CONSOLIDATED FINANCIAL STATEMENTS (Figures denominated in thousands of Chilean pesos - ThCh\$ and thousands of United States dollars - ThUSD)

For the years ended december 31, 2019 and 2018

INDEPENDENT AUDITOR'S REPORT (Free translation from the original in Spanish)

Santiago, March 27, 2020

To the Shareholders and Directors Agrosuper S.A.

We have audited the accompanying consolidated financial statements of Agrosuper S.A. and its subsidiaries, which comprise the consolidated statements of financial position as at December 31, 2019 and 2018 and the consolidated statements of income by function, comprehensive income, changes in equity and cash flows for the years then ended and the related notes to the consolidated financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards. This responsibility includes the design, implementation and maintaining of a relevant internal control for the preparation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Generally Accepted Auditing Standards in Chile. Those standards require that we plan and perform the audit to obtain reasonable assurance that the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant for the preparation and fair presentation of the entity's consolidated financial statements with the aim of designing auditing procedures appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we do not express such an opinion. An audit also includes evaluating the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

PwC Chile, Av. Andrés Bello 2711 - piso 5, Las Condes – Santiago, Chile RUT: 81.513.400-1 | Teléfono: (56 2) 2940 0000 | www.pwc.cl

Santiago, March 27, 2020 Agrosuper S.A. 2

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material aspects, the financial position of Agrosuper S.A. and subsidiaries as of December 31, 2019, and 2018, and the results of its operations and cash flows for the years then ended in accordance with International Financial Reporting Standards.

Emphasis of Matter

As explained in note 3.2, supplementary information has been included to presented figures stated in United States dollars in the financial statements (including notes) for the convenience of the reader. The method of translation used to determine this supplementary information is not in compliance with IFRS as explained in the same Note.

Restriction of Use

This report is presented only for the information and use of Shareholders, Board of Directors and Management of Agrosuper S.A., and its subsidiaries. Consequently, it does not represent a public document and should not be circulated to third parties without our prior consent.

AGROSUPER S.A. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS OF DECEMBER 31, 2019 AND 2018

1. GENERAL INFORMATION.

Agrosuper S.A. (hereinafter the "Parent Company" or the "Company") and its subsidiary companies, make up the Agrosuper Group (hereinafter "Agrosuper" or the "Group").

Agrosuper S.A. was founded by a public deed dated October 29, 2010, granted by the Santiago Notary of Mr. Andres Rubio Flores. The respective excerpt was published in the Official Gazette on December 24, 2010 and inscribed on page 69,043 number 48,224 of the Registry of Commerce of the Real Estate Registrar of Santiago for the year 2010.

The Company is a publicly held corporation registered in the Securities Registry under number 1084 and is regulated by the Financial Market Commission(formerly Superintendence of Securities and Insurance).

The Chilean identification number of Agrosuper S.A. is: 76.129.263-3. Its principal registered office is at Camino La Estrella 401, Office 56, Punta de Cortés, Rancagua.

On the date the Company was incorporated its shareholders were Agrocomercial El Paso S.A. and Promotora Doñihue Limitada, with an interest of 98.48% and 1.52%, respectively. Its initial share capital was ThCh\$134,901,028 divided into 3,372,525,709 shares. To date, the shareholders have had no variation and the subscribed and paid-in capital amounts to ThCh\$954,485,016 divided into 23,500,376,756 shares.

The Company is controlled by Mr. Gonzalo Vial Vial, whose Chilean identification number is 3,806,024-4, and his children Ms. Maria Cristina Vial Concha, whose Chilean identification number is 7,032,945-K, Ms. Maria del Pilar Vial Concha, whose Chilean identification number is 7,022,695-2, Ms. María José Vial Concha, whose Chilean identification number is 7,022,776-2 and Mr. Gonzalo Vial Concha, whose Chilean identification number is 7,022,663-4, through an indirect participation in the Company. These individuals participate in Agrosuper S.A. through Agrocomercial El Paso S.A. and Promotora Doñihue Ltda., as they are directly and indirectly shareholders of all the shares and rights in these companies.

The Company's purpose is to:

- a) Invest in all manner of tangible or intangible, movable or immovable property, including the acquisition of shares, units or rights in any company, regardless of whether they are commercial or civil, communities or associations, bonds, financial instruments, trading instruments and in general in any transferable securities and credit or investment instruments and the management and operation of these investments and their rewards or returns.
- b) Incorporate any company or association and invest in them, either as partners or shareholders, and amend and manage them.
- c) Administer, manufacture, operate and market, directly or through other people, of all manner of movable goods, especially those involved in agriculture, mining, fisheries, food, electricity and fuel.
- d) Administer, construct, operate and market, directly or through other people, of all manner of agricultural or non-agricultural real estate, and dedicate itself to raising all kinds of animals, forestry, fruit and agro-industry in general.
- e) Provision of all manner of services to people or legal entities, in particular to people related to the Company, which include, but is not limited to, administrative, finance, accounting, treasury, internal control and human resources services, in Chile or abroad, and
- f) Request, obtain, register, acquire, lease, license and market trademarks, brands, trade names, domain names, patents, inventions, processes, drawings, designs, know-how and other intangible assets related to intellectual and industrial property.

2. BUSINESS DESCRIPTION

2.1 Historical review

Agrosuper S.A. is a food company that manufactures and markets animal protein products from chickens, pigs, turkeys, salmon and processed products. The production process is vertically integrated and consists of animal feed factories, breeding farms, processing plants, distribution centers and commercial offices, which allow it to reach customers and consumers in Chile and around the world with a broad portfolio of products.

A significant proportion of its products are sold under the following brands: Agrosuper, Súper Pollo, Súper Cerdo, Aqua Chile, Sopraval, La Crianza, Súper Salmón, Pollos King and Súper Beef.

Agrosuper started in 1955 by producing eggs in Doñihue, in the Sixth Region. Five years later, the Company's founder, Mr. Gonzalo Vial, decided to expand the business into producing and selling live chickens.

In 1974, it expanded its business to the processing and commercialization of chicken meat, which marked the beginning of the activities that it currently develops through the Super Pollo brand.

In 1983 Agrosuper identified a significant opportunity to expand its production by entering the pork business, by drawing on its experience raising live animals and making efficient use of its available infrastructure. It expanded its business to the slaughtering, processing and marketing of this meat under the brand Super Cerdo.

During 1989 the Company entered the sausage business as this opened up an opportunity to add greater value to chicken and pork meat and take advantage of synergies in distribution and marketing. That same year the production and marketing of trout and salmon began through the company La Fiordos Limitada, which established a pioneering facility in the Puyuhuapi Channel, in the Eleventh Region.

In 1990 Agrosuper began its international expansion process by directly selling its products on the export market.

1996 saw an increase in the consumption of turkey in Chile and worldwide. So Agrosuper decided to invest in Sopraval, in order to take advantage of all his experience in animal breeding. It achieved significant business synergies, based on its extensive distribution chain and taking the lead in marketing their products.

In 2000 Agrosuper acquired Pollos King with the objective of growing its share of the local market, which enabled it to attract a wider variety of customers

In 2002, through the Agrosuper Foundation, Los Cipreses School was created, located in the town of Lo Miranda, Doñihue commune, which provides excellent and free education to more than 900 young people. During 2018 the school ranked among the top 10 subsidized private schools nationwide with an average score of 624.9 points in the PSU (Chilean college entrance exam). While in the O'Higgins Region it ranked first according to the ranking prepared by the Pontificia Universidad Católica de Chile with data from the Sistema Único de Admisión (SUA).

In the same year, it begins a process of opening its own commercial offices in the main markets of the world, in order to provide personalized attention to its customers and create alliances with local distributors. It was initially installed in Italy, then in 2003 in the United States, in 2004 in Japan, in 2005 in Mexico, and in April 2012 in Brazil and China (Hong Kong and Shanghai).

In 2006, a fire affected the facilities of the chicken slaughtering plant of San Vicente de Tagua Tagua, which implied a reconstruction process that culminated in August 2017, when the plant returned to normal operations.

In 2010 Agrosuper S.A. was created to manage the protein business and the first professional directory of this company was constituted, thus strengthening the corporate governance of the Company.

Since 2011, important projects have materialized that have allowed progress towards the complete integration of the production cycle of the salmon business, with sanitary standards well above the industry average, which includes a slaughter plant in Quellón, the fish farms of reproducers and smolt and the food plant in Pargua.

In the same year, Agrosuper acquired the interest in Sopraval held by the Allende family, reaching 81.2% of the ownership. At the same time, the company carried out a successful takeover bid for the remaining shares, ultimately achieving 99.8% ownership.

In September 2011, the first line of bonds for an amount of up to UF5,000,000 was registered with the Superintendency of Securities and Insurance (today the Financial Market Commission) and in August 2012 the second line of bonds for an amount of up to UF1,500,000 (these bonds were paid in September 2017 at maturity and according to the contractual conditions of their placement), with the objective of accessing new sources of financing that would allow it to carry out future projects.

During 2012, the board of Agrosuper S.A. decided to indefinitely paralyze the Huasco Project with an associated cost of 480 million dollars, due to the modification, by the environmental authority, of the Resolution of Environmental Qualification, which limited the economic viability of the project and generated uncertainty in its development.

In 2014 and after a fire that completely destroyed the poultry processing plant located in the commune of Lo Miranda, Agrosuper completed its reconstruction, normalizing all its slaughter operations and ensuring the timely supply of its products to customers and consumers.

The year 2015 saw the inauguration of the composting system confined to the productive sector of La Estrella, which makes it possible to transform, minimising the generation of odours, pig slurry, which is the mixture of manure, urine and water, into fertiliser for agricultural soils. In this way, the Company has reduced the emission of unpleasant odours in the Rapel lake basin by 98%.

During 2017, and as a result of the agreement signed with the World Wildlife Fund (WWF), Los Fiordos continued with the Aquaculture Stewardship Council (ASC) certification process for sea centres, which allows it to guarantee -at an international level- that its production is carried out in a responsible manner, under important social and environmental standards. In June 2018, Agrosuper, through Los Fiordos, agreed to purchase all the assets of the Salmon Division of Grupo Pesquero Friosur for a value of USD229 million, which includes the acquisition of a fish farm, 12 sea centers and 40 concessions, located in the Aysén Region. This operation was approved by the National Economic Prosecutor's Office on October 2, 2018 and materialized in December 2018.

During August 2018, Agrosuper agreed to purchase 67% of AquaChile from its majority shareholders and to launch a takeover bid for the purchase of 100% of the shares. This operation was approved by the National Economic Prosecutor's Office on December 7, 2018 and was closed and declared successful on January 20, 2019, when Agrosuper acquired 99.71% of the total issued voting shares. Meanwhile, the takeover took place on January 22, 2019 with the first session of the new Board of Directors of Empresas Aquachile. After that date and after the shareholders had the right to withdraw (as provided for in Article 71 bis of the Corporations Law), the controlling shareholder exercised the right to purchase, acquiring 100%, directly and indirectly, of the total issued shares with voting rights.

2.2 Principal Businesses

Meat Segment

This segment includes production, processing, distribution and marketing of meat products based on chicken, pork, turkey and processed foods, for domestic and export markets. These are marketed under the brands Agrosuper, Super Pollo, King, Pancho Pollo, Santi, Super Cerdo, Andes Buta, Sopraval, Super Beef and La Crianza.

This business process is vertically integrated from producing the live animal through to marketing its products on national and international markets, through an extensive distribution chain.

The production process starts by importing the first generation of live animals, which enables the Company to locally develop two generations of chickens (breeders and broilers), three generations of porks (grandparents, breeders and fatteners) and one generation of turkeys (eggs are directly imported from breeders). This secures supplies at a key stage in the chain, which leads to the breeding and fattening stages. This whole process is performed at its own facilities. The Company has food plants and complete sewerage treatment systems that support the productive cycle.

The fattening stage is followed by the processing stage. These plants use the most advanced technology to prepare many fresh and frozen products with various features, depending on the target market or customer. This process secures complete traceability, with quality and biosafety standards that are the highest in the industry.

Processed foods are mainly based on chicken, pork, turkey, salmon and beef. This unit is focused on developing new business segments, by introducing new products with high added value that are convenient, practical and healthy, based on the latest consumption trends.

Therefore, the sanitary status of all its processes, the excellence of its environment, the biosafety of its operations and the safety of its products are all closely controlled. Its productive processes have been certified as meeting various quality standards which include: ISO 9001 and HACCP (product quality), BRC (British Retail Consortium), ISO 14001 (environmental management), APL (clean production agreement), BPA (good agricultural practices) and PABCO (animal processing plants under official certification) All these certificates of compliance with quality standards enable it to reach more demanding global markets, such as the North American, European and Asian markets.

Domestic distribution is managed by 29 sales offices throughout the country, which enables it to reach over 300 communities with its products, which represents over 98% of the country. International distribution is managed through commercial offices in Sao Paulo, Brazil; Atlanta, USA; Mexico City, Mexico; Genoa, Italy; Shanghai and Hong Kong, China and Tokyo, Japan

Aquaculture Segment

With the incorporation of Empresas AquaChile in January 2019, this segment incorporates the production, processing, distribution and commercialization of products based on salmon, Atlantic and Pacific species and trout, both in the domestic and export markets. This is done under the brands AquaChile, Super Salmon, Salmones Magallanes and Verlasso.

This business process is vertically integrated, from the production of eggs to the commercialization of its products in the national and international market, through the extensive distribution chain of The Group.

The company has its own breeding program that produces eggs and smolts, which secures a wide safety margin at this key stage in the production chain. This is followed by the fattening process, using only its own concessions and fattening centers. For processing, in addition to an onshore storage, we have advanced technology plants, where 100% of the production is processed, making products of different characteristics, depending on the market and / or target customer to be satisfied. This process secures complete traceability, with quality and biosafety standards that are the highest in the industry.

Therefore, the sanitary status of all its processes, the excellence of its environment, the biosafety of its operations and the safety of its products are all closely controlled at every stage. The company has certified compliance with various quality standards: ISO 9001 and HACCP (product quality), ISO 14001 (environmental management), OHSAS 18001 (occupational safety), IFS (International Food Standard) Level v5, BRC (British Retail Consortium) v5, Global GAP and BAP (good practices in agriculture and aquaculture) and Kosher Certification. All these certificates of compliance with quality standards enable it to reach more demanding global markets, such as the North American and Asian markets.

Distribution un the domestic and foreign market is done through Empresas AquaChile S.A.

3. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

3.1 Basis of the consolidated financial statements.

These consolidated financial statements include assets, liabilities, income, equity and cash flows of the Company and its subsidiaries. .The balances and effects of significant transactions between the companies that make up the Group have been eliminated, as well as the unrealized results, and the participation of minority investors has been recognized and is presented in the statement of financial position and in the statements of comprehensive income under the concept of non-controlling interest.

When preparing the consolidated statement of financial position, Management has utilized its best understanding and knowledge to apply standards and interpretations to current facts and circumstances, which may be subject to change. For example, additional amendments to standards or interpretations may be issued by the International Accounting Standards Board (IASB) that may change the current standards.

Net income, conversion differences and dividends declared by subsidiaries and affiliated companies are recognized in equity in each reporting period.

3.2 Basis of preparation and presentation of the financial statements.

These consolidated financial statements comprise the statements of financial position at 31 December 2019 and 31 December 2018, the related statements of income by function and comprehensive income, the statements of changes in equity and the statements of cash flows, direct method, for the periods from 1 January to 31 December 2019 and 2018, have been prepared in accordance with standards and instructions issued by the Financial Market Commission (CMF) (formerly the Superintendency of Securities and Insurance (SVS)), which are consistent with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board ("IASB").

The preparation of these consolidated financial statements includes estimates made by Group Management, to quantify various assets, liabilities, revenues, expenses and commitments. These estimates basically refer to: These estimates basically refer to:

- The valuation of assets to determine the existence of impairment losses.
- Useful lives of property, plant and equipment and intangible assets,.
- The assumptions used to calculate the fair value of biological assets
- The assumptions used to calculate the fair value of financial instruments.
- The assumptions used to calculate estimates of allowances for doubtful accounts receivable.
- The assumptions used to calculate estimates of the obsolescence and net realizable value of inventories.
- The assumption used to review impairment of goodwill.
- The probability of occurrence and the value of uncertain or contingent liabilities.
- The provisions for staff benefits.

Although these estimates have been based on the best information available at the date these consolidated financial statements were issued, it is possible that events may occur in the future that will require a change (increase or decrease) in future periods, which would occur prospectively, recognizing the effects of such estimation changes in the corresponding future consolidated financial statements.

For presentation purposes, figures are included in thousands of dollars as supplementary information which differs from the Company's functional currency. The translation methodology used to determine such information consisted of dividing balances in thousands of Chilean pesos at the exchange rate as of December 31, 2019, which amounts to 748.74 Ch\$/USD (694.77 Ch\$/USD 2018).

3.3 Changes in accounting policies

The accounting policies described in the Consolidated Financial Statements as of December 31, 2019, reflect the modifications made by the entry into force of IFRS 16 and IFRS 15 as of January 1, 2019. In this regard, the company has opted not to recognize right-of-use assets and lease liabilities for contracts with a term of twelve months or less and for contracts whose assets are of a lesser amount, as permitted by the standard.

The date of adoption of this new standard is mandatory as of January 1, 2019. The Company applies this standard prospectively, using the practical resources permitted.

For an easier comparison, certain non-significant reclassifications have been made to the consolidated financial statements corresponding to the previous period.

On January 3, 2020, Empresas Aquachile received Official Letter No. 444 from the Financial Market Commission which, starting with the financial statements as of December 2019, will modify the fair value calculation at least as soon as the fish reach an average weight of 1 kilo, using a discounted flow model. To implement the following instruction, IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors, was used, which, by way of presentation, caused the balances as of December 31, 2018 to be restated and a new column to be added as of January 1, 2018 representing the restated balances as of December 31, 2017.

The effects of the application of the trade mentioned in the previous paragraph are the following:

As of 01.01.2018, the effects correspond to the subsidiary Exportadora Los Fiordos Ltda.

		ThUSD	ThCh\$
Effect on results	Current biological assets	36.300,17	22.315.526
01.01.2018	Deferred tax liabilities	9.801,04	6.025.192
01.01.2018	Retained earnings	26.499,12	16.290.334
Restated	Current biological assets	36.300,17	22.315.526
Balance as of	Deffered tax liabilities	9.801,04	6.025.192
01.01.2018	Retained earnings	26.499,12	16.290.334

As of 01.31.2018, the effects correspond to the subsidiary Exportadora Los Fiordos Ltda.

		ThUSD	ThCh\$
	Fair Value adjustment of biological assets for the year	46.280,83	32.154.534
Profit (loss) of	Fair Value of biological assets harvest and sold	- 36.300,17	- 25.220.266
the year 2018	Income tax expense	- 2.694,78	- 1.872.253
	Profit (loss) of the year	7.285,89	5.062.015
Restated	Current biological assets	46.280,83	32.154.534

4.3 Basis of consolidation

The consolidated financial statements of Agrosuper S.A. (the Company) and its subsidiaries (collectively, the Group) include the assets, liabilities, income, expenses and cash flows of the Company and its subsidiaries.

The minority shareholders share of equity and net income of the consolidated subsidiaries is presented in the heading "Net equity, non-controlling interests" and Net income attributable to non-controlling interests in the consolidated statement of financial position.

The accounting policies and procedures used by companies in the Agrosuper Group have been aligned with the parent company, in order to present consolidated financial statements using standardized valuation policies.

The financial statements of dependent companies whose functional currency is different from the presentation currency are converted using the following procedures:

- a) Assets and liabilities are converted using the prevailing exchange rate on the reporting date.
- b) Items in the income statement are converted using the average exchange rate for the period.
- c) Equity is held at the historical exchange rate at the date of acquisition or contribution and at the average exchange rate at the date of generation in the case of retained earnings. Exchange differences attributable to the Controller that arise on the conversion of financial statements is recorded under the heading "Exchange differences on conversion" within equity.

4.3.a) Subsidiaries - A subsidiary is an company where Agrosuper S.A. can control its operating and financial policies, in order to obtain a return on its business. This control is generally, but not always, defined as direct or indirect ownership of over 50% of rights in the company. Companies are also consolidated using this method even when this ownership share has not been reached, when it is understood that its business is run for the benefit of Agrosuper S.A., who is exposed to all its risks and rewards. The consolidated financial statements include all assets, liabilities, income, expenses, and cash flows of the Company and its subsidiaries after eliminating inter-company balances and transactions between Group companies, as indicated in IFRS 10.

The table below details the direct and indirect subsidiaries that have been consolidated:

			Country	Functional	Inte	erest at 12.31.	2019	Inter	est at 12.31	.2018
Tax ID number	Company	Relationship		Currency	Direct	Indirect	Total	Direct	Indirect	Total
76.126.154-1	Agrosuper S.P.A.	Direct subsidiary	Chile	CLP	100,00%	0.0000%	100%	100.00%	0.00%	100.00%

- a) On August 30, 2018, by public deed granted in the Notary of Rancagua by Ernesto Montoya Peredo, Agrocomercial AS Ltda. and Comercializadora de Alimentos Lo Miranda Ltda., partners of the subsidiary Agrícola Purapel del Maule Ltda., agreed to modify the bylaws by increasing the company's capital from \$12,143,297,272 to \$14,043,297,272, of which \$600,000,000 was paid in cash and the rest will be paid according to the cash requirements of the subsidiary no later than August 31, 2020.
- b) On August 30, 2018, by public deed executed at the Notary of Rancagua by Ernesto Montoya Peredo, Agrosuper S.A. and Pesquera Los Fiordos Ltda., partners of the subsidiary Agrocomercial AS Ltda., agreed to amend the bylaws by increasing the company's capital from \$38,272,000 to \$262,472,000, which was paid mainly in cash.
- c) On August 30, 2018, by public deed granted in the Notary of Rancagua by Mr. Ernesto Montoya Peredo, Agrocomercial AS Ltda., Agrícola Súper Ltda., Agrosuper Comercializadora de Alimentos Ltda., and Elaboradora de Alimentos Doñihue Ltda., partners of the subsidiary Transportes AS Ltda., agreed to modify the bylaws by increasing the company's capital from \$60,000,000 to \$2,585,000,000, which was paid in cash.

- d) On October 24, 2018, by public deed granted in the Notary of Rancagua by Mr. Ernesto Montoya Peredo, Agrocomercial AS Ltda. and Comercializadora de Alimentos Lo Miranda Ltda., partners of the subsidiary Agrosuper Comercializadora de Alimentos Ltda, agreed to amend the bylaws by increasing the company's capital from \$3,236,240,292 to \$ 68,158,755,377, which was paid mainly through the capitalization of receivables held by the subsidiary.
- e) On October 26, 2018, by public deed executed at the Notary of Rancagua by Ernesto Montoya Peredo, Agrocomercial AS Ltda. and Comercializadora de Alimentos Lo Miranda Ltda., partners of the subsidiary Agrícola Super Ltda., agreed to amend the bylaws by increasing the company's capital from \$82,735,494,440 to \$83,523,862,781, which was paid mainly through the capitalization of credits.
- f) On December 18, 2018, by public deed granted in the Notary of Rancagua by Mr. Ernesto Montoya Peredo, Agrocomercial AS Ltda. and Comercializadora de Alimentos Lo Miranda Ltda., partners of the subsidiary Procesadora de Alimentos Sur Ltda., agreed to amend the bylaws by increasing the company's capital from \$1,714,374,425 to \$ 18,716,074,595, which was paid mainly through the capitalization of transitory contribution that the subsidiary maintained as other reserves.
- g) On December 24, 2018, by public deed executed at the Notary of Rancagua by Ernesto Montoya Peredo, Agrocomercial AS Ltda. and Comercializadora de Alimentos Lo Miranda Ltda., partners of the subsidiary Agrícola Super Ltda., agreed to amend the bylaws by increasing the company's capital from \$83,523,862,781 to \$192,278,224,117, which was paid mainly through the capitalization of credits.
- h) On December 21, 2018, by public deed granted in the Notary of Rancagua by Ernesto Montoya Peredo, Agrosuper S.A. and Agrocomercial AS Ltda. partners of the subsidiary Pesquera Los Fiordos Ltda., agreed to amend the by-laws by increasing the capital of the company from \$27.401.291.462 to \$182.299.955.342, which was paid mainly through the contribution of cash.
- i) On December 21, 2018, by public deed granted in the Notary of Rancagua by Ernesto Montoya Peredo, Pesquera Los Fiordos Limitada and Comercializadora de Alimentos Lo Miranda Ltda., partners of the subsidiary company Exportadora Los Fiordos Ltda. agreed to amend the by-laws by increasing the capital of the company from USD131,627,897 to USD357,821,895.28, which was paid mainly through the contribution of cash.
- j) On January 20, 2019, Agrosuper S.A. acquired 99.71% of the total issued shares with voting rights of Empresas AquaChile S.A., RUT 86,247,400-7, thereby acquiring control over it and its subsidiaries. At 30 June 2019 Agrosuper directly and indirectly controls 100% of the voting shares.

- k) On June 7, 2019, AquaChile and Biomar S.A. carried out the sale of shares of the subsidiary Alitec Pargua S.A. as informed in essential fact on March 14, 2019.
- I) On June 7, 2019, Empresas AquaChile S.A. and Benchmark Chile SpA and their related companies signed an agreement under which the parties agreed to terminate the partnership concluded in June 2018. As a result, AquaChile acquired all the shares of Benchmark Genetics Chile S.A. (formerly Salmones Chaicas S.A.) owned by Benchmark Chile SpA.
- m) On 30 August 2019, Salmones Australes S.A. and Aquachile S.A. were merged, the former being absorbed by the latter by incorporating all its assets and liabilities into the equity of the absorbing company, which became the legal successor to the absorbed company.
- n) On 30 August 2019, Salmones Cailin S.A. and Procesadora Hueñocoihue SpA merged, the former being absorbed by the latter by incorporating all its assets and liabilities into the assets and liabilities of the absorbing company, which became the legal successor to the absorbed company. As a result of the merger, Procesadora Hueñocoihue SpA increased its share capital, which was paid with the total capital of Salmones Cailin S.A.
- o) On October 30, 2019, Cultivos Acuícolas El Volcán Limitada was merged by incorporation into Salmones Maullín Limitada, with the result that the latter is now dissolved in all its rights and obligations.
- p) On 30 October 2019, the merge of Salmones Maullín S.A. with Salmones Maullín Limitada was agreed, making the latter the legal successor and continuation of the former, which was dissolved.
- q) On October 30, 2019 the company Pesquera Eden SpA was merged by incorporation into the company Antarfood S.A., the latter acquiring all the assets and liabilities of the former.
- r) On December 18, 2019, Empresas Aquachile S.A., Servicios Acuicultura Acuimag S.A., Antarfood S.A., Aquachile S.A. and Piscicultura Aquasan S.A. modified their bylaws in order to expand their corporate purpose.

4.3.b) Affiliates or associates

An associate is company over which Agrosuper S.A. can exercise significant influence, but not control nor joint control, as it can participate in decisions regarding its operational and financial policies. The Group's share of its associates' net assets, after-tax net income and post-acquisition reserves is included in the financial statements. This requires initially recording the investment at cost and then adjusting the book value of the investment in subsequent periods to reflect the Group's share of the associate's net assets, such as dividends.

4.3.c) Acquisitions and disposals

The net income from businesses acquired during the year is included in the consolidated financial statements from the effective date of acquisition; the net income of businesses sold during the year is included in the consolidated financial statements for the year until the effective date of disposal. Gains or losses upon disposal are calculated as the difference between the income obtained for the sale (net of expenses) and the net assets attributable to the interest that has been sold.

4.3.d)Transactions and non-controlling interests

Agrosuper S.A. applies the policy of considering transactions with non-controlling interests as transactions with Group shareholders. When acquiring a non-controlling interest, the difference between the amount paid and the share of the book value of that company's net assets is recorded in equity. Gains and losses on reductions in non-controlling interests, while retaining control, are also recorded in equity.

4.4 Functional and presentation currency

The functional and presentation currency for Agrosuper S.A. and its subsidiaries is the currency of its primary financial environment. Transactions in a currency other than the company's functional currency are converted using the exchange rate on the date of the transaction. Assets and liabilities expressed in currencies other than the functional currency are converted using the exchange rate on the reporting date. Conversion gains and losses are included as other financial items within net income for the year, except for exchange differences on loans in foreign currency that hedge a net investment in a foreign business. These are recorded directly in equity until the net investment is sold, at which time they are recorded in net income

The functional currency of Agrosuper S.A. and its subsidiaries is the Chilean peso, except for the subsidiaries Exportadora Los Fiordos Limitada, Agro América LLC, Agrosuper Asia Limited and Agrosuper Shanghái and Empresas AquaChile S.A. and Subsidiaries, which is the US dollar, the subsidiaries Agro Europa SpA, Alimentos Euroagro SL and Inversiones Eurosuper SL, which is the Euro, the subsidiaries Productos Alimenticios Super R.L., Andes Asesorías y Servicios Limitada, which is the Mexican peso, the subsidiary Andes Asia INC, which is the Japanese yen and the subsidiary Agrosuper Brasil Representação de Productos Alimenticios Limitada, which is the Brazilian real. Notwithstanding the above, and with the incorporation of Empresas AquaChile S.A. and Subsidiaries, Agrosuper is conducting a study on the new main and potential economic environment in which the company's future is projected, which would eventually involve a redefinition of the functional currency from the Chilean peso to the US dollar.

Assets and liabilities for subsidiaries with a functional currency other than the Chilean peso are converted to this currency at the exchange rate on the closing date of the financial statements on consolidation, and income statements are converted using the average exchange rate. The exchange differences arising from the translation of the net assets of these entities are taken to equity and recorded in a separate translation account which is part of Other Reserves.

How in recent years the company has experienced significant changes in its business, which have increased exposure to the US dollar value. The biggest change was the purchase of Empresas Aquachile at the beginning of the year, with which the aquaculture segment became more relevant and together with an increase in pork, chicken and turkey exports meant that the share of exports in income increased and, also, sales to the domestic market competed directly with imports. For the reasons stated above and in management's judgment regarding functional and presentation currency, we are evaluating changing our functional and presentation currency starting in 2021.

4.5 Conversion basis

Assets and liabilities in UF, US dollars, Euros, Mexican pesos, yens, Pounds Sterling and Brazilian reals have been converted into Chilean pesos at the prevailing exchange rates on the closing date of these financial statements, as detailed below:

Currency	12.31.2019 Ch\$	12.31.2018 Ch\$
Unidad de Fomento (UF)	28.309,94	27.565,79
United States Dollar	748,74	694,77
Euro	839,58	794,75
Yen	6,88	6,29
Pound Sterling	983,24	882,36
Brazilian Real	186,51	179,59
Mexican Peso	39,64	35,30
Hong Kong Dollar	96,17	88,73
Peruvian sol	226,14	206,35
Yuan	107,31	100,97

Exchange differences and inflation indexation adjustments are charged or credited to net income according to IFRS, except for the conversion of subsidiaries financial statements that use a functional currency other than the Chilean peso, which are recorded in other reserves within equity.

4.6 Trade and other receivables

Trade and other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted on an active market. Those assets that will mature in less than 12 months are classified as current assets. Those assets that will mature in greater than 12 months are classified as non-current assets.

The Company carries credit insurance for 98.47% of its domestic trade receivables. There is a deductible of 10% of the loss under this insurance and each customer has an individual line approved by the insurance company.

The Export Trade Receivables can be separated by the different terms of sale:

- 85% of the debt is secured by credit insurance, with a 10% deductible on the loss. Each customer has an individual line approved by the insurance company.
- Cash against documents (CAD) for 2% of the debt. In this case, the customs clearance documentation for the product is delivered once the payment is made.
- Advance payment and CAD for 1% of the debt, where the customer pays between 10 and 50% in advance and the difference is paid upon arrival of the product.
- Letter of Credit (L/C) for 8% of the debt. In this case, the customer's bank pays the domestic bank that has confirmed the L/C, which ultimately makes payment to AS.
- Clients who pay in advance 100% of the amount before dispatch, 2% of the debt.
- Clients with bank collection for 2% of the debt, where the local bank sends a set of documents to the client's bank to charge the client against delivery of the documents.

4.7 Property, plant and equipment

Property, plant and equipment is stated at cost, excluding periodic maintenance costs, and less accumulated depreciation and accumulated impairment losses. This cost includes the cost of replacing components of property, plant and equipment, if recognition criteria are met.

The cost of major maintenance is added to the book value of property, plant and equipment as a replacement, if recognition criteria are met. Accounting policies and criteria are applied consistently to additional components that affect the valuation of plant and equipment and their corresponding depreciation.

Any gain or loss from the disposal or withdrawal of an asset is calculated as the difference between the sales price and the asset's book value and is recorded in net income for the period.

The Company reviews the book value of its assets to assess whether there is any indication that the book value may not be recoverable, in accordance with IAS 36. If identified, the recoverable value of the asset is estimated to calculate the extent of the impairment. Assets that do not generate independent cash flows are grouped into appropriate cash generating units (CGU) for impairment testing purposes.

The recoverable amount is the greater of fair value less selling costs, and value in use. Value in use is calculated as the present value of future cash flows discounted at a rate associated with the evaluated asset.

If the recoverable value of an asset is estimated to be less than its value book, the book value is reduced to the recoverable value.

Assets that have an indefinite useful life, for example, land, are not amortized and are tested for impairment on an annual basis. Amortized assets are tested for impairment whenever an event or change in circumstances indicates that their book value may not be recoverable.

Impairment losses can be reversed, but are limited to losses recognized in previous periods, in such a manner that the book value becomes the same as if these impairment adjustments had never been made.

4.8 Depreciation

Components of property, plant and equipment are depreciated on a straight-line basis by distributing the asset's acquisition cost less its estimated residual value over the asset's estimated useful life. The following table presents the main components of property, plant and equipment and their useful lives:

Financial useful life,
years (between)
80
40 and 50
20 and 50
10 and 15
5 and 10
10 and 20
3 and 5
5 and 10

Property, plant and equipment is depreciated on a straight-line basis over its useful life. The useful lives of the assets are reviewed annually to establish whether the conditions that allowed the initially determined useful lives to be established are being maintained or have changed. Land is recorded separately from the buildings or facilities that may be located on it and is understood to have an indefinite useful life and therefore is not subject to depreciation. The Group tests property, plant and equipment for impairment at least once each year. Any reversal in impairment losses is recorded in net income, except assets that have been previously revalued whose reversal is recorded in equity.

4.9 Borrowing costs

The Group's property, plant and equipment include borrowing costs incurred to construct or acquire the asset. These costs are capitalized until the assets are in condition to be used, in accordance with IAS 23. Capitalized borrowing costs use the weighted average interest rate of the related loans.

4.10 Goodwill

Goodwill generated upon consolidation represents the excess of the acquisition cost over the Group's share of the fair value of assets and liabilities, including identifiable contingent assets and liabilities of a subsidiary as of the acquisition date.

The valuation of assets and liabilities acquired in taking control of a company is finally calculated based on the fair value of its assets and liabilities. The difference between the acquisition price and the fair value of the acquired company is recorded as goodwill.

Goodwill is not amortized, but at each reporting date the respective investment is evaluated for evidence of impairment that might reduce its recoverable value to below its book value, which would trigger an annual impairment provision.

4.11 Intangible assets other than goodwill

Separately acquired intangible assets other than goodwill are initially recognized at acquisition cost. The cost of intangible assets acquired in a business combination is their fair value as of the date of acquisition. After initial recognition, intangible assets are recorded at cost less any accumulated amortization and any accumulated impairment loss.

The useful lives of intangible assets are defined as finite and indefinite. Intangible assets with indefinite useful lives are tested for impairment annually either as an individual asset or as a cash generating unit (CGU).

Intangible assets with finite useful lives are amortized over their useful life and are tested for impairment each time there is an indication that the intangible asset may be impaired. The amortization period and amortization method for an intangible asset with a finite useful life are reviewed at least at every reporting date. Expected changes in useful life or the expected consumption pattern of future financial returns are recognized by changing the amortization period or amortization method, as appropriate, and treated as changes in accounting estimates.

Amortization expenses for intangible assets with finite useful lives are recognized in the income statement, which is consistent with the function of an intangible asset.

The Company's main intangible assets are:

(a) Aquaculture concessions .Aquaculture concessions acquired from third parties are presented at historical cost and their amortization is subject to the results of the impairment tests performed annually.

(b) Research and development expenses Research costs are expensed as incurred. An intangible asset that arises from developing an individual project is recognized only when Agrosuper S.A. and its subsidiaries can demonstrate the technical feasibility of completing the intangible asset so that it will become available for use or sale, their intention to complete it and their ability to use or sell the asset, how the asset will generate future financial returns, the availability of resources to complete the asset and the ability to reliably measure expenditure during its development.

(c) Water rights Commercial brands are initially recognized at their acquisition cost and are not amortized. These assets are tested for impairment annually or when there are factors that indicate a possible loss in value.

(d) Commercial brands The Company's trademarks correspond to intangible assets of indefinite useful life that are presented at their historical cost, less any impairment loss. These assets are tested for impairment annually or when there are factors that indicate a possible loss in value.

(e) Other intangible assets These intangible assets are mainly IT applications. They are initially recognized at their acquisition cost and are subsequently valued at cost net of accumulated amortization and impairment losses, if any.

4.12 Investments in associates (affiliates)

Investments by Agrosuper S.A. and its subsidiaries in associates are accounted for using the equity method. An associate is an company over which the Company has significant influence that is not a subsidiary or a joint venture. Under the equity method, the investment in the associate is recorded in the balance sheet at cost plus post-acquisition changes in the Company's share of the associate's net assets.

The income statement reflects the Company's share in the associate's operating results. When a change has been recognized directly in the associate's equity, the Company recognizes its share of any change and discloses it, if necessary, in the statement of changes in equity. Gains and losses on transactions between the Group and the associate are eliminated on consolidation based on the participation in the associate.

The reporting dates of associates are identical to those of Agrosuper S.A. and its subsidiaries and the associate's policies agree to those used by the Company for equivalent transactions and events under similar circumstances.

4.13 Impairment of non-financial assets

The Company and its subsidiaries assess whether there are indicators that a non-financial asset may be impaired at each reporting date. If such indication exists, or when there is an annual impairment testing requirement, the asset's recoverable value is estimated. An asset's recoverable value is the greater of the fair value of an asset or its cash generating unit, less its selling costs, and its value in use, and is calculated for an individual asset unless the asset does not generate cash inflows that are clearly independent from those of other assets or asset groups. When the book value of an asset exceeds its recoverable value, the asset is considered to be impaired and is written down to its recoverable value.

When assessing value in use, estimated future cash flows are discounted to present value using a before-tax discount rate that reflects current market assessments for the time value of money and the asset's specific risks. An appropriate valuation model is used to calculate fair value less selling costs.

Impairment losses of continuing operations are recognized in the income statement within expense categories consistent with the function of the impaired asset, except for previously revalued properties where the revaluation was recorded in equity. In this case, impairment is also recognized in equity, but limited to the value of the prior revaluation adjustment.

The Group assesses whether there is any indication that a previously recognized impairment loss for an asset may no longer exist or may have decreased, at each reporting date. If such an indication exists, the Group estimates the asset's recoverable value. A previously recorded impairment loss is reversed only if there has been a change in the estimations used to determine the recoverable value since the last impairment loss was recorded. If this is the case, the asset's book value is increased to its recoverable value. This increased value cannot exceed the asset's book value, net of depreciation, if the impairment loss had never been recognized in prior years. This reversal is recognized in the income statement unless an asset has been revalued, in which case the reversal is treated as an increase in the revaluation.

The following criteria are also applied in assessing impairment of specific assets:

a) **Goodwill** - Goodwill is reviewed annually to determine whether any impairment exists, or more often if events or changes in circumstances indicate that its book value may be impaired.

Impairment is determined for goodwill by evaluating the recoverable value of the cash generating unit (or group of cash generating units) to which the goodwill is allocated. When the recoverable value of the cash generating unit (or group of cash generating units) is less than the book value of the cash generating unit (or group of cash generating units) to which goodwill has been allocated, an impairment loss is recorded. Impairment losses relating to goodwill cannot be reversed in future periods.

The Company and its subsidiaries perform annual impairment testing annually at each reporting date.

- b) Intangible assets with indefinite useful lives The impairment of intangible assets with indefinite useful lives is tested annually at each reporting date, either individually or by cash-generating unit, as appropriate.
- c) **Investments in associates** After applying the equity method, the Company determines whether an additional impairment loss must be recognized for investments in associates. The Company and its subsidiaries determine whether there is objective evidence that the investment in the associate is impaired at each reporting date. In this case, the Group calculates the impairment as the difference between the associate's fair value and its acquisition cost, and recognizes this expense in the income statement.

4.14 Financial assets

Financial assets within the scope of NIIF 9 are classified as financial assets at amortised cost and/or fair value through profit or loss or equity, as appropriate.

When financial instruments are initially recognized, they are measured at fair value plus (in the case of investments not at fair value through profit or loss) directly attributable transaction costs.

The Company evaluates the existence of embedded derivatives in contracts or financial instruments to determine if their characteristics and risks are closely related to the principal contract provided the set is not being accounted for at fair value. If they are not closely related, they are recorded separately and changes in value are accounted for directly in the statement of comprehensive income.

The Company and its subsidiaries determine the classification of their financial assets after initial recognition and, when permitted and appropriate, reassess this designation at the end of each financial year. All regular purchases and sales of financial assets are recognized on the date of sale, which is the date on which the Company commits to purchase the asset. Regular purchases and sales are purchases or sales of financial assets that require the delivery of assets within the period generally established by market regulation or convention. The classifications of investments used are as follows:

a) **Financial assets at fair value through profit or loss** - Assets at fair value through profit or loss include financial assets held for sale and financial assets designated on initial recognition as at fair value through profit or loss.

When a contract contains one or more embedded derivatives, the entire hybrid contract may be designated as a financial asset at fair value through profit or loss, except when the embedded derivative does not significantly modify cash flows, or it is clear that separation from the embedded derivative is prohibited.

b) Derivative financial instruments and hedges - The Company and its subsidiaries use derivative financial instruments such as forward exchange contracts, cross currency swaps (CCS) and interest rate swaps (IRS) to hedge their risks associated with fluctuations in interest rates and exchange rates. These derivative financial instruments are initially recognized at fair value at the date on which the derivative contract is entered into and are subsequently measured at fair value.

4.15 Inventories

Raw materials, products in process, finished products and spare parts are valued at the lesser of cost and net realizable value. Net realizable value represents the estimated sales value of the inventory less all remaining production costs and the costs necessary to carry out the sale.

Inventory is valued using the following methods:

- a) Finished products and products in process are animals that are no longer alive, such as poultry, pork, turkey and salmon processed into various cuts and packages, and sausages, which are valued at their average monthly production cost. The average cost of finished products includes the value of raw materials, labor and indirect manufacturing costs.
- b) Raw materials, consumables and spare parts are valued at average acquisition cost.
- c) Inventory in transit is valued at acquisition cost.

Inventories of raw materials, consumables and spare parts that are expected to be used in production within a period of one year are presented as current assets.

4.16 Biological assets

Due to the nature of the business operated by the Company and its subsidiaries, the breeding, incubation, fattening and reproduction of chickens, turkeys, porks and salmon are classified as biological assets. Biological assets intended for sale are classified as current biological assets, and those intended to reproduce new biological assets are classified as non-current.

When the fair value of biological assets cannot be reliably measured and they are recorded at their acquisition cost or cost less accumulated depreciation, the Company regularly evaluates any indication that the book value may not be recoverable, in accordance with IAS 41 or IAS 36, as appropriate. If the recoverable value of an asset is estimated to be less than its book value, the book value is reduced to the recoverable value.

Meat Segment

Chicken, turkey and pork included in current biological assets are valued using the total production cost absorption method. This is due to the short duration of the productive process, which is 43 days for chicken, 130 days for turkey and 180 days for pork, and as this cost is close to their fair values.

Non-current biological assets are valued using a production costing method less accumulated depreciation on the basis of their years of productive life and whose value is close to their fair values.

Aquaculture Segment

On January 3, 2020, Empresas Aquachile received Official Letter No. 444 from the Financial Market Commission imposing that, starting with the financial statements as of December 2019, a modification in the fair value calculation must be included, at least from the moment the fish reaches an average weight of 1 kilo, using a discounted flow model. To implement the following instruction, IAS 8 "Accounting policies, changes in accounting estimates and errors" was used. For presentation purposes, it had a column restated and presented as of December 31, 2018 and a new column added as of January 1, 2018.

Until December 31, 2017, the biomass valuation criteria consisted of valuing at cost the biomass with a weight below the minimum harvest weight and for higher weights it was valued at fair value, considering biomass equal to or greater than 4 kg RWE for Salar Salmon and 2.5 kg RWE for Pacific Salmon or Coho and Trout. At the end of the period, it was valued considering the market prices available at the reporting date and discounting the costs of harvesting, processing, packaging, distribution and sale, where the volume was adjusted by the yield of the process.

Based on these financial statements and in comparison with the restated financial statements as of December 31, 2018, the company has opted for a discounted cash flow model or present value method for determining the fair value. The estimates and valuation model used to measure biological assets are described below:

The model uses a discount rate determined for each region, reflecting the risk by geographical crop sector. In addition, the projected costs include a theoretical cost of use of concessions, in accordance with the definitions contained in IAS 41, which allows the adjustment to fair value of the biological asset in different growth stages to be carried at present value.

The estimate of the fair value of the fish biomass will always be based on assumptions, even if the Group has sufficient experience in considering these factors. The estimates are applied considering the following elements: volume of fish biomass, average weights of biomass, distribution to the weight of recovery and market prices.

The volume of fish biomass to 1 kg is an estimate based on the number of smolts sown in the seawater, the estimate of cumulative growth, and the recording of observed mortality in the period, among others. Uncertainty regarding biomass volume is usually lower in the absence of massive mortality or disease events.

Fish in the water grow at different rates and, even in the presence of good estimates of average weight, there may be some dispersion in the quality and size of the fish. It is important to consider the distribution of size and quality as there are different prices on the market. When estimating the value of the biomass of fish, a normal distribution of sizes, or in its absence, the most recent size distribution obtained in processing by the Group's processing plants, is considered.

The company has retrospectively applied the new valuation model for comparison purposes since January 1, 2018.

Biomass measured at fair value is classified as current biological assets and the estimate used in the determination of fair value includes level III input data, in accordance with the definitions of IFRS 13.

The assumptions regarding market prices are important for the evaluation. Furthermore, minor changes in market prices can produce significant changes in the evaluation. If we assume that, as of December 31, 2019, a volume of 64,915 WFE tons of fish was subject to valuation, a change in the price of US\$ 1/Kg net of finished product would have an impact of ThUS\$86,705 on the fair value of the biological asset. In turn, a decrease in the price of US\$ 1/Kg net of finished product magnitude. Minor changes in the volume of biomass subject to fair value can produce significant changes in the evaluation. If we assume that, as of December 31, 2019, a volume of 64,915 WFE tons of fish was subject to valuation. If we assume that, as of December 31, 2019, a volume of 64,915 WFE tons of fish was subject to valuation, an increase of 10% in the biomass volume in farms subject to valuation would have an impact of ThUS\$ 25,642 (increase) on the fair value of the biological asset. In turn, a decrease of 10% in the biomass volume of the farms would cause an equivalent loss.

4.17 Financial Policies

The general financing and hedging policy of Agrosuper companies provides the guidelines for finance transactions using financial market derivatives in the aim of reducing operating, exchange rate and interest rate risks that are described in the following policies:

- 1) a) Financing Policy: The need for financing comes from a mismatching of the Company's cash flow, which may be short or long term and subject to the Company's performance and its investment plan. Therefore, the Company usually signs bilateral loans with local banks that, in most cases, are export loans (PAE) or commercial loans expiring in the periods defined by financial institutions. In addition, the alternative of issuing bonds on the market is evaluated for any long-term mismatching.
- 2) Hedge Policy: The objective of using derivatives is to reduce the financial risk of inflows and outflows committed in currencies other than the U.S. Dollar, arising in companies owned by Agrosuper. Derivatives are used to maintain known levels of debt and minimize exchange rate exposure in foreign trade transactions so as to reduce the effect of variations in the interest rates and/or exchange rates.
 - a) **Sale Hedge Policy**: The objective of this policy is to hedge against the sale exchange rate by fixing income from exports. Since Agrosuper sells in different currencies, the execution of this policy converts all transactions from the currency of origin to the U.S. Dollar.
 - b) **Debt Hedge Policy**: In order to look for the best financing rates, it might be that the debt subscribed by Agrosuper is in different currencies than the one sought. On that basis, debt must be converted to the currency of interest through forwards or an interest rate swap in order to neutralize the effect of having debt in a different currency while maintaining the advantage of a lower interest rate. This analysis is always made prior to closing a transaction.
 - c) **Interest Rate Risk Hedge Policy**: The purpose of hedging interest rate is to limit the effect of variations in the interest rate in loans subscribed by Agrosuper to banks and financial institutions and in bonds, to thus reduce the volatility of cash flows generated by interest payments.
 - d) **Balance Sheet Hedge Policy**: Agrosuper manages currency mismatching on a balance sheet level through a model by which exposure to different currencies occurring in the consolidated financial statements is monitored daily, taking them to the Company's functional currency.

4.18 Financial liabilities

There are two groups of financial liabilities in the Group:

Other financial liabilities

- a) **Classification as debt or equity** Debt and equity instruments are classified as either financial liabilities or as equity, according to the nature of the contractual arrangement.
- b) Equity instruments An equity instrument is any contract that evidences a residual interest in the assets of a company after deducting all of its liabilities. The equity instruments issued by Agrosuper S.A. are recorded at the value of the consideration received, net of direct issuance costs. The Company currently has only issued one series of shares.
- c) **Financial liabilities** Financial liabilities are classified either as financial liabilities at fair value through net income, or as other financial liabilities.

Financial liabilities at fair value through net income - Financial liabilities are classified at fair value through net income when they are held for trading or designated as at fair value through net income.

Other financial liabilities - Other financial liabilities including loans are initially valued at the value received, net of transaction costs. Other financial liabilities are subsequently revalued at amortized cost using the effective interest rate method, recognizing the interest expense based on the effective interest rate.

The effective interest rate method is used to calculate the amortized cost of a financial liability and the allocation of interest expense across the entire corresponding period. The effective interest rate is the rate which exactly discounts the future estimated payment cash flows over the expected life of the financial liability, or where appropriate a lesser period, or where the associated liability benefits from an early repayment option that is likely to be exercised.

Trade and other payables

Trade creditors are initially recognized at fair value and subsequently valued at amortized cost using the effective interest rate method. When the nominal value of the account payable does not differ significantly from its fair value, recognition is at nominal value.

4.19 Derivative financial instruments and hedge transactions

The Company and its subsidiaries uses derivative financial instruments such as currency forwards, cross currency swaps and interest rate swaps to hedge risks related to exchange rates and interest rates, respectively.

Furthermore, it purchases futures and options on the Chicago Stock Exchange, with the aim of avoiding volatility in raw material commodity prices. These investments are initially recognized at fair value on the date on which the derivative contract is signed and are subsequently valued at their fair value.

Changes in the fair value of these derivatives are recorded directly in income, having been designated as a hedge instrument and if all of the conditions established under IFRS for applying hedge accounting are met. Otherwise they will be recorded in profit or loss.

Fair value hedge: The gain or loss arising from valuing a hedge instrument must be immediately recognized in the income statement, as must changes in the fair value of the hedged item attributable to the hedged risk, netting the effect in the same income statement account.

Cash flow hedge: Changes in the fair value of the effective portion of derivatives are recorded in a net equity reserve known as cash flow hedges. The cumulative loss or gain in this account is transferred to the income statement to the extent that the hedged item impacts the income statement because of the hedged risk, netting the effect in the same income statement account.

Gains or losses from the ineffective portion of the hedge are recorded directly in the income statement.

The Company evaluates the existence of embedded derivatives in contracts or financial instruments to determine if their characteristics and risks are closely related to the principal contract as long as the set is not being accounted for at fair value. If not closely related, they are recorded separately by accounting for variations in value in the income statement. Agrosuper S.A. and its subsidiaries has determined that its contracts have no embedded derivatives at the reporting date.

Fair value and classification of financial instruments

The fair value of derivative financial instruments is calculated as follows:

Derivatives traded on a formal market are valued at their quoted price at the reporting date.

Derivatives not traded on formal markets are valued by the Group using discounted expected cash flows and generally accepted options valuation models, based on current and future market conditions at the reporting date.

Therefore, the Group classifies financial instruments into the following hierarchies:

Level 1: Quoted (unadjusted) price in an active market for identical assets and liabilities.

Level 2: Indications other than quoted prices included in level 1 that are observable for assets or liabilities, either directly (i.e. as a price) or indirectly (i.e. as a derivative of a price).

Level 3: Indications for assets or liabilities that are not based on observable market information (non-observable indications).

4.20 Leases

To evaluate the effects of the entry into force of IFRS 16 "Leases" as of January 1, 2019, the Company, in its capacity as lessee, identifies right-of-use assets related to lease contracts which are classified in the financial statement as Property, plant and equipment. Upon inception of a lease, the Company recognizes a right-of-use asset and a lease liability. Assets and liabilities arising from a lease contract are initially measured at present value.

At the inception of a contract, the Company assesses whether the contract is, or contains, a lease, i.e. whether the contract gives the right to control the use of an identified asset, for a period of time in exchange for a consideration. To assess whether a contract has the right to control the use of an identified asset, the Company assesses whether:

- 1. The contract implies the use of an identified asset. This can be specified explicitly or implicitly. If the supplier has a substantial right of substitution, then the asset is not identified;
- 2. The Company has the right to obtain substantially all the economic benefits from the use of the asset during the period; and
- 3. The Company has the right to manage the use of the asset, i.e. it has the right to decide how and for what purpose the asset is used.

Each lease payment is allocated between the liability and the finance cost. The financial cost is recognized in the income statement during the lease period, in order to generate a constant periodic interest rate over the remaining balance of the liability for each period.

In this regard, the Company has opted not to recognise right-of-use assets and lease liabilities for those contracts with a term of twelve months or less and for those contracts whose assets are of a lesser amount than permitted by the standard. This recognition was made starting on 01/01/2019, applying the standard on its mandatory application date. The effect of this application amounts to ThCh\$ 17,139,613. The discount rates used to calculate the respective amortization tables relating to the lease obligation were determined by the Company's management.

The Company did not have any financial leases as of December 31, 2018. It only had leases that were considered to be operating leases, which were accounted for on a straight-line basis over the term of the lease for the fixed-income portion. Contingent income was recognized as an expense in the year in which its payment becomes probable, as were fixed-income increases indexed to changes in consumer prices.

4.21 Statement of cash flow

The statement of cash flow reflects cash movements during the period, determined using the direct method. The terms used in these cash flow statements are defined as follows:

Cash flows: Inflows and outflows of cash or other equivalents including time investments with a term of three months or less that are highly liquid and with a low risk of variation in value.

Operating activities: Those activities that generate the Group's principal source of revenue as well as other activities that cannot be classified as investing or financing.

Investing activities: Those activities involving the acquisition, sale or disposal by other means of non-current assets and other investments not included in cash and cash equivalents.

Financing activities: Those activities that bring about changes in the size and composition of total equity and financial liabilities.

4.22 Provisions

Provisions are obligations at the reporting date resulting from past events, which may damage the Company's equity, whose value and timing are uncertain. Provisions are recorded at the present value of the most likely amount the Company expects to disburse to settle that obligation.

Provisions are regularly reviewed and quantified using the latest available information at the reporting date.

4.23 Revenue recognition

The Company's revenues are mostly derived from its principal performance obligation to transfer its products under agreements in which the transfer of control and compliance with the Company's performance obligations occur at the same time.

The main change related to IFRS 15 is the presentation of considerations paid to customers as lower revenue, rather than as higher cost of distribution.

4.24 Income and deferred taxes

An income tax provision is calculated based on the Company's corporate taxable income, calculated according to current tax regulations. This calculation for foreign subsidiaries complies with the laws in their respective countries.

Deferred taxes are calculated using the liability method on temporary differences that arise between the tax value of assets and liabilities and their book values. However, if deferred taxes arise from the initial recognition of a liability or an asset in a transaction other than a business combination, which at the time of the transaction neither affected the accounting result nor the tax gain or loss, it is not accounted for. Deferred tax is calculated using the current tax rates and laws, or those about to be approved at the reporting date, which are likely to be applicable when the corresponding deferred tax asset is collected or deferred tax liability is settled.

The Company does not record deferred taxes on temporary differences that arise from investments in subsidiaries, associates and investments in joint control agreements, provided the Company can control when those temporary differences will reverse and the temporary differences are not likely to reverse in the foreseeable future.

Current and deferred income taxes are recognized in the income statement, except for taxes arising on items recognized in other comprehensive income, or directly in equity, or in a business combination, in which case, the tax is also recorded in Other comprehensive income.

4.25 Segment reporting

The Company and its subsidiaries present segment information based on the financial information available to senior decision makers for assessing performance and allocating resources, in accordance with IFRS 8 "Operating Segments".

4.26 Earnings (loss) per share

Basic earnings per share is calculated as the quotient of net income (losses) for the period attributable to the Parent Company divided by the average weighted number of ordinary shares in circulation during that period, without including the average number of shares of the Parent Company held by any subsidiaries, should that be the case.

4.27 Dividends

Article 79 of Chilean Corporate Law establishes that listed corporations should distribute an annual cash dividend to their shareholders, in proportion to their shares or the proportion established in the company's by-laws if it has preference shares, of at least 30% of net income for each period, except when accumulated losses from prior years must be absorbed, and unless unanimously agreed otherwise by shareholders of all issued shares.

As from June 30, 2015 the Board agreed to provide a quarterly dividend of 30% of net income for the financial year, subject to the Company's final net distributable income, calculated in accordance with Circular 1945 dated September 29, 2009.

Interim, prospective and final dividends are deducted from Total Equity as soon as they are approved by the competent entity, which in the first case is normally the Company's Board of Directors and in the second and third cases, are the shareholders at the Ordinary General Shareholders meeting.

4.28 Environment

Expenditure associated with the environment is charged to the income statement when incurred, except for when it relates to an investment project that is associated with production, in which case it is capitalized in accordance with IFRS.

4.29 Non-current assets held for sale and discontinued operations

Non-current assets or groups of assets whose book values will be recovered through sale rather than continued use are classified as held for sale. This condition is only fulfilled when the sale is highly probable and the asset is available for sale immediately in its current state. These assets are valued at the lower of their book value and their fair value less selling costs, considering that depreciation will no longer apply to such assets.

There are no discontinued operations, according to Company analysis based on the criteria described in paragraph 32 of IFRS 5.

4.30 New IFRS, interpretations and amendments from the IFRS Interpretations Committee (IFRIC)

which are mandatory for the first time for years starting on January 1, 2019.

Standards and interpretations

IFRS 16 "Leases" – Issued in January, 2016, it establishes the principle for the recognition, measurement, presentation and disclosure of leases. IFRS 16 replaces the current IAS 17 and introduces a single lease accounting model. It also requires a lessee to recognize assets and liabilities for all lease contracts with terms over 12 months, unless the value of the underlying assets is low. IFRS 16 is effective for annual periods that begin on or after January 1, 2019, early adoption is permitted for entities that apply IFRS 15 before the first-adoption date of IFRS 16.

IFRIC 23 " Uncertainty over income tax treatments". Issued in June 2017. This interpretation clarifies how the requirements for recognition and measurement of IAS 12 are applied when there is uncertainty over tax treatments.

Amendments and improvements

Amendment to IFRS 9 "Financial instruments". Issued in October 2017. This amendment allows more assets to be measured at amortized cost than in the previous version of IFRS 9, in particular some prepaid financial assets with negative offsetting. Qualifying assets, which include certain loans and debt securities, would otherwise have been measured at fair value through profit or loss (FVTPL). To qualify for amortized cost, negative compensation must be "reasonable compensation for early termination of the contract".

Amendment to IAS 28 "Investment in associates and joint ventures." Issued in October 2017. This amendment clarifies that companies that account for long-term interests in a joint venture or associate - where the equity method is not applied - must be accounted for using IFRS 9. The IASB Board has published an example illustrating how companies apply the requirements of IFRS 9 and IAS 28 to long-term interests in an associate or joint venture.

Amendment to IFRS 3 "Business combinations" Issued in December 2017. The amendment clarified that obtaining control of a company that is a joint venture is a business combination that is achieved in stages. The acquirer must re-measure its previously held interest in the joint venture at fair value at the acquisition date.

Amendment to IFRS 11 "Joint Arrangements" Issued in December 2017. The amendment clarified that the party obtaining joint control of a company which is a joint venture should not re-measure its previously held interest in the joint venture.

Amendment to IAS 12 "Income tax" Issued in December 2017. The amendment clarified that the income tax consequences of dividends on financial instruments classified as equity should be recognized in accordance with where past transactions or events that generated distributable

income were recognized.

Amendment to IAS 23 "Borrowing Costs" Issued in December 2017. The amendment clarified that, if a specific loan remains outstanding after the qualifying asset is ready for its intended use or sale, it becomes part of the general loans.

Amendment to IAS 19 "Employee Benefits" Issued in February 2018. The amendment requires entities to use updated assumptions to determine the current service cost and net interest for the rest of the period after a plan modification, reduction, or liquidation; and to recognize in profit or loss as part of the past service cost, or a gain or loss in liquidation, any reduction in a surplus, even if that surplus was not previously recognized because it did not exceed the asset's maximum limit.

The adoption of the standards, amendments and interpretations described above does not have a significant impact on the consolidated financial statements of the Company.

Standards, interpretations and amendments issued, but not yet mandatory and which have not been adopted early.

Standards and interpretations	Mandatory application
IFRS 17 "Insurance Contracts". Issued in May 2017, it replaces current IFRS 4. IFRS 17	01.01.2021
will mainly change the accounting for all entities issuing insurance contracts and	
investment contracts with the discretionary participation features. The standard is	
applied for annual periods starting on or after 1 January 2021 and early application is	
permitted provided that IFRS 15 "Revenue from contracts with customers" and IFRS 9	
"Financial instruments" are applied.	
Amendments to IAS 1 "Presentation of financial statements" and IAS 8 "Accounting	
policies, changes in accounting estimates and errors" Issued in October 2018. It uses	01.01.2020
a consistent definition of materiality in all IFRS and the Conceptual Framework for	
Financial Reporting; it clarifies the explanation of the definition of material; and it	
incorporates some of the guidance in IAS 1 on non-significant information.	
Amendments to IFRS 3 "Definition of a business" Issued in October 2018. It revises the	01.01.2020
definition of a business. According to feedback received by the IASB, application of the	
current guidance is commonly thought to be too complex, and it results in too many	
transactions qualifying as business combinations.	
Amendment to IFRS 9, IAS 39 and IFRS 7 "Reform to the reference interest rate "	01.01.2020
Issued in September 2019. These amendments provide certain simplifications in	
relation to the reform to reference interest rates. The simplifications relate to hedge	
accounting and have an effect on the IBOR reform which usually should not cause	
hedge accounting to end. However, any hedge ineffectiveness must continue to be	
recorded in income.	

Amendment to IFRS 10 "Consolidated financial statements" and IAS 28 "Investments in associates and joint ventures". Issued in September 2014. The amendment addresses an inconsistency between the requirements in IFRS 10 and those in IAS 28, in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The main consequence of the amendments is that a full gain or loss is recognized when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognized when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary.

The management of the Company believes that adoption of the standards, amendments and interpretations described above will not have a significant impact on the consolidated financial statements of the Company in the period of first-time adoption.

5. FINANCIAL RISK MANAGEMENT AND DEFINITION OF HEDGES

The Group's companies are exposed to risks that are managed by implementing systems that identify, measure, limit concentration and monitor these risks.

The basic policies defined by the Group include the following:

Comply with good corporate governance standards.

Strictly comply with all the Company's standards.

Each business and corporate area defines:

- Its markets and products, based on sufficient knowledge and ability to ensure effective risk management.
- Criteria regarding third parties.
- Authorized operators.

Businesses and corporate areas establish a predisposition to risk that is consistent with the defined strategy for each of their markets.

All the transactions performed by businesses and corporate areas are conducted within the limits approved by the appropriate internal entity.

Businesses, corporate areas, business lines and companies establish sufficient risk management controls to ensure that market transactions are conducted in accordance with the Company's policies, standards and procedures.

5.1. Interest rate risks

Variations in interest rate alter the fair value of assets and liabilities that accrue interest at a fixed rate, as well as future cash flows from assets and liabilities with a variable interest rate.

The objective of interest rate risk management is to achieve a balanced debt structure that minimizes the cost of debt, with reduced volatility in the income statement. The Company manages variable interest rates risks (Libor) associated with loans in US dollars, using hedging instruments that compensate for the volatility of Libor interest rates, as of December 31, 2019.

Depending on the Group's estimates and debt structure objectives, hedging transactions take place by purchasing derivatives that mitigate these risks. The status of debts and their associated hedges is as follows:

	12.31.2019	12.31.2018	12.31.2019	12.31.2018
Financial debt position, net of hedging transactions	ThCh\$	ThCh\$	ThUSD	ThUSD
Bonds payable (Note 21)	292.058.761	283.355.407	390.066,99	407.840,59
Bank loans (Note 21.1)	921.705.510	68.888.983	1.231.008,77	99.153 <i>,</i> 65
Asset positions in hedging transactions (Note 22.3 a)	(13.840.223)	(8.839.733)	(18.484,68)	(12.723,25)
Liability positions in hedging transactions (Note 22.3 a)	14.929.488	9.912.556	19.939,49	14.267,39
Total	1.214.853.536	353.317.213	1.622.530,57	508.538,38

The Group's financial debt structure by fixed and variable interest rates, after purchased hedges, is as follows:

Net position	12.31.2019	12.31.2018
Fixed interest rate	38,33%	59,22%
Protected interest rate	12,44%	40,78%
Variable interest rate	49,23%	0,00%

5.2 Exchange rate risk

Exchange rate risk relates mainly to the following:

- A significant proportion of the Company's revenue is in US dollars and foreign currencies.
- Most of the products marketed in Chile are sold at international prices.
- Debt contracted by the Group's companies that is denominated in a foreign currency.

- Trade receivables at Group companies that are directly linked to movements in the US dollar.
- International payments to buy raw materials associated with animal production.

The Company's exchange rate hedging policy is based on cash flows and maintaining a balance between flows indexed to the US dollar and the assets and liabilities in that currency, in order to mitigate exchange rate risk. The objective is to minimize the exposure of cash flows to exchange rate risk.

The instruments currently used to comply with the policy are currency swaps and exchange rate forwards. Likewise, Group policy is to refinance debt into the functional currency of each company.

5.3. Commodities risk

The Company is exposed to the risk of variations in some commodity prices, primarily on grain purchases for animal production, such as corn and soybean. The policy is to use a hedging range during consumption days for each important raw material and for each component of the price, such as future and premium.

Future hedge Premium hedge

The following table shows the minimum and maximum hedging ranges.

	(consump	otion days)	(consump	otion days)
	Min.	Max.	Min.	Max.
Corn + Sorghum	30	90	30	120
Soybeans	30	90	30	120
Fishmeal	30	90	30	120
Soy beans	30	90	30	120

5.4. Liquidity risk

The Company's liquidity policy consisting in obtaining long-term credit facilities and temporary financial investments. Their values should be sufficient to meet projected liquidity requirements for a period that is based on the circumstances and expectations surrounding debt and capital markets.

These projected liquidity requirements include gross financial debt maturity, after financial derivatives. Details of the characteristics and conditions of financial debt and financial derivatives are contained in the attached repayment table.

	2020	2021	2022	2023	2024	2025	2026	2027 +	Total
Principal amortization	467,17	51,11	280,10	386,35	89,55	37,19	17,19	313,58	1.642,24
Interests	50,08	45,39	40,93	36,38	19,40	15,54	11,93	39,03	258,68
Total	517,25	96,50	321,03	422,73	108,95	52,73	29,12	352,61	1.900,92
Note: Amounts stated in millions of US Dollars. Repayments and interest include CCS and IRS gains and losses.									

T/C USD/CLP: 748.74

5.5. Credit risk

The Group performs detailed credit risk monitoring.

Trade receivables:

The Company carries credit insurance for 98.47% of its domestic trade receivables. There is a deductible of 10% of the loss under this insurance and each customer has an individual line approved by the insurance company.

The Export Trade Receivables can be separated by the different terms of sale:

- Clients with Insured Credit for 85% of the debt, with a 10% deductible on the loss. Each customer has an individual line approved by the insurance company.
- Clients with Cash against documents (CAD) for 2% of the debt. In this case, the customs clearance documentation for the product is delivered once the payment is made.
- Clients with Advance payment and CAD for 1% of the debt, where the customer pays between 10 and 50% in advance and the difference is paid upon arrival of the product.
- Clients with guarantee and payment of Letter of Credit (L/C) for 8% of the debt. In this case, the customer's bank pays the domestic bank that has confirmed the L/C, to ultimately make payment to Agrosuper S.A.
- Clients who pay in advance 100% prior to product shipment, 2% of the debt.
- Customers with bank collection for 2% of the debt, in which the local bank sends a set of documents to charge the customer against delivery of the documents.

Other financial assets:

Cash surpluses are invested with national and foreign financial entities, within limits established for each instrument.

Banks and financial institutions are selected from among those that have at least an investment grade risk rating assigned by the leading international risk rating agencies (Moody's, Standard & Poor's and Fitch Ratings).

5.6. Risk measurement

Exchange rate risk:

In the event of a 5% variation in the rate, the annual interest generated by long-term loans varies upwards or downwards for loans in dollars according to the following detail:

Currency origin	Description	Maturity	Semestral rate	Capital balance Currency origin	Interest Currency origin	5% var. in rate Currency origin	5%	var. in rate Ch\$	Variation %
USD	Crédito LP Scotiabank Libor 3M	02-10-2023	0,95%	150.000.000	1.424.520,80	71.226,04	\$	53.329.785	0,05%
USD	Crédito LP BNPP Libor 3M	11-01-2024	0,95%	100.000.000	949.680,53	47.484,03	\$	35.553.190	0,05%

USD	Crédito LP Scotiabank-Terrapez Libor 6M	15-07-2024	0,95%	5.948.356	56.600,86	2.830,04	\$	2.118.966	0,05%

Note: Only long-term floating rate debt is considered (no IRS fix to fix) Variation on 6M rate is considered

Exchange rate risk:

The Company hedges exchange rates with forwards and cross currency swaps to minimize its exchange rate risks.

The net balance exposure by currency is as follows:

Exposure by currency on net assets (liabilities)	12.31.2019	12.31.2018		
	In original currency (thousands)			
US dollar	1.112.489	663.195		
Euro	48.178	78.218		
Yen	7.472.786	5.998.041		
Mexican peso	1.183.469	278.148		
UF	(10.262)	(10.242)		

Exposure by currency on net assets (liabilities)	12.31.2019	12.31.2018			
	In original currency (thousands)				
US dollar	1.086.984	647.643			
Euro	48.231	78.465			
Yen	7.483.361	6.009.558			
Mexican peso	1.184.997	278.287			
UF	(10.345)	(10.389)			

If exchange rates increase by 10%, the net balance exposure by currency is as follows:

6. MANAGEMENT'S JUDGMENTS IN APPLYING THE COMPANY'S ACCOUNTING POLICIES

Applying IFRS requires the use of estimates and assumptions that affect the values of assets and liabilities at the reporting date and income and expenses during the reporting period. Management must make judgments and estimates that may have a significant effect on the figures presented in these consolidated financial statements prepared under IFRS.

Management must make judgments and estimates that have a significant effect on the figures presented in these consolidated financial statements. The most critical estimates and judgments are detailed as follows:

6.1 Useful lives of assets

With the exception of land, tangible and intangible assets with a finite life are depreciated linearly or by production units, both over the useful financial life of the asset. Management annually reviews the basis used to calculate useful lives and production units.

6.2 Asset impairment

The Company and its subsidiaries review the book value of its tangible and intangible assets to assess whether there is any indication that these assets could be impaired. Assets that do not generate independent cash flows are grouped into their appropriate cash generating unit (CGU) for impairment testing purposes. The recoverable value of these assets or CGUs is the higher of their fair values (discounted future cash flow method) and their book values.

Management must apply judgment in grouping assets that do not generate independent cash flows and also in estimating the frequency and values of underlying cash flows in their calculations. Subsequent changes in the grouping of CGUs or the frequency of cash flows could impact the book values of the respective assets.

6.3 Allowance for doubtful accounts receivable

The Company has estimated the risk of recovering its accounts receivable, based on portfolio quality, receivables overdue and in judicial collection, and the financial status of customers.

6.4 Provision for employee benefits

The cost of employee benefits relating to services provided by employees during the year are charged to the income statement for that period.

6.5 The probability of occurrence and the value of uncertain or contingent liabilities

Estimates are based on the information available at the reporting date. However, future events may require these estimates to be revalued in future periods.

6.6 Fair value of biological assets

Pre-harvest salmon being fattened at sea are recorded at fair value.

All remaining biological assets are valued using the total production cost absorption method, due to the short term nature of the productive process and as this cost is close to their fair values.

6.7 Net realizable value of inventories

Inventories are valued at the lower of production or acquisition cost and their net realizable cost. The costs of inventories include all costs arising from production and other costs incurred in that process, which are considered part of cost of sales (absorption costing).

6.8 Fair value of derivative instruments

The fair value of derivative instruments is determined using assumptions based on quoted market rates, adjusted to take into account the specific characteristics of each instrument.

7. CASH AND CASH EQUIVALENTS

a) Cash and cash equivalents as of December 31, 2019 and December 31, 2018, are detailed as follows:

	12.31.2019	12.31.2018	12.31.2019	12.31.2018
	ThCh\$	ThCh\$	ThUSD	ThUSD
Cash and bank accounts	34.450.900	34.670.100	46.011,83	49.901,55
Remunerated current accounts	92.271.024	5.414.242	123.235,07	7.792,86
Mutual funds	4.365.171	14.775.757	5.830,02	21.267,12
Term deposits	76.299.628	17.514.691	101.904,04	25.209,33
Total	207.386.723	72.374.790	276.980,96	104.170,86

Note: The remunerated current accounts as of December 31, 2019 and December 31, 2018 are balances held at Scotiabank and Bank of America.

Fixed-income mutual funds are investments in units, and they are revalued at each reporting date.

There were no restrictions on the availability of cash.

Other rights and receivables	13.543.144	10.603.503	4.042.192	8.138.217	18.087,92	15.261,89	5.398,66	11.713,54	
Subtotal - Other accounts receivable	25.988.220	17.065.324	4.042.192	8.138.217	34.709,28	24.562,56	5.398,66	11.713,54	
Total trade receivables and other accounts receivable	290.147.017	190.455.633	4.042.192	8.138.217	387.513,71	274.127,60	5.398,66	11.713,54	

a) As of December 31, 2019, the allowance for doubtful receivables includes ThCh\$ 1,429,103, corresponding to Empresas AquaChile S.A.

The fair values of trade and other receivables are equal to their commercial values as they represent the amounts in cash that will be collected for each concept. The balances are presented gross.

The balances in this account do not generally accrue interest.

There are no significant restrictions on the availability of these accounts receivable.

The Company has no balances in a guaranteed portfolio as of December 31, 2019 and December 31, 2018.

The principal debtors that comprise Trade receivables and other current receivables are as follows:

Tipo de deudor comercial (bruto)	12.31.2019 ThCh\$	12.31.2018 ThCh\$	12.31.2019 ThUSD	12.31.2018 ThUSD
Traditional	25.151.989	18.107.316	33.592,42	26.062,32
Supermarkets	67.960.783	68.442.145	90.766,87	98.510,51
Industrial	14.382.600	14.708.159	19.209,07	21.169,82
Foodservice	11.027.814	8.955.090	14.728,50	12.889,29
Subtotal domestic trade receivables	118.523.186	110.212.710	158.296,86	158.631,94
Subtotal export trade receivables	146.964.479	63.699.852	196.282,39	91.684,81
Total gross trade receivables	265.487.665	173.912.562	354.579,25	250.316,75

These values do not include the allowance for doubtful accounts receivable.

The amounts claimed on these insurance policies and the corresponding compensation received during 2019 and 2018 are as follows:

Itemization	01.01.2019 to 12.31.2019 ThCh\$	01.01.2018 to 12.31.2018 ThCh\$	01.01.2019 al 12.31.2019 ThUSD	01.01.2018 al 12.31.2018 ThUSD
Opening balance damages pending settlement	295.285	876.876	394,38	1.262,11
Damages for the period	611.454	1.158.803	816,64	1.667,89
Damage compensated for the period	(215.820)	(836.520)	(288,24)	(1.204,02)

11.2 Senior Management and the Board of Directors

Agrosuper S.A. is managed by a Board of Directors composed of six members. The directors shall serve a term of three years and may be re-elected.

AGROSUPER

The current Board of Agrosuper S.A. was re-elected on April 24, 2017 at the Seventh Ordinary General Shareholders meeting, and has not changed at the date these consolidated financial statements were issued. It is composed of:

Gonzalo Vial Vial	: Chairman of the Board
Fernando Barros Tocornal	: Vice Chairman of the Board
Antonio Tuset Jorratt	: Director
Canio Corbo Lioi	: Director
Verónica Edwards Guzmán	: Director
Juan Claro González	: Director

a) Director's remuneration

The parent company's Directors have received remuneration and accrued a share of net income as of December 31, 2019 and 2018, as follows:

		12.31.2	019	12.31.2018		12.31.2	019	12.31.	2018
		Board	Share of

12. INVENTORIES

12.1 Inventories are detailed as follows:

	12.31.2019 ThCh\$	12.31.2018 ThCh\$	12.31.2019 ThUSD	12.31.2018 ThUSD
Raw materials	116.540.996	80.470.558	155.649,49	115.823,31
Products in process	3.808.820	2.096.597	5.086,97	3.017,68
Finished products (a)	178.174.783	103.073.131	237.966,16	148.355,76
Fair Value of finished products	1.213.239	10.754.524	1.620,37	15.479,25
Materials, consumables and spare parts	45.358.160	28.300.046	60.579,32	40.732,97
Obsolescence provision (b)	(2.136.059)	(1.568.203)	(2.852,87)	(2.257,15)
Total	342.959.939	223.126.653	458.049,44	321.151,82

The Administration estimates that its inventory will be used within less than one year.

The company has no rebates on inventories nor reversed any rebates in the period and it has not provided any inventories as a guarantee, as of December 31, 2019 and December 31, 2018.

- a) Finished products are expressed at their consolidated value. Therefore, any profit margins are discounted on sales and purchases to subsidiaries and associate companies.
- b) The Company has provided against any obsolescence associated with consumable supplies, covering supplies that will not be used in production.

The movement of fair value by finished product is as follows:

	12.31.2019	12.31.2019
	ThCh\$	ThUSD
Opening balance fair value of finished products	10.754.524	14.363,50
Fair Value transfered from biological assets to finished products	283.969.679	379.263,40
Fair Value from finished products resulting from business combination	8.466.955	11.308,26
Fair Value from finished products harvested and sold through profit or loss (a)	(300.713.559)	(401.626,14)
Exchange rate difference valuation of finished products	(1.264.360)	(1.688,65)
Closing balance fair value of finished products	1.213.239	1.620,37

a) The charge to income of Fair Value of finished products harvested and sold for the period ended 12.31.2018 was ThCh\$ (99,764,916).

12.2 Inventory costs recognized as an expense

Inventory recognized as an expense within operating costs during the years ended December 31, 2019 and 2018, is detailed as follows:

	Cumulative 01.01.2019 to 12.31.2019	Cumulative 01.01.2018 to 12.31.2018	Cumulative 01.01.2019 to 12.31.2019	Cumulative 01.01.2018 to 12.31.2018
	ThCh\$	ThCh\$	ThUSD	ThUSD
Finished goods	1.747.032.857	1.191.220.361	2.333.297,08	1.714.553,54

13. BIOLOGICAL ASSETS

(a) This is the fair value of biological assets in the fiscal year and the counterentry is in the statement of income, as explained in Note 27 (see the aquaculture segment in the statement of income).

AGROSUPER

13.3 Salmon valuation model

Until January 1, 2018, the biomass valuation criteria consisted of valuing at cost the biomass with a weight below the minimum harvest and for higher weights it was valued at fair value, considering biomass equal to or greater than 4.0 kilos RWE for Salar Salmon and 2.5 kilos RWEs for Pacific Salmon or Coho and Trout. At the end of the period, it was valued considering the market prices available at the reporting date and discounting the costs of harvesting, processing, packaging, distribution and sale, where the volume was adjusted by the yield of the process.

Based on these financial statements and in comparison with the restated financial statements as of December 31, 2018, the company has opted for a discounted cash flow model or present value method for determining the fair value. The estimates and valuation model used to measure biological assets are described below:

- The model uses a discount rate determined for each region, reflecting the risk by geographical crop sector. In addition, the projected costs include a theoretical cost of use of concessions, in accordance with the definitions contained in IAS 41, which allows the adjustment to fair value of the biological asset in different growth stages to be carried at present value.
- The estimate of the fair value of the fish biomass will always be based on assumptions, even if the Group has sufficient experience in considering these factors. The estimates are applied considering the following elements: volume of fish biomass, average weights of biomass, distribution to the weight of recovery and market prices.
- The volume of fish biomass to 1 kg is an estimate based on the number of smolts sown in the seawater, the estimate of cumulative growth, and the recording of observed mortality in the period, among others. Uncertainty regarding biomass volume is usually lower in the absence of massive mortality or disease events.

Fish in the water grow at different rates and, even in the presence of good estimates of average weight, there may be some dispersion in the quality and size of the fish. It is important to consider the distribution of size and quality as there are different prices on the market. When estimating the value of the biomass of fish, a normal distribution of sizes, or in its absence, the most recent size distribution obtained in processing by the Group's processing plants, is considered.

The movement of fair value of biological assets for the period is as follows:

	12.31.2019	12.31.2019
	ThCh\$	ThUSD
Opening balance FV biological assets	25.973.066	34.689,03
Fair Value of biological assets from business combination	48.608.893	64.920,92
Fair Value biological assets for the period through profit or loss (a)	308.100.384	411.491,83
Exchange rate difference from valuation of biological assets	(406.796)	(543,31)
Fair Value biological assets transfered to inventories	(283.969.679)	(379.263,40)
Closing balance fair value biological assets	98.305.868	131.295,07

Therefore, the (charge) credit to the income statement for the fair value of biological assets for the year ended December 31, 2018 is ThCh\$ 112,639,034.

15.2 General information regarding the principal subsidiaries

Agrícola Super Ltda. (Formerly Agrícola Super Pollo Ltda.) was constituted on February 12, 1982 before the Notary Public Mr. Sergio Rodríguez Garcés. The company's aim is to operate and market directly or through other people all manner of movable goods, especially those related to food and agriculture; to manage, operate, market directly and through other people all manner of agricultural, farm, forestry, fruit and general agro-industrial property; to provide services in general, and any other business that the shareholders agree.

Agrosuper Comercializadora de Alimentos Limitada was incorporated by public deed on April 10, 1990, before Notary Public Mr. Aliro Veloso Muñoz. The company's aim is to purchase, sell, market and distribute directly, indirectly or through a third party, for itself or on behalf of a third party, all manner of goods and foods; to provide services in general, and any other business that the shareholders agree.

Agrocomercial AS Limitada was incorporated on August 6, 2002 by public deed before Santiago Notary Public Mrs. Antonia Mendoza Escalas. The company's aim is to acquire, market and sell poultry, porks and animals in general; to acquire, manage and operate its own property or that of third parties, and to operate agro-industrial businesses. During February 2012, Agrocomercial AS Limitada became the parent company for the Group businesses in the meats segment.

Procesadora de Alimentos del Sur Limitada (formerly Faenadora Rosario Limitada) was incorporated on July 13, 2000 as a limited liability company, by public deed before Notary Public Mrs. Antonia Mendoza Escalas. The company's aim is to process and conserve in refrigeration meats and complementary products from poultry, cattle and animals in general, such as porks, sheep, cattle and their by-products; to operate agro-industrial establishments and refrigerators that process and preserve meat in general and their by-products; to market, distribute, acquire, import and export, either directly or through third parties, owned meat products or those of third parties, as by-products, and to provide services in general.

Faenadora Lo Miranda Limitada was incorporated on August 4, 1993 as a limited liability company by public deed, before Notary Public Mr. Felix Jara Cadot. The company's aim is to process, conserve in refrigeration, distribute, import and export meat and complementary products such as poultry, cattle and animals in general; to operate agro-industrial establishments and refrigerators to process meat in general; to provide services in general, and any other business that the shareholders agree.

Faenadora San Vicente Limitada was incorporated on March 1, 1994. The company's aim is to process, conserve in refrigeration, market, distribute and import its own poultry and by-products or those of third parties; to provide services in general, and any other business that the shareholders agree.

Elaboradora de Alimentos Doñihue Limitada was incorporated on January 9, 1989. The company's aim is to prepare sausages and cured meats.

Pesquera Los Fiordos Limitada was created on October 25, 2010 through the division and modification of Agrícola Agrosuper S.A., which was detailed in the first point of this note. Pesquera Los Fiordos Limitada is the parent company for the Group businesses in the aquaculture segment.

Exportadora Los Fiordos Limitada was incorporated on January 9, 1989 by public deed, before Notary Public Mr. Aliro Veloso Muñoz. The company's aim is to extract, farm and fish for anything that lives in water; to freeze, conserve, prepare and transform it; to explore the fishing industry in general and its derivatives; to prepare fishmeal and fish oil.

Sopraval S.A. was incorporated by public deed on July 20, 1967, when it was named Sociedad de Productores Avícolas de Valparaíso Limitada. On December 31, 1992 the company amended its statutes to become a privately held corporation, amending its name from Sopraval Limitada to Sopraval S.A. Subsequently, on March 22, 1993 it became a publically held corporation and was registered on the Securities Registry under number 449, and subject to regulation by the Chilean Superintendence of Securities and Insurance. Currently the company has its registered office at J. J. Godoy "La Calera", in Valparaiso Region, Chile. On August 29, 2011, the subsidiary Sopraval S.A. requested the voluntary cancellation of its registration in the Securities Register held by the Superintendence of Securities and Insurance. The company's aim is to farm poultry, to produce turkey meat and prepare turkey sausages.

The foreign subsidiaries Agro América LLC, Agro Europa SPA, Alimentos Euroagro SL, Inversiones Eurosuper SL, Productos Alimenticios Super Limitada, Andes y Asesorías y Servicios Limitada, Andes Asia INC, Agrosuper Asia Limited, Agrosuper Brasil Representação de Productos Alimenticios Limitada, and Agrosuper Shanghai Limited aim to import, sell and distribute food products derived from chicken, turkey, pork, beef, salmon and generally any food product; to broker such products; and to represent other companies and their products, brands and licenses.

Empresas Aqua Chile S.A., Tax ID N° 86.247.400-7, is a company that was originally incorporated as a privately held corporation under the name of Fischer Hermanos Limitada, by public deed dated July 20, 1979, granted in the Notary's Office of Coyhaique of Mr. Patricio Olate Melo.An excerpt of said deed was recorded in the Commerce Register of the Coyhaique Real Estate Registrar, pages 38 No. 34, and published in the Official Gazette dated August 3, 1979. Its corporate purpose is the production and marketing of salmon, participating in its entire production chain, and is currently the largest company in the industry in Chile.

17.3 Amortization of intangible assets other than goodwill

Intangible assets with indefinite useful lives are tested for impairment annually either as an individual asset or as a cash generating unit (CGU).

Intangible assets with finite useful lives are amortized over their useful life and are tested for impairment each time there is an indication that the intangible asset may be impaired. The amortization period and amortization method for an intangible asset with a finite useful life are reviewed at least at every reporting date.

The amortization periods for intangible assets are:

The SAP IT Project is expenditure on the SAP Project, which will be depreciated on the basis of its returns and estimated usage.

The definition of identifiable assets arising from the acquisition of Sopraval S.A., recognized the Sopraval brand, which is not being amortized because its useful life is indefinite, according to independent third parties.

18.3 Acquisition details

(a) Former Comercial Geiser S.A.

This acquisition integrated into the Group the distribution of its products in the north of Chile, where the acquired company (and which was absorbed by subsidiary Agrosuper Comercializadora de Alimentos Ltda.) operated between the I and IV region.

Main reasons for this business combination:

The acquisition was part of the Group's business plan to integrate and control the distribution of products sold in the north of Chile. This acquisition meets the definition of IFRS 3 "Business Combinations", as the acquisition is associated with a business unit.

Factors resulting in goodwill:

Goodwill is mainly the synergy arising from integrating the distribution and logistics business unit for Agrosuper products, which results in distribution cost efficiencies and a better understanding of customer's requirements in the north of Chile.

(b) Inversiones Sagunto S.A. and Sopraval S.A.

Main reasons for this business combination:

The acquisition was part of the Group's business plan to integrate and control the production and marketing of agricultural products associated with the turkey business. This acquisition meets the definition of IFRS 3 "Business Combinations", as the acquisition is associated with a business unit.

Factors resulting in goodwill:

Goodwill represents the excess acquisition cost over the fair value of the Company's share in the identifiable assets, liabilities and contingent liabilities at the acquisition date of Sopraval S.A. It is recorded at acquisition cost less accumulated impairment losses.

Goodwill is not amortized, but at each reporting date the respective investment is evaluated for evidence of impairment that might reduce its recoverable value to below its book value, which would trigger an impairment provision.

(c) Empresas AquaChile and Subsidiaries

In January 2019, through a Public Share Offering process, Agrosuper acquired 99.71% of the Company Empresas AquaChile S.A. and subsequently directly and indirectly acquired the remaining 0.29%. Today, Agrosuper owns 100% of the company's shares. This purchase is part of the business plan of the Group, which seeks to consolidate its position in the salmon business as the largest national producer and exporter and the second largest producer worldwide through the integration of AquaChile with the other existing salmon businesses.

The fair value of the purchase amounted to ThUS\$ 851,375.77

- (a) It considers the incorporation of property, plant and equipment through the purchase of Empresas AquaChile S.A. amounting to ThCh\$ 161,834,594, which are mainly Buildings and Plant and Equipment.
- (b) The line other increases (decreases) as of December 31, 2019 is mainly the conversion of property, plant and equipment at subsidiaries Empresas AquaChile S.A. for ThCh\$18,368,306 and Exportadora Los Fiordos Limitada for ThCh\$ 4,743,985, whose functional currency is US dollars as these have been converted to the functional currency of the parent company the Chilean peso, which is also the presentation currency, according to the methodology indicated in IAS 21. The conversion of property, plant and equipment at the subsidiary Exportadora Los Fiordos Limitada as of December 31, 2018 was ThCh\$ 16,000,174.

19.3 Additional information

(a) Interest capitalization

The Company and its subsidiaries capitalized interest in property, plant and equipment, in accordance with the IAS 23.

	01.01.2019 to	01.01.2018 to	01.01.2019 al	01.01.2018 al
	12.31.2019	12.31.2018	12.31.2019	12.31.2018
	ThCh\$	ThCh\$	ThUSD	ThUSD
Capitalized financial costs	2.230.487	1.474.026	2.978,99	2.121,60
Capitalized average interest rate	3,28%	2,61%	3,28%	2,61%

(b) Insurance

The Company and its subsidiaries have taken out insurance policies to cover possible risks to property, plant and equipment as well as possible claims related to their businesses. These policies sufficiently cover the risks to which they are exposed.

(c) Pledges and mortgages associated with property, plant and equipment

The Agrosuper Group has pledges and mortgages on property, plant and equipment, which are detailed in Notes 33.3 and 33.5.

(d) Depreciation expense

Depreciation is calculated on a straight-line basis over the respective useful life of the asset.

This useful life has been determined based on natural expected deterioration, technical or commercial obsolescence from changes and/or improvements in production and changes in market demand for the products produced by these assets.

The residual value and useful life of assets are reviewed, and adjusted where necessary, at each reporting date.

The charge to the income statement for depreciation on property, plant and equipment is as follows:

	12.31.2019 ThCh\$	12.31.2018 ThCh\$	12.31.2019 ThUSD	12.31.2018 ThUSD
Cost of sales	98.084.118	48.990.672	130.998,90	74.181,09
Administrative & distribution expenses	2.835.820	3.414.355	3.787,46	5.169,98
Other non-operating expenses	7.490.382	4.286.307	10.003,98	6.490,27
Total	108.410.320	56.691.334	144.790,34	85.841,34

(e) Cost of dismantling, withdrawal or rehabilitation

The Agrosuper Group has no contractual obligations to withdraw, dismantle and rehabilitate any of its facilities as of December 31, 2019 and December 31, 2018, and therefore has no provisions for these costs.

(f) Goods temporarily out of service

The Agrosuper Group has property, plant and equipment that is temporarily out of service as of December 31, 2019. This is machinery and equipment at the Huasco agro-industrial complex amounting to ThCh\$ 5,463,778, which is being relocated to other facilities according to the Company's reuse plan.

20. CURRENT AND DEFERRED INCOME TAXES

20.1 Income tax recognized in net income for the year

	12.31.2019 ThCh\$	12.31.2018 ThCh\$	12.31.2019 ThUSD	12.31.2018 ThUSD
Current tax expense (income)	46.910.203	38.799.141	62.652,19	55.844,58
Total net current tax expense (income)	46.910.203	38.799.141	62.652,19	55.844,58
Deferred tax expense (income)				
Tax expense adjustment (prior period)	(431.240)	(547.983)	(575,96)	(788,73)
Tax effect of change in income tax rate		-	-	-
Deferred tax expense (income) for new and reversed temporary differences	26.498.658	7.500.361	35.391,00	10.795,47
Other	(521.053)	(342.645)	(695,90)	(493,18)
Total net deferred tax income (expense)	25.546.365	6.609.733	34.119,14	9.513,56
Total income tax income (expense)	72.456.568	45.408.874	96.771,33	65.358,14

20.2 Reconciliation of effective tax rate

A reconciliation of the legal tax rate in Chile and the effective tax rate applicable to the Company and its subsidiaries is as follows:

	12.31.2019 ThCh\$	12.31.2018 ThCh\$	12.31.2019 ThUSD	12.31.2018 ThUSD
Reconciliation of income tax at the legal rate				
with the income tax expense at the effective rate	69.720.302	53.463.655	93.116,84	76.951,59
Tax effect of rates in foreign jurisdictions	29.896	(2.976.113)	39,93	(4.283,59)
Tax effect of tax deductible expenditure	(584.040)	(411.863)	(780,03)	(592,80)
Tax effect of disallowable expenditure	4.706.748	1.531.029	6.286,22	2.203,65
Increase (decrease) for tax adjustments for inflation	(1.610.494)	(5.913.388)	(2.150,94)	(8.511,29)
Other	194.156	(284.446)	259,31	(409,42)
Total income tax expense	72.456.568	45.408.874	96.771,33	65.358,14

20.3 Deferred taxes

Deferred tax assets and liabilities as of December 31, 2019 and December 31, 2018 are detailed as follows:

(a) Deferred tax assets relating to:

	12.31.2019	12.31.2018	12.31.2019	12.31.2018
	ThCh\$	ThCh\$	ThUSD	ThUSD
Provision for the indefinite strike at the Huasco agro-industrial complex	36.887.120	39.139.320	49.265,59	56.334,21
Taxable vs financial goodwill	3.534.017	3.521.860	4.719,95	5.069,10
Employee benefits provision	349.223	2.563.112	466,41	3.689,15
Tax losses	67.105.190	3.262.332	89.624,16	4.695,56
Other provisions	6.556.226	1.412.049	8.756,35	2.032,40
Vacation provision	2.824.202	2.560.164	3.771,94	3.684,91
Allowance for doubtful accounts receivable	136.090	112.929	181,76	162,54
Other events	55.210	49.430	73,73	71,15
Fair Value IRS Swap	1.695.109	1.355.860	2.263,95	1.951,52
Total deferred tax assets	119.142.387	53.977.056	159.123,84	77.690,54

There is no valuation provision on deferred tax assets at the reporting date because it is likely that deferred tax assets will be completely recovered.

(b) Deferred tax liabilities relating to:

	12.31.2019 ThCh\$	12.31.2018 ThCh\$	12.31.2019 ThUSD	12.31.2018 ThUSD
Difference financial and tax fixed asset	102.037.190	62.641.738	136.278,53	90.161,83
Business combination effect	55.548.515	-	74.189.32	-
Animals born in the field	33.805.091	31.172.936	45.149,31	44.867,99
Indirect manufacturing expenses	25.296.719	12.274.839	33.785,72	17.667,49
Deferred expenses	6.490.259	7.102.785	8.668,24	10.223,22
Fair value of biological assets and inventories	42.675.711	18.456.067	56.996,71	26.564,28
Collective agreement bonus	1.272.113	1.051.301	1.699,00	1.513,16
Other events	3.681.576	6.102.440	4.917,03	8.783,41
Total deferred tax liabilities	270.807.174	138.802.106	361.683,86	199.781,38

20.4 Deferred taxes

Movements on deferred tax assets and liabilities are as follows:

Deferred tax movements	Assets ThChŚ	Liabilities ThChS	Assets	Liabilities ThUSD
	- 1	- •	ThUSD

21.3 Lease liabilities

The Company recognizes a right-of-use asset related to lease contracts of facilities and assets used in the development of our business activities, which are classified as Property, Plant and Equipment, and recognizes the respective lease liability.

In the previous year, the Company only recognised lease assets and liabilities relating to lease contracts that were classified as "finance leases" under IAS 17 Leases. Assets were presented in property, plant and equipment, and liabilities as part of other financial liabilities. For adjustments recognised on the adoption of IFRS 16 on January 1, 2019.

The balances of the recognized lease liabilities are as follows:

	Curr	ent	Non-c	urrent	Cur	rent	Non-c	urrent
	12.31.2019	12.31.2018	12.31.2019	12.31.2018	12.31.2019	12.31.2018	12.31.2019	12.31.2018
	ThCh\$	ThCh\$	ThCh\$	ThCh\$	ThUSD	ThUSD	ThUSD	ThUSD

22.3 Financial derivative instruments

Agrosuper S.A. and its subsidiaries purchases interest rate and exchange rate hedges, in accordance with risk management policy.

The Company classifies its hedges as cash flow hedges:

Effective hedges and ineffective hedges: The Company uses hedges to cover the risk of volatility in cash flow attributable to changes in interest rates or exchange rates on loans with variable interest rates or in a currency other than the Chilean Peso.

The effective part of changes in value of hedge instruments is recorded temporarily in equity, until the envisaged transactions occur. The ineffective part is recorded directly in the statement of comprehensive income.

The details of the hedging contract and the hedged item are as follows:

Hedging	Transation				Hedged			Notional			
instrument	number	Currency	Rate received	Rate paid	instrument	Hedge	Notional ThCh\$	USD	Ch\$		
CCS1 Bono Chile	4000053	UF/USD	Fixed rate	Fixed rate	Series D bond	Cash flow	18.889.969	25.229.010	18.889.969

The fair value of Interest Rate Swaps should not suffer major changes during the year, as all their notional amount are composed of contrary positions, minimizing their effects.

22.4 Assets and liabilities at fair value

Fair value is generally understood to be the price of a financial instrument at a particular time in a free and voluntary transaction between interested parties, duly informed and independent of each other. The fair value of financial instruments without available market prices have been estimated using current values or other valuation techniques. These techniques are significantly affected by the underlying assumptions, including the discount rate and the prepayment assumptions. Therefore, the estimates of fair value for some financial assets and liabilities cannot be justified in comparison with independent markets and in many cases they cannot be immediately placed.

The estimates of fair value that follow do not attempt to estimate the value of the Company's returns on its business, nor future business, so do not represent the value of the Company as a going concern.

The methods used to estimate the fair value of its financial instruments are described as follows:

(a) Cash and mutual funds:

The book value of cash and mutual funds in banks is approximately their estimated fair value given their short-term nature.

(b) Transactions pending settlement (asset and liability):

The book value of transactions in foreign currencies is approximately their estimated fair value given their short-term nature.

(c) Financial investments:

The estimated fair value of consolidated financial instruments is calculated using market prices or prices quoted for financial instruments with similar characteristics.

(d) Financial instruments

The fair value of financial instruments is the estimated amount that the Company expects to receive or pay to terminate those contracts or agreements, taking into account current interest rates and prices.

22.5 Fair Value Hierarchies

Financial instruments recognized at fair value in the statement of financial position are classified into the following hierarchies:

- (a) Level 1: Quoted (unadjusted) price in an active market for identical assets and liabilities.
- (b) Level 2: Indications other than quoted prices included in level 1 that are observable for assets or liabilities, either directly (i.e. as a price) or indirectly (i.e. as a derivative of a price).
- (c) Level 3: Indications for assets or liabilities that are not based on observable market information (non-observable indications.

Financial assets and liabilities at fair value as of December 31, 2019 and December 31, 2018 are detailed as follows:

AGROSUPER

25.EQUITY

25.1 Paid-in capital

Company Incorporation

Agrosuper S.A. was incorporated by public deed on October 29, 2010, under the name Agrosuper S.A. and its Chilean identification number is: 76,129,263-3. Its registered office is at Camino la Estrella 401, Office 7, Sector Punta de Cortes, Rancagua.

On the date the Company was incorporated its shareholders were Agrocomercial El Paso S.A. and Promotora Doñihue Limitada. Its initial share capital was ThCh\$134,901,028 divided into 3,372,525,709 shares. This capital was paid through contributions in shares and rights from the following companies: Agrícola Agrosuper S.A. and Pesquera Los Fiordos Limitada and payment for one share in cash.

Capital increase

- The Extraordinary Shareholders' Meeting held on December 15, 2010 agreed to increase capital from ThCh\$ 134,901,028 to ThCh\$ 147,343,669 by issuing 52,053,605 shares in payment, representing the amount of ThCh\$ 12,442,641, which was paid in full.
- The Extraordinary Shareholders' Meeting held on December 27, 2010 agreed to increase capital from ThCh\$ 147,343,669 to ThCh\$ 683,412,291 by issuing 13,401,715,543 shares in payment, representing the amount of ThCh\$ 536,068,622, which was paid in full.

• The Extraordinary Shareholders' Meeting held on January 14, 2019, agreed to increase capital from ThCh\$ 683,412,291 to ThCh\$ 954,485,016, through the issuance of 6,674,081,899 shares representing the amount of ThCh\$ 271,072,725, which was paid in full, as detailed below

Date	Concept	Number of shares
10-29-2010	Constitución Agrosuper S.A.	3.372.525.709
12-15-2010	Aumento de Capital	52.053.605
12-27-2010	Aumento de Capital	13.401.715.543
01-14-2019	Aumento de Capital	6.674.081.899
Total sub	scribed and paid-in shares	23.500.376.756

The summary of subscribed and paid-in shares is as follows:

25.2 Capital management

The purpose of the company is to maintain an adequate level of capitalization, that allows it to ensure access to financial markets for developing its medium- and long-term objectives, thus optimizing the return to its shareholders and maintaining a solid financial position.

25.3 Dividend policy and distribution

The Company's statutes and Article 79 of Corporate Law establishes that the Company will annually distribute a mandatory dividend equivalent to 30% of the net income for the year, provided that there were no losses for the year or accumulated losses from previous years, unless unanimously agreed otherwise by holders of all the issued shares at an Ordinary General Shareholders meeting. The Board agreed to provide for a quarterly dividend of 30% of net income for the year with effect from June 30, 2015.

According to Circular 687, this policy is the Board's intention, so its implementation depends on actual net income, forecasts of net income prepared regularly by Management, investment opportunities, the Company's business requirements, and it must be unanimously approved at an Ordinary General Shareholders Meeting.

25.4 Shareholder Detail

The Company's shareholders are detailed as follows:

		N° of Shareholders at	
Tax ID number	Shareholders	12.31.2019	% Ownership
78.407.260-6	Promotora Doñihue Ltda.	23.143.171.029	98,48%
96.733.090-6	Agrocomercial El Paso S.A.	357.205.727	1,52%
	Total	23.500.376.756	100%

25.5 Earnings per share

Basic earnings per share is calculated by dividing the net income attributable to owners of the controller by the weighted average number of shares outstanding during the year:

	12.31.2019	12.31.2018	12.31.2019	12.31.2018
			ThUSD	ThUDS
Net income (loss) attributable to the owners of interest instruments in the Parent' Equity ThCh\$	186.870.838	152.416.169	249.580	219.376
Weighted Average of Number of Shares, Basic	23.500.376.756	16.826.294.857	23.500.376.756	16.826.294.857
Basic Earnings (Losses) by Share Ch \$/shares	7,9518	9,0582	0,0106	0,0130

25.6 Other reserves

The detail of other reserves included in equity is as follows:

Description	31.12.2019 ThCh\$	31.12.2018 ThCh\$	31.12.2019 ThUSD	31.12.2018 ThUSD
Exchange differences on conversion reserve (a)	100.034.505	22.141.531	133.603,79	31.868,86
Cash flow hedge reserve (b)	6.125.697	3.134.409	8.181,34	4.511,43
Other reserves:				
Effect of business combinations (c)	(35.940.928)	(35.940.928)	(48.001,88)	(51.730,68)
Other reserves	142.387	(604.111)	190,18	(869,51)
Total	70.361.661	(11.269.099)	93.973,43	(16.219,90)

(a) Exchange differences on conversion reserve

This reserve is the effect of converting the financial statements of subsidiaries whose functional currency is not the Chilean peso, and generating exchange differences on conversion.

(b) Cash flow hedge reserve

Under IFRS, changes in the fair value of financial instruments designated as cash flow hedges should be recorded in an equity reserve net of adjustments for any ineffective portion.

(c) Effect of business combinations under common control

	31.12.2019 ThCh\$	31.12.2018 ThCh\$	31.12.2019 ThUSD	31.12.2018 ThUSD
Net effect of the capital decrease Exportadora Los Fiordos Ltda	(38.197.462)	(38.197.462)	(51.015,67)	(54.978,57)
Effect on deferred tax of the merger with Comercial Geiser S.A.	2.256.534	2.256.534	3.013,78	3.247,89
Total net effect of business combinations	(35.940.928)	(35.940.928)	(48.001,90)	(51.730,68)

 This effect is due to the decrease in equity at Exportadora Los Fiordos Ltda. during 2010, due to the withdrawal of the partner Inversiones VC Ltda., who withdrew its capital contribution. This caused an increase in the participation of Agrícola Agrosuper S.A. (merged with Agrosuper S.A.) in Exportadora Los Fiordos Limitada from 51.49% to 99.99%.

AGROSUPER

2. This is the effect of deferred taxes on the merger of Comercial Geiser S.A. with Agrosuper Comercializadora de Alimentos Limitada in 2010.

26. NON-CONTROLLING INTERESTS

Non-controlling interests as of December 31, 2019 and December 31, 2018 are detailed as follows:

27. MAIN SEGMENTS

Segmentation criteria

The Agrosuper Group has defined the basis for segmenting its business with a focus on priorities, consisting of meat, aquaculture and others.

Since the Group's corporate organisation coincides with that of the segments, the allocations established in the segment information presented below are based on the financial information of the companies comprising each segment, except for those operations carried out by the Group's parent company, such as cash management, financing and hedging through derivative instruments, with their respective effects on exchange differences and finance costs, which are segmented using a distribution criterion defined by management and reviewed quarterly.

Segment information corresponding to December 31, 2019 and 2018 for the statements of income and to December 31, 2019 and December 31, 2018 for the statements of financial position is presented below.

Income Statement - as of December 31, 2019.

33. 5 Guarantees and several joint debtors.

a) On December 19, 2016, at the ordinary session of the Board of Directors of Agrosuper S.A., it was unanimously agreed to approve that the Company be constituted as guarantor, surety and joint and several co-debtor of Agrosuper Comercializadora de Alimentos Limitada, with respect to the fulfillment of the obligations derived from the cross currency interest rate swap contract dated November 23, 2016, folio 669,371, where Agrosuper Comercializadora de Alimentos Limitada agrees to pay Banco BBVA the amount of USD 25,177,936.67 at an interest rate of 5% and Banco BBVA agrees to pay Agrosuper Comercializadora de Alimentos Limitada the amount of 650,000 UF at an interest rate of 3.764600%.

34. RESTRICTIONS AND LAWSUITS

34.1 Restrictions

Agrosuper S.A.

The Company has no individual restrictions. However, as a parent company it is a guarantor for its subsidiaries and requires certain restrictions in relation to long-term bank obligations as of December 31, 2019, detailed as follows:

• Maintain a debt ratio of less than 1, measured as Net Financial Debt divided by Equity.

The Company complied with all of its management restrictions and financial indicators, as indicated in the original loan contracts and their respective amendments, as of December 31, 2018 and December 31, 2017.

Bonds

Agrosuper S.A. has agreed the following financial covenants with bond holders, measured using its financial statements.

Maintain a debt ratio of less than 1, measured as Net Financial Liabilities divided by Equity, throughout the bond period.

Not sell one or more essential assets in one transaction or a series of transactions, which represent more than 10% of the total assets of the bond issuer.

The Company fully complied with these restrictions and commitments as of December 31, 2018 and December 31, 2017.

- 34.2 Lawuits

The parent company and its subsidiaries have no provisions for contingent liabilities, as Management believe that none of the legal cases described below individually or jointly represent a significant contingency for the Company.

a) Judicial and Administrative Cases Cases over ThCh\$50,000.

N°	Parties	Legal action	Being heard by	Case – Start Year	Observations

Total	19.622	19.625	14.917	14.505		

36. ENVIRONMENT

Concern for the environment has been a fundamental pillar in the development of the company through the search and implementation of new technologies that allow efficient use of natural resources throughout the production chain and minimize the externalities of our operation.

Thus, all of the company's facilities are governed under the current environmental regulatory framework through Clean Production Agreements (CPAs), which aim to determine the environmental conditions of its facilities and encourage continuous improvement of production activities. In this line, each of the processes is structured under specific regulations such as HACCP, BRC, ISO9001 and ISO14001 among others, which allows you to certify the quality and safety of your products.

In the permanent search for mechanisms that help mitigate the externalities of its activity in the breeding stage, a process has been implemented that allows the transformation of pig slurry (a mixture of manure, urine and water) into fertilizer for degraded soils and water for irrigation of agricultural land, which in 2019 allowed the irrigation of hundreds of hectares in the Metropolitan, Valparaiso and O'Higgins regions.

In the industrial area, an efficiency plan was implemented to reduce water consumption in the processing plants, which is where food is produced. This initiative allowed it to improve the circulation of flows and the use of water, reducing water consumption by 6% between 2018 and 2019.

The detail of the disbursements associated with the environmental area at 31 December 2019 and 2018 is as follows:

Environmental expenses	Cumula	ative	Cumulative		
	12.31.2019	12.31.2018	31.12.2019	31.12.2018

38. EVENTS AFTER THE REPORTING DATE

- On January 31, 2020, a request was filed with the Servicio de Impuestos Internos (Chilean tax authority) to change to accounting in foreign currency for tax purposes affecting Agrosuper S.A.
- In January 2020 the WHO announced the global alert for COVID-19 (Coronavirus), declaring an International Public Health Emergency (PHEIC), which has led to the implementation of various mobility restrictions and quarantines in some cities and countries, causing impacts on the logistics distribution chain, which, if maintained over time, could affect sales volumes to some markets and the consumption of some products.

The Company has a diversification of markets and customers that allows it to reasonably manage these temporary shocks; it also has a broad and varied portfolio of products, considered to be of primary need, which allows it to mitigate a potential reduction in demand in the various markets and segments in which it operates, in the face of the consequences of COVID-19 or other temporary shocks.

However, the Company operates with live animals, which require specific care, so if measures restricting the mobility of people and therefore access to our operations are extended, the environmental and health risks associated with our production could increase.

Although the Company has plans and experience to deal with these contingencies, the effectiveness of the actions depends largely on the restrictions that may be imposed by the competent authority.

 At an extraordinary meeting held on March 27, 2020, the Company's Board of Directors approved the consolidated financial statements of Agrosuper S.A. and subsidiaries as of December 31, 2019, prepared in accordance with the Standards for the Preparation and Presentation of Financial Information issued by the Financial Market Commission (CMF), in conformity with International Financial Reporting Standards (IFRS).

No other events have occurred between 31 December 2019 and the date of issue of these consolidated financial statements.

39. CURRENCY

Current assets by currency are detailed below:
