496
<b>Total</b>					21.637	859	-	22.496

As of December 31, 2024

Chilean ID number	Companies	Country	Functional Currency	% Share	Balance as of 01.01.2024 ThUS\$	Share of net income ThUS\$	Others Increases (decreases) ThUS\$	Others Balance as of 12.31.2024 ThUS\$

Other intangible assets	4.420	(2.136)	2.284
<b>Total</b>	<b>589.633</b>	<b>(51.297)</b>	<b>538.336</b>

- (a) As of March 31, 2025 and December 31, 2024, these are mainly brands owned by Empresas AquaChile and recognized at their fair value as of their acquisition date. These brands have been assigned an indefinite useful life, as a result of long-term business plans and business forecasts.

The Company has no pledges or restrictions on intangible assets.

There are no contractual commitments for the acquisition of intangible assets.

### 17.2 Movements in intangible assets other than goodwill

Movements of identifiable intangible assets as of March 31, 2025, and December 31, 2024, are detailed as follows:

As of March 31, 2025	Aquaculture Concessions ThUS\$	Mining Concessions ThUS\$	Water Rights ThUS\$	IT Projects ThUS\$	Brands ThUS\$	Other Intangible assets ThUS\$	Total ThUS\$
Opening balance as of January 1, 2025	452.851	294	11.898	13.576	57.433	2.284	538.336
Additions	-	-	-	129	-	-	129
Amortization	-	-	-	(1.326)	-	-	(1.326)
Closing balance as of March 31, 2025	<b>452.851</b>	<b>294</b>	<b>11.898</b>	<b>12.379</b>	<b>57.433</b>	<b>2.284</b>	<b>537.139</b>

As of December 31, 2024	Aquaculture Concessions ThUS\$	Mining Concessions ThUS\$	Water Rights ThUS\$	IT Projects ThUS\$	Brands ThUS\$	Other Intangible assets ThUS\$	Total ThUS\$
Opening balance as of January 1, 2024	452.851	294	11.898	18.868	57.433	2.284	543.628
Additions	-	-	-	770	-	-	770
Amortization	-	-	-	(6.062)	-	-	(6.062)
Closing balance as of December 31, 2024	<b>452.851</b>	<b>294</b>	<b>11.898</b>	<b>13.576</b>	<b>57.433</b>	<b>2.284</b>	<b>538.336</b>

### 17.3 Amortization of intangible assets other than goodwill

Intangible assets with indefinite useful lives are tested for impairment annually either as an individual asset or as a cash generating unit (CGU).

Intangible assets with finite useful lives are amortized over their useful life and are tested for impairment each time there is an indication that the intangible asset may be impaired. The amortization period and amortization method for an intangible asset with a finite useful life are reviewed at least at every reporting date.

The amortization periods for intangible assets are:

The SAP IT Project is expenditure on the SAP Project, which will be depreciated on the basis of its returns and estimated usage.

The definition of identifiable assets arising from the acquisition of Sopraval S.A., recognized the Sopraval brand, which is not being amortized because its useful life is indefinite, according to independent third parties.

### 17.4 Research and development expenditure

Research and development expenditure for the period is as follows:

	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Meat	631	2.807
Aquaculture	518	1.936
	<b>1.149</b>	<b>4.743</b>

## 18. GOODWILL

### 18.1 Goodwill

Goodwill as of March 31, 2025 and December 31, 2024, are detailed as follows:

Investor	Underlying asset.	03.31.2025 Goodwill ThUS\$	12.31.2024 Goodwill ThUS\$
Agrosuper Comercializadora de Alimentos Ltda.	Comercial Geiser S.A.	19.083	19.083
Agrosuper S.A.	Sopraval SpA.	23.303	23.303
Agrosuper S.A.	Empresas AquaChile S.A.	304.541	304.541
Empresas AquaChile S.A.	Salmones Reloncavi SpA	32.453	32.453
		<b>379.380</b>	<b>379.380</b>

There were no movements in goodwill during both periods.

## 18.2 Acquisitions

### (a) Former Comercial Geiser S.A.

This acquisition integrated into the Group the distribution of its products in the north of Chile, where the acquired Company (and which was absorbed by subsidiary Agrosuper Comercializadora de Alimentos Ltda.) operated between the I and IV region.

#### **Main reasons for this business combination:**

The acquisition was part of the Group's business plan to integrate and control the distribution of products sold in the north of Chile. This acquisition meets the definition of IFRS 3 "Business Combinations", as the acquisition is associated with a business unit.

#### **Factors resulting in goodwill:**

Goodwill is mainly the synergy arising from integrating the distribution and logistics business unit for Agrosuper products, which results in distribution cost efficiencies and a better understanding of customer's requirements in the north of Chile.

### (b) Sopraval S.A.

#### **Main reasons for this business combination:**

The acquisition was part of the Group's business plan to integrate and control the production and marketing of agricultural products associated with the turkey business. This acquisition meets the definition of IFRS 3 "Business Combinations", as the acquisition is associated with a business unit.

#### **Factors resulting in goodwill:**

Goodwill represents the excess acquisition cost over the fair value of the Company's share in the identifiable assets, liabilities and contingent liabilities at the acquisition date of Sopraval S.A. It is recorded at acquisition cost less accumulated impairment losses.

Goodwill is not amortized, but at each reporting date the respective investment is evaluated for evidence of impairment that might reduce its recoverable value to below its book value, which would trigger an impairment provision.

### (c) Empresas AquaChile S.A. and its subsidiaries

In January 2019, through a Public Offering process of share acquisition, Agrosuper acquired 99.71% of the Company Empresas AquaChile S.A. and subsequently directly and indirectly acquired the remaining 0.29%. Today, Agrosuper owns 100% of the company's shares. This purchase is part of the business plan of the Group, which seeks to consolidate its position in the salmon business as the largest national producer and exporter and the second largest producer worldwide through the integration of Empresas AquaChile S.A. with the other existing salmon businesses.

The fair value of the purchase amounted to ThUS\$ 851,375.77

Its financial statements as of December 31, 2018 have been restated to include the fair value of its biomass calculated using a discounted cash flow method that recognized a higher biomass fair value of ThUS\$ 88,702, which was clarified as of the date of the takeover of Empresas AquaChile S.A. by Agrosuper S.A. in accordance with Letter 444 issued by the Financial Market Commission on biomass acquired in a business combination and its impact on the calculation and allocation of the purchase price or PPA.

### 18.3 Impairment assessment

Goodwill allocated to the CGUs detailed in note 18.1 is tested for impairment annually, or more frequently if there are signs of potential impairment. These signs may include a significant change in the economic environment affecting the business, new legal provisions, operating performance indicators or the disposal of a significant portion of a CGU. Any impairment loss is recognized for the amount that exceeds the recoverable amount of the CGU. The recoverable amount of each CGU is determined as the higher of its value in use or fair value less costs to sell.

Management believes that the value in use approach, determined using the discounted cash flow model, is the most reliable method for determining the recoverable amounts of the CGUs..

The critical variables used in the assessment model, where historical information is considered, a five-year projection and a perpetuity, are as follows.

**Projection period and estimated cash flows:** Management considers that the projection model of income, expenses and cash outflows considers a 5-year horizon plus perpetuity. To determine the value in use, it has used cash flow projections over the time horizon described above, considering the main variables of the historical cash flows of the CGUs based on financial statements, strategic production and slaughtering plans and the most recent approved budgets.

**Discount rate:** The WACC (Weighted Average Cost of Capital) rate was constructed using the following assumptions:

**Risk-free rate:** corresponds to the rates of 10-year United States Treasury bonds.

**Equity Risk Premium** Derived from a model that uses data applicable to Chile from the database published by Aswath Damodaran ("Damodaran") and other internal corporate assumptions.

**Levered Beta (BI):** Calculated using an internal model, based on various valuations and the betas that currently apply to comparable companies.

**Country Risk Premium:** Calculated using an internal model, based on several assumptions, including Damodaran's estimate of country risk.

**Tax Rate:** equivalent to 27% as determined by the Chilean Tax Authority.

**Equity Rate:** calculated with the CAPM model, using as input the levered beta, risk-free rate and market risk premium.

**Debt Ratio:** The current cost of long-term debt, based on the interest rate for 10-year U.S. treasury bonds and the spread for the international bond issued by Agrosuper S.A. in 2022.

**Debt-to-equity ratio (D/E):** corresponds to the structure of the Company's financial debt on capitalization at the close of the Interim Consolidated Financial Statements of September 2024

### **Meat Segment**

After valuing the cash flows associated with Comercial Geiser S.A. and Sopraval SpA. over a 5-year time horizon, a value in use greater than the book value of the brand, goodwill and fixed assets was determined, therefore it is estimated that there is no impairment.

### **Aquaculture Segment:**

After performing the valuation of the cash flows associated with Empresas AquaChile S.A, over a 5-year time horizon, a value in use greater than the book value of the brand, goodwill and fixed assets was determined, therefore it is estimated that there is no impairment.

## 19. PROPERTY, PLANT AND EQUIPMENT

### 19.1 Description

The net and gross values of Property, Plant and Equipment as of March 31, 2025, and December 31, 2024, are detailed by class as follows:

NET VALUES	03.31.2025 ThUS\$	12.31.2024 ThUS\$

### 19.3 Additional information

#### (a) Interest capitalization

The Company and its subsidiaries capitalized interest in Property, plant and equipment, in accordance with the IAS 23.

	01.01.2025 to 03.31.2025 ThUS\$	01.01.2024 to 03.31.2024 ThUS\$
Capitalized financial costs	548	1.146
Average capitalized interest rate	3,75%	4,44%

#### (b) Insurance

The Company and its subsidiaries have taken out insurance policies to cover possible risks to Property, Plant and Equipment as well as possible claims related to their businesses. These policies sufficiently cover the risks to which they are exposed.

#### (c) Pledges and mortgages associated with Property, plant and equipment

The Agrosuper Group don't have pledges and mortgages on Property, Plant and Equipment.

#### (d) Commitments for future purchases

The Agrosuper group has no contractual commitments for the future acquisition of Property, Plant and Equipment.

#### (e) Depreciation expense

Depreciation is calculated on a straight-line basis over the respective useful life of the asset.

This useful life is based on natural expected deterioration and technical or commercial obsolescence, due to changes or improvements in production and changes in market demand for the products produced by these assets.

The residual value and useful life of assets are reviewed, and adjusted where necessary, at each reporting date.

The charge to the income statement for depreciation on Property, plant and equipment is as follows:

	03.31.2025 ThUS\$	03.31.2024 ThUS\$
In cost of sales	28.477	28.579
In administrative expenses	1.948	1.058
In other non-operating expenses	899	420
<b>Total</b>	<b>31.324</b>	<b>30.057</b>

## (f) Cost of dismantling, withdrawal or rehabilitation

The Agrosuper Group has no contractual obligations to withdraw, dismantle and rehabilitate any of its facilities as of March 31, 2025, and December 31, 2024, and therefore has no provisions for these costs.

## (g) Assets temporarily out of service

As of March 31, 2025, and December 31, 2024, the Agrosuper Group had no items of property, plant, and equipment that were temporarily out of service.

## 20. CURRENT AND DEFERRED INCOME TAXES

### 20.1 Income tax recognized in net income for the period

	03.31.2025 ThUS\$	03.31.2024 ThUS\$
Current tax expense (income)	29.831	9.658
<b>Total net current tax expense (income)</b>	<b>29.831</b>	<b>9.658</b>
Deferred tax expense (income)		
Tax expense adjustment for prior year	5.462	73
Deferred tax expense (income) related to creation and reversal of temporary differences	5.184	(5.803)
Others	318	(183)
<b>Total net deferred tax income (expense)</b>	<b>10.964</b>	<b>(5.913)</b>
<b>Total income tax income (expense)</b>	<b>40.795</b>	<b>3.745</b>

### 20.2 Reconciliation of effective tax rate

A reconciliation of the legal tax rate in Chile and the effective tax rate applicable to the Company and its subsidiaries is as follows:

	03.31.2025 ThUS\$	03.31.2024 ThUS\$
<b>Reconciliation of income tax expense using the statutory rate with income tax expense using the effective rate</b>	40.789	3.745
Tax effect of rates in other jurisdictions	521	363
Tax effect of deductible expenses	1	2
Tax effect of non-deductible expenses	(189)	89
Tax effect of indexation	-	-
Others	(327)	(454)
<b>Total tax expense (income)</b>	<b>40.795</b>	<b>3.745</b>

## 20.3 Deferred taxes

Deferred tax assets and liabilities as of March 31, 2025, and December 31, 2024, are detailed as follows:

### Deferred taxes relating to:

	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Provision for the indefinite strike at the Huasco agro-industrial complex	39.093	39.547
Employee benefits provision	2.087	2.202
Tax losses	41.071	53.715
Other provisions	18.734	20.027
Vacation provisions	3.103	3.007
Allowance for doubtful receivables	920	814
Offset deferred taxes (a)	(52.573)	(66.374)
<b>Total deferred tax assets</b>	<b>52.435</b>	<b>52.938</b>
Difference between financial and tax PP&E	156.935	154.919
Intangible	90.692	90.641
Animals born in the field	53.582	56.788
Indirect manufacturing expenses	64.289	65.322
Deferred expenses	11.912	14.269
Fair value of biological assets and inventories	44.785	49.543
Collective agreement bonus	1.282	1.408
Other events	1.272	677
Offset deferred taxes (a)	(52.573)	(66.374)
<b>Total deferred tax liabilities</b>	<b>372.176</b>	<b>367.193</b>

- a) The deferred tax assets and liabilities of each subsidiary have been offset, leaving only a net deferred tax asset or liability position in the financial statements.

There is no valuation provision on deferred tax assets at the reporting date because it is likely that deferred tax assets will be completely recovered

## 20.4 Deferred Taxes Balance

Movements on deferred tax assets and liabilities are as follows:

Deferred tax movements	Assets (Liabilities) ThUS\$
<b>Balance as of January 1, 2024</b>	
Increase (decrease) for deferred taxes on net income	(66.504)
Increase (decrease) for deferred taxes on comprehensive income	(2.188)
<b>Balance as of December 31, 2024</b>	<b>(314.255)</b>
Increase (decrease) for deferred taxes on net income	(5.788)
Increase (decrease) for deferred taxes on comprehensive income	302
<b>Balance as of March 31, 2025</b>	<b>(319.741)</b>

## 21. OTHER CURRENT AND NON-CURRENT FINANCIAL LIABILITIES

Other current and non-current financial liabilities as of March 31, 2025, and December 31, 2024, are detailed as follows:

	Current		Non-current	
	03.31.2025 ThUS\$	12.31.2024 ThUS\$	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Interest-bearing loans	84.048	81.143	-	63.349
Bonds payable	23.902	31.280	834.714	824.052

Lease liabilities, non-current	15.340	-	15.340
<b>Total non-current</b>	<b>902.741</b>	<b>22.800</b>	<b>925.541</b>
<b>Total</b>	<b>1.583.714</b>	<b>25.964</b>	<b>1.609.678</b>

## 22.3 Hedging instruments

Agrosuper S.A. and its subsidiaries purchases interest rate and exchange rate hedges, in accordance with risk management policy.

The Company classifies its hedges as cash flow hedges:

Effective hedges and ineffective hedges: The Company uses hedges to cover the risk of volatility in cash flow attributable to changes in interest rates or exchange rates on loans with variable interest rates or in a currency other than the US dollar.

The effective part of changes in value of hedging instruments is recorded temporarily in equity, until the envisaged transactions occur. The ineffective part is recorded directly in the statement of net income.

The details of hedging contracts and their hedged items are as follows:

Bank	Hedging instrument	Transaction number	Currency	Rate received	Rate paid	Hedged Item	Hedge	03.31.2025	12.31.2024
								Notional ThUS\$	Notional ThUS\$
Banco de Chile	Cross Currency Swap	4000053	UF/US\$	Fixed rate	Fixed rate	Bonds payable	Cash flow	17.202	18.348
Scotiabank	Cross Currency Swap	4000054	UF/US\$	Fixed rate	Fixed rate	Bonds payable	Cash flow	17.167	18.311
Goldman Sachs	Cross Currency Swap	4000057	UF/US\$	Fixed rate	Fixed rate	Bonds payable	Cash flow	35.256	37.607
Banco de Chile	Cross Currency Swap	4000005	UF/US\$	Fixed rate	Fixed rate	Bonds payable	Cash flow	101.754	101.754
Bank of America	Cross Currency Swap	4000005	UF/US\$	Fixed rate	Fixed rate	Bonds payable	Cash flow	55.666	55.666
JP Morgan	Cross Currency Swap	4000006	UF/US\$	Fixed rate	Fixed rate	Bonds payable	Cash flow	55.830	55.830
JP Morgan	Cross Currency Swap	4000007	UF/US\$	Fixed rate	Fixed rate	Bonds payable	Cash flow	60.905	64.966
Goldman Sachs	Cross Currency Swap	4000008	CLP/US\$	Fixed rate	Fixed rate	Loans payable	Cash flow	102.065	102.065
<b>Total</b>								<b>445.845</b>	<b>454.547</b>

### 22.3 a) Assets and liabilities for hedge instruments

Financial derivative transactions that qualify as hedge instruments resulted in recognizing the following assets and liabilities in the statement of financial position as of March 31, 2025, and December 31, 2024,:

	March 31, 2025				December 31, 2024			
	Assets		Liabilities		Assets		Liabilities	
	Current ThUS\$	Non-current ThUS\$	Current ThUS\$	Non-current ThUS\$	Current ThUS\$	Non-current ThUS\$	Current ThUS\$	Non-current ThUS\$

## 22.4 Fair value assets and liabilities

Fair value is generally understood to be the price of a financial instrument at a particular time in a free and voluntary transaction between interested parties, duly informed and independent of each other. The fair value of financial instruments without available market prices have been estimated using current values or other valuation techniques. These techniques are significantly affected by the underlying assumptions, including the discount rate and the prepayment assumptions. Therefore, the estimates of fair value for some financial assets and liabilities cannot be justified in comparison with independent markets and in many cases they cannot be immediately placed.

The estimates of fair value that follow do not attempt to estimate the value of the Company's returns on its business, nor future business, so do not represent the value of the Company as a going concern.

The methods used to estimate the fair value of its financial instruments are described as follows:

### (a) Cash and mutual funds:

The book value of cash and mutual funds in banks is approximately their estimated fair value given their short-term nature.

### (b) Transactions pending settlement (asset and liability)

The book value of transactions in foreign currencies is approximately their estimated fair value given their short-term nature.

### (c) Financial investments:

The estimated fair value of consolidated financial instruments is calculated using market prices or prices quoted for financial instruments with similar characteristics.

### (d) Financial instruments

The fair value of financial instruments is the estimated amount that the Company expects to receive or pay to terminate those contracts or agreements, taking into account current interest rates and prices.

	March 31, 2025		December 31, 2024	
	Book value ThUS\$	Estimated fair value ThUS\$	Book value ThUS\$	Estimated fair value ThUS\$

<b>Non-Current</b>				
Other financial liabilities, non-current	833.011	823.201	910.201	833.686

## 22.5 Fair value hierarchies

Financial instruments recognized at fair value in the statement of financial position are classified into the following hierarchies:

- Level 1: Quoted (unadjusted) price in an active market for identical assets and liabilities.
- Level 2: Indications other than quoted prices included in level 1 that are observable for assets or liabilities, either directly (i.e. as a price) or indirectly (i.e. as a derivative of a price).
- Level 3: Indications for assets or liabilities that are not based on observable market information (non-observable indications).

Financial assets and liabilities at fair value as of March 31, 2025, and December 31, 2024, are detailed as follows:

**Financial instruments measured at fair value**

Description	Fair value measured as of the reporting date			
	03.31.2025	Level 1	Level 2	Level 3
	ThUS\$	ThUS\$	ThUS\$	ThUS\$

## 25. EQUITY

### 25.1 Share capital

#### Company incorporation

Agrosuper S.A. was incorporated by public deed on October 29, 2010, under the name Agrosuper S.A. and its Chilean identification number is: 76,129,263-3. Its registered office is at Camino la Estrella 401, Office 56, Sector Punta de Cortés, Rancagua.

The shareholders at the date of incorporation were Promotora Doñihue Ltda. and Agrocomercial El Paso S.A.

The share capital of Agrosuper S.A. was amended on January 25, 2021, in order to convert it from Chilean peso to US dollar, due to a change in the functional currency of the Company. Accordingly, its share capital became ThUS\$ 1,342,549, divided into 23,500,376,756 common shares.

The summary of subscribed and paid-in shares is as follows:

Date	Description	Number of Shares
10-29-2010	Constitution Agrosuper S.A.	3.372.525.709
12-15-2010	Capital increase	52.053.605
12-27-2010	Capital increase	13.401.715.543
01-14-2019	Capital increase	6.674.081.899
<b>Total subscribed and paid shares</b>		<b>23.500.376.756</b>

### 25.2 Capital management

The Company's capital management objective is to be appropriately capitalized, to ensure that it has access to financial markets to develop its medium and long-term goals, thus optimizing shareholder returns and maintaining a sound financial position.

### 25.3 Dividend policy

The Company's statutes and Article 79 of Corporate Law establishes that the Company should annually distribute a mandatory dividend equivalent to 30% of the net distributable income for the year, provided that there were no losses for the year or accumulated losses from previous years, unless unanimously agreed otherwise by holders of all the issued shares at an Annual General Shareholders meeting.

The Company's Board agreed to provide a quarterly dividend of 30% of net income for the financial year, subject to the Company's final net distributable income, calculated in accordance with Circular 1945 dated September 29, 2009. At the Board session held on March 27, 2020, ratified by the ordinary shareholders' meeting held on April 29, 2020, it was agreed to approve the policy for the calculation of the Company's distributable profit to be considered for the calculation of dividends and profit sharing. It was agreed to exclude the following from the results:

- The unrealized income related to the recording of biological assets at fair value, regulated by the accounting standard "IAS 41", being returned to the net income upon realization. For these purposes, the portion of said increases in fair value corresponding to the assets sold or disposed of by any other means will be understood as realized.
- The unrealized income generated in the acquisition of other entities and, in general, that unrealized income arising from the application of paragraphs 24, 39, 42 and 58 of the accounting standard "IFRS 3", referred to operations of business combinations.

Interim, prospective and final dividends are deducted from Total Equity as soon as they are approved by the competent entity, which in the first case is normally the Company's Board of Directors and in the second and third cases, are the shareholders at the Ordinary General Shareholders meeting.

## 25.4 Shareholders detail

The Company's shareholders are detailed as follows:

Chilean ID number	Shareholders	Shares as of 03.31.2025	% Interest
78,407,260-6	Promotora Doñihue Ltda.	23.143.171.029	98,48%
96,733,090-6	Agrocomercial El Paso S.A.	357.205.727	1,52%
<b>Total</b>		<b>23.500.376.756</b>	<b>100,00%</b>

## 25.5 Earnings (Loss) per share

Basic earnings (Loss) per share is calculated by dividing the net income attributable to owners of the controller by the weighted average number of shares outstanding during the year:

	03.31.2025	03.31.2024
Net income (Loss) attributable to owners of the parent company ThUS\$	110.236	9.837
Basic weighted average number of shares	23.500.376.756	23.500.376.756
<b>Basic earnings (loss) per share (US\$/share)</b>	<b>0,0047</b>	<b>0,0004</b>

## 25.6 Net distributable income

The Ordinary Shareholders' Meeting held on April 29, 2020 ratified the resolution adopted at the Board meeting held on March 27, 2020, which approved the Policy for the determination of the Company's distributable net income to be considered for the calculation of dividend payments for the period 2020. This is determined on the basis of the profit effectively realized, eliminating any relevant variations in the value of assets and liabilities that have not been realized, which are returned to the calculation of the net profit for the year in which such variations are realized.

The calculation of the minimum dividend provision is as follows:

Distributable net profit	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Profit (Loss) attributable to owners of the parent company before profit sharing	110.246	330.925
Unrealized gains, related to fair value adjustments of biological assets	11.831	(50.868)
Deferred tax on unrealized gains	(3.194)	13.734
<b>Distributable net profit</b>	<b>118.883</b>	<b>293.791</b>
Dividend policy of 30%	35.665	88.137

## 25.7 Other reserves

The detail of other reserves included in equity is as follows:

Description	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Exchange differences on conversion reserve (a)	117.137	113.450
Cash flow hedge reserve (b)	1.042	1.859
Other reserves:		
Effect of business combinations (c)	(50.553)	(50.553)
Other reserves	(8.037)	(7.417)
<b>Total</b>	<b>59.589</b>	<b>57.339</b>

### (a) Exchange differences on conversion reserve

This reserve is the effect of converting the financial statements of subsidiaries whose functional currency is not the Chilean peso and generating exchange differences on conversion.

### (b) Cash flow hedge reserve

Under IFRS, changes in the fair value of financial instruments designated as cash flow hedges should be recorded in an equity reserve net of adjustments for any ineffective portion.

### (c) Effect of business combinations under common control

	03.31.2025 ThUS\$	12.31.2024 ThUS\$
Efecto neto combinación de negocio con Empresas AquaChile S.A.		
Net effect of the capital decrease Exportadora Los Fiordos Ltda (1)	(53.727)	(53.727)
Effect on deferred tax of the merger with Comercial Geiser S.A. (2)	3.174	3.174
<b>Total net effect of business combinations</b>	<b>(50.553)</b>	<b>(50.553)</b>

1. This effect is due to the decrease in equity at Exportadora Los Fiordos Limitada during 2010, due to the withdrawal of the partner Inversiones VC Limitada, who withdrew its capital contribution. This caused an increase in the interest of Agrícola Agrosuper S.A. (merged with Agrosuper S.A.) in Exportadora Los Fiordos Limitada from 51.49% to 99.99%.
2. This is the effect of deferred taxes on the merger of Comercial Geiser S.A. with Agrosuper Comercializadora de Alimentos Limitada in 2010.

The composition of the movement of assets by subsidiaries that originate them is as follows:

	Country	Functional Currency	Total difference change	
			03.31.2025 ThUS\$	12.31.2024 ThUS\$
Inversiones Eurosuper SL	Spain	EUR	1.828	(1.174)
Productos Alimenticios Súper R.L.	Mexico	MXN	3.633	(1.224)
Andes Asia INC	Japan	JPN	151	(313)
Agrosuper Shanghai Limited Company	China	US dollars	230	(179)
Agro Europa SPA	Italy	EUR	(2.155)	(53)
<b>Foreign currency conversion reserve</b>			<b>3.687</b>	<b>(2.943)</b>

## 26. NON-CONTROLLING INTERESTS

Non-controlling interests as of March 31, 2025, and December 31, 2024, are detailed as follows:

Subsidiary	Country	Minority shareholder	March 31, 2025	
			Non-controlling interest	
			In net income ThUS\$	In equity ThUS\$
Sopraval SpA	Chile	Others	(3)	90
Agroeuropa SPA	Italy	Balestrero G & G SRL	47	232
Centro de Innovacion Aquainnovo-Biomar S.A.	Chile	Others	(4)	954
<b>Total</b>			<b>40</b>	<b>1.276</b>

Subsidiary		Minority shareholder	As of 12.31.2024	
			Non-controlling interest	
			In net income ThUS\$	In equity ThUS\$
Sopraval S.A.	Chile	Others	(2)	102
Agroeuropa SPA	Italy	Balestrero G & G SRL	274	477
Centro de Innovacion Aquainnovo-Biomar S.A.	Chile	Others	17	1.469
<b>Total</b>			<b>289</b>	<b>2.048</b>

## 27. SEGMENTS

### Segmentation criteria

The Agrosuper Group has defined its business segments with a focus on its priorities, so they consist of meat, aquaculture and others.

Since the Group's corporate organization coincides with its segments, the allocations in the segment information presented below are based on the financial information of the companies included in each segment, except for the Parent company's transactions, such as cash management, financing and hedging instruments, with their respective effects on exchange differences and financial costs, which are allocated using criteria defined by management and reviewed quarterly.

The segment information presented below is for the Interim Consolidated Statements of Income for the period ended March 31, 2025 and 2024, and for the Interim Consolidated Statements of Financial Position as of March 31, 2025, and December 31, 2024.

## Interim Consolidated Statement of Income - For the period ended March 31, 2025:

## 28. OPERATING REVENUE

Operating revenue for the periods ended March 31, 2025 and 2024, is detailed as follows:

By geographical area	01.01.2025 to	01.01.2024 to
	03.31.2025	03.31.2024
	ThUS\$	ThUS\$
Domestic	401.550	371.634
International	262.917	241.625
<b>Total meat revenue</b>	<b>664.467</b>	<b>613.259</b>
Domestic	22.554	24.258
International	478.708	427.700
<b>Total aquaculture revenue</b>	<b>501.262</b>	<b>451.958</b>
Domestic	11.100	15.580
<b>Total other revenue</b>	<b>11.100</b>	<b>15.580</b>
<b>TOTAL</b>	<b>1.176.829</b>	<b>1.080.797</b>

## 29. COST OF SALES, DISTRIBUTION COSTS AND ADMINISTRATIVE EXPENSES

The detail of Cost of sales, distribution costs and administrative expenses as of March 31, 2025 and 2024, are as follows:

	01.01.2025 to	01.01.2024 to
	03.31.2025	03.31.2024
	ThUS\$	ThUS\$
Direct costs	728.164	744.082
Salaries (a)	89.696	77.476
Freight and Insurance	53.411	41.702
Depreciation and amortization	40.566	53.206
Staff benefits (a)	35.279	29.161
Advertising	12.209	10.551
Import cost	1.107	2.333
Commissions	6.612	6.100
Third Party Fees	3.518	3.937
Storage	4.149	2.599
Export expenses	6.499	1.541
Certifications	2.302	2.420
Cloud Services, Telephony and data transmission	2.095	3.699
Rental of equipment and machinery	1.862	9.652
Other cost	12.171	11.288
<b>Total</b>	<b>999.640</b>	<b>999.747</b>

a) See note 30

### 30. EMPLOYEE BENEFIT EXPENSES

Employee benefit expense for the periods ended March 31, 2025 and 2024, are detailed as follows:

	01.01.2025 to 03.31.2025 ThUS\$	01.01.2024 to 03.31.2024 ThUS\$
Wages and salaries	89.696	77.476
Welfare benefits	4.782	4.141
Termination costs	6.512	4.122
Legal bonuses	1.796	1.627
Allowances	9.020	8.245
Performance bonuses	11.049	9.255
Shared funds	80	81
Other employee expenses	2.040	1.690
<b>Total</b>	<b>124.975</b>	<b>106.637</b>

#### 30.1 DEPRECIATION AND AMORTIZATION EXPENSE

Depreciation and amortization expense for the periods ended March 31, 2025, and 2024, are detailed as follows:

	01.01.2025 to 03.31.2025 ThUS\$	01.01.2024 to 03.31.2024 ThUS\$
Depreciation of property, plant and equipment	31.324	30.057
Depreciation of non-current biological assets	7.034	9.196
Amortization of intangible assets	1.326	1.511
Amortization Assets for right of use	1.781	1.359
<b>Total</b>	<b>41.465</b>	<b>42.123</b>

(a) See note 19.3e

### 31. FINANCIAL INCOME AND EXPENSES

Financial income and expenses for the periods ended March 31, 2025, and 2024, are detailed as follows:

FINANCE INCOME	01.01.2025 to 03.31.2025 ThUS\$	01.01.2024 to 03.31.2024 ThUS\$
Interest on financial investments	2.827	3.165
Other financial income	179	405
<b>Total financial income</b>	<b>3.006</b>	<b>3.570</b>

FINANCE COSTS	01.01.2025 to 03.31.2025 ThUS\$	01.01.2024 to 03.31.2024 ThUS\$
Interest on bank loans	1.279	8.855
Derivatives on bank loans	10.469	10.473
Financial costs for bonds and loans	72	534

## 34. RESTRICTIONS AND LAWSUITS

### 34.1 Restrictions

The Company has no individual restrictions as of March 31, 2025. However, as a Parent Company it is a guarantor for its subsidiaries and certain restrictions apply to their bank obligations, which are as follows:

- Maintain a debt ratio of less than 1, measured as Net Financial Liabilities divided by Equity, throughout the bond period through to maturity.

The Company complied with all its management restrictions and financial indicators as of the date these consolidated financial statements were closed, as described in the original loan contracts and their respective amendments.

#### Bonds

The US dollar bonds placed in the USA are described in Note 21.2. They do not have associated financial covenants.

The UF bonds placed in the local market are described in Note 21.2. Agrosuper S.A. has agreed to comply with the following financial covenants based on its financial statements.

- Maintain a debt ratio of less than 1, measured as Net Financial Liabilities divided by Equity, throughout the bond period.
- Not to sell one or more essential assets in one or a series of transactions, which represent more than 10% of the total assets of the bond issuer.

As of March 31, 2025 and December 31, 2024 the Company is in full compliance with the aforementioned restrictions as follows:

	03.31.2025 ThUS\$	12.31.2024 ThUS\$
<b>Net financial obligations are equal to:</b>	<b>626.202</b>	<b>640.101</b>
+ Other financial liabilities, current	115.185	115.587
+ Other financial liabilities, non-current	833.011	910.201
- Derivative assets, current	25.246	36.979
- Derivative assets, non-current	-	-
- Cash and cash equivalents	296.748	348.708
<b>Equity is equal to:</b>	<b>2.701.518</b>	<b>2.626.120</b>
+ Equity attributable to owners of the parent company	2.700.242	2.623.421
+ Equity attributable to non-controlling interests	1.276	2.699
<b>Net financial obligations / Equity &lt;= 1.0</b>	<b>0,23</b>	<b>0,24</b>

## 34.2 Lawsuits

The Parent Company and its Subsidiaries do not record provisions for lawsuits, since in the opinion of Management and its legal advisors, the different lawsuits described below have a higher probability of being favorable for the Company.

### a) Judicial and Administrative Cases

#### a.1 Cases over ThUS\$245

N°	Applicant	Parts	Legal Action	Agency	Rol – year start	Observations
1	Jessica Muñoz Cerda	Agrícola Super Ltda.	Demand seeking compensation for damages under extra-contractual liability.	Civil Court of Melipilla	C-3621-2017	Proceedings progressing
2	Heirs of Juan Muñoz Muñoz	Inversiones AquaChile SpA.	Demand seeking compensation for damages	First Civil Court of Puerto Montt	C-1155-2021	Proceedings progressing
3	Heirs of Jorge Bustamante Carrasco	Empresas Aquachile S.A.	Demand seeking compensation for damages	First Civil Court of Puerto Montt	C-3117-2021	Proceedings progressing
4	Nova Austral	Empresas Aquachile S.A.	Termination of contract with compensation for damages	Second Civil Court of Puerto Montt	C-4402-2023	Proceedings progressing

As of March 31, 2025, there are 198 cases involving less than ThUS\$ 245 where the Group is the main defendant and these total approximately ThUS\$ 245. There are also 286 cases where the amount is not yet known because they are still at a preliminary stage.

Furthermore, as of that date there were 56 cases of uncertain value filed by SERNAPESCA, which have a wide range of values that will be determined by the offense, where 16 are for demands that could exceed ThUS\$ 245.

**b.) Labor lawsuits:**

**b. Cases over ThUS\$ 245**

Workers and other employees	12.933	13.923	12.658	13.543
<b>Total</b>	<b>18.164</b>	<b>19.178</b>	<b>17.586</b>	<b>18.537</b>

### 36. ENVIRONMENT

At Agrosuper, we promote responsible environmental management by evaluating the impacts of our activities and making efficient use of natural resources. This is achieved by continuously innovating to incorporate cutting-edge technology into each of our production processes.

Through sustainable development, we have been able to reduce our carbon footprint and water consumption, as well as increase the use of clean energy in our operations and promote the circular economy.

We launched various initiatives in the Meat Segment that have helped us to achieve this objective. For example, we have 69% of the electricity used by our Company currently comes from renewable sources, through contracts with Statkraft, Enel Chile, and Besalco.

We have implemented self-generation projects to these initiatives. The most recent is a new parking lot with solar panels located at the Rancagua headquarters, which is in the final construction stages. This facility consists of 590 high-efficiency panels for 110 spaces.

In addition to this installation, two charging stations for hybrid and electric vehicles have been added at the same location. Both initiatives together are expected to generate an estimated 680 megawatt-hours [MWh] annually, covering 28% of the total consumption of the headquarters.

In the same line, the company is developing photovoltaic projects in 13 production sectors located in the regions of Valparaíso and O'Higgins, which include 620 solar panels that will enable self-generation, with the capacity to inject energy into other facilities."

We are optimizing how we use our water resources in the Meat and Aquaculture Segments, by monitoring our consumption and introducing technology that will reduce it and increase water recycling.

In particular, the Meat Segment has stood out for reusing water from organic waste treatment, providing clean water for activities such as washing our facilities, irrigating the Central Office, and cleaning trucks.

We have also implemented initiatives that benefit our local communities by developing projects that improve access to water.

The "Impulsa Agua" program aims to contribute to improving residents' quality of life by financing projects that provide water solutions. Three years after its implementation, and with 29 projects executed, it has benefited 6,400 families in 13 municipalities in the O'Higgins and Metropolitan regions.

In terms of the circular economy, we have implemented an innovative process that stimulates the circular economy by transforming pig slurry into Biofertilizer. This natural fertilizer is an extremely nutritional soil improver, which will increase the productive yields of our neighbors' crops.

In August 2024, we signed an important collaboration agreement with the Regional Ministerial Secretariat of Agriculture of O'Higgins, which aims to benefit farmers in the communes of La Estrella and Las Cabras with the delivery of biofertilizer.

Since it was implemented, we have helped 6.000 small-scale farmers in the Las Cabras, La Estrella, San Pedro and Casablanca municipalities.

Regarding our odor management, and anticipating the entry into force of its regulations (February 2027), we are implementing an environmental improvement plan that includes covering the slurry treatment lagoons in our production facilities. As of December 31, 2024, 100% of the lagoons in the Central Valley have been filled, which cover an area from Mostazal to San Vicente de Tagua Tagua.

Meanwhile, care and respect for the environment are a high priority within our management strategy for the aquaculture segment. This has resulted in the adoption of several measures and best practices, with the aim of increasing operational efficiency and reducing the environmental impact of this business in a sustainable and significant manner.

These programs safeguard the environment, as they involve investing in production improvements and increasing the monitoring and control of any aspects that impact the environment.

The main concepts relating to these environmental costs are described as follows.

1. Bathymetrics: Measures the depth of a concession.
2. Correntometrics: Measures the dynamics of marine currents around concessions. They identify the prevailing currents, together with their frequency and speed.

3. INFAs: Environmental reports on marine and lake fish farms, which are reviewed by SERNAPESCA. These reports cover facilities in operation and must comply with the deadlines established by resolution.
4. INFAs Preparation: Environmental reports on fish farms before they become operational and that have been fallow for over a year.
5. Oxygen profiles: Monitoring oxygen levels in the water column at marine and lake fish farms every 2 months.
6. Phytoplankton monitoring: Analyzing water samples from the marine fish farms, primarily to detect the presence of harmful algae that affect normal fish behavior.
7. Grey and black water sampling and analysis at Pontoon treatment plants: Treated water from pontoon treatment plants must be monitored, in accordance with the Maritime Authority's requirements.

The Company has established disbursements related to improving or investing in productive processes that result in decreased environmental impact or improvements to environmental conditions, such as monitoring effluents from hatcheries, marine crafts and processing plants; implementing silage systems for dead fish at marine fish farms and hatcheries; and environmental reports and studies of fish-farms.

Furthermore, it has established disbursements related to verifying and monitoring regulations and laws governing industrial processes and facilities, such as submitting environmental impact statements that evaluate mortality silage systems; handling and final disposal of hazardous and non-hazardous waste; monitoring phytoplankton; monitoring sediment and the water column at fish-farms; monitoring sludge from hatcheries; environmental consultancy; and sampling and laboratory analysis services.

Another environmental impact is the treatment of the Company's inorganic, organic and hazardous waste generated by each production unit. For example, regarding effluent treatment:

- Sludge: Removal and final disposal of the sludge produced by hatcheries and processing plants. The firm that removes and disposes of this waste must have all the health and environmental permits required by environmental legislation.
- Effluent monitoring and analysis: The industrial liquid waste produced by hatcheries and processing plants is monitored and analyzed. The results are sent to the Superintendent of Sanitary Services (SISS) and the Maritime Authority, as appropriate. This analysis conforms with D.S. 90/2001.

The main environmental certificates for this segment and the analyses requested from external laboratories involve INFAs and pre-INFAs, effluents, pontoon treatment plants and drinking water.

Also, sanitary certificates for processes, the environmental excellence of its surroundings, the biosafety of its business and the health quality of its products.

Environmental investment and expenditure as of March 31, 2025 and 2024 is detailed as follows:

Environmental Investments and expenditure	Cumulative	
	03.31.2025 ThUS\$	03.31.2024 ThUS\$
Slurry treatment plants	18.540	18.689
Environmental Management	7.637	3.885
Analysis and Certifications	2.383	928
Investments in plants and equipment for environmental management	1.117	780
<b>Total</b>	<b>29.677</b>	<b>24.282</b>

### 37. SIGNIFICANT EVENTS IN THE PERIOD

- On January 17, 2025, a current credit with Rabobank was prepaid for ThUS\$64,000.
- At a Regular Board Meeting held on January 27, 2025, the Directors approved the consolidated financial statements of Agrosuper S.A. and subsidiaries as of December 31, 2024, which were prepared according to the standards for the preparation and presentation of financial information issued by the Financial Market Commission (CMF), in accordance with International Financial Reporting Standards (IFRS).

### 38. EVENTS AFTER THE REPORTING DATE

- An Extraordinary Board Meeting was held on April 1, 2025, where the Directors approved to convene an Ordinary Shareholders' Meeting for April 30, 2025, at 9:00 a.m.
- An Annual General Shareholders' Meeting was held on April 04, 2025, where the shareholders agreed to:
  - Approve the annual report, financial statements and external auditor's report for the year ended December 31, 2024.
  - Approve the Director's remuneration for 2025.
  - Appoint PwC as external auditors to examine the financial statements for 2025.
  - Approve the distribution of a dividend out of earnings for 2024 of US\$ 0.00375046047 per share.
  - Select the newspaper Diario Financiero for the Company's publications.
- On April 30, 2025, Promotora Doñihue Ltda. paid the financing provision for ThUS\$51,500 plus interest that it had with Agrosuper S.A. granted in January 2025.
- An Extraordinary Board Meeting was held on May 7, 2025, where the Directors approved the Interim consolidated financial statements of Agrosuper S.A. and subsidiaries as of March 31, 2025, prepared according to the standards for the preparation and presentation of financial information, issued by the Financial Market Commission (CMF), in accordance with International Financial Reporting Standards (IFRS).

No other significant subsequent events have occurred between March 31, 2025, and the date of issuance of these Interim Consolidated Financial Statements.

### 39. CURRENCY

Current assets by currency are as follows:
